*The Lost Carving* David Esterly, 2013-12-31 A beautiful intricate meditation on creativity and discovery on fire and rebirth Elizabeth Gilbert Awestruck at the sight of a Grinling Gibbons carving in a London church David Esterly chose to dedicate his life to woodcarving its physical rhythms intricate beauty and intellectual demands Forty years later he is the foremost practitioner of Gibbons's forgotten technique which revolutionized ornamental sculpture in the late 1600s with its spectacular cascades of flowers fruits and foliage After a disastrous fire at Henry VIII's Hampton Court Palace Esterly was asked to replace the Gibbons masterpiece destroyed by the flames It turned out to be the most challenging year in Esterly's life forcing him to question his abilities and delve deeply into what it means to make a thing well Written with a philosopher's intellect and a poet's grace *The Lost Carving* explores the connection between creativity and physical work and illuminates the passionate pursuit of a vocation that unites head and hand and heart

Committee on Armed Services. Subcommittee on Military Personnel, 1981 *Modern Principles of Economics* Tyler Cowen, Alex Tabarrok, 2009-10-09 From the authors See the Invisible Hand Understand Your World That's the tagline of *Modern Principles* and our teaching philosophy Nobel laureate Vernon Smith put it this way At the heart of economics is a scientific mystery a scientific mystery as deep fundamental and inspiring as that of the expanding universe or the forces that bind matter How is order produced from freedom of choice We want students to be inspired by this mystery and by how economists have begun to solve it Thus we show how markets interconnect and respond in surprising ways to changes in resources and preferences Consider for example how markets respond to a reduction in the supply of oil Of course the price of oil increases giving consumers an incentive to use less and suppliers an incentive to discover more But an increase in the price of oil also encourages Brazilian sugar cane farmers to devote more of their production to ethanol and less to sugar thereby driving up the price of sugar An increase in the price of sugar means a reduction in the quantity of candy demanded So one way the market responds to a reduction in the supply of oil is by encouraging consumers to eat less candy In analyses like this we teach students to see the invisible hand and in so doing to understand their world Similarly we offer a unique and simple proof of the amazing invisible hand theorem that without any central direction competitive markets allocate production across firms in a way that minimizes aggregate costs To understand their world students must understand when self interest promotes the social interest and when it does not Thus *Modern Principles* has in depth analyses of externalities public goods and ethical issues with market incomes and trade Moreover we always discuss economic theory in the context of real world problems such as the decline of the ocean fisheries climate change and the shortage of human organs for transplant

Breaking the Political Glass Ceiling Barbara Palmer,Dennis Simon,2010-11-01 Why has the integration of women into Congress been so slow Is there a political glass ceiling for women Although women use the same strategic calculations as men to decide when to run the decision regarding where to run is something else While redistricting has increasingly protected incumbents it also has the unintended consequence of shaping the opportunities for female candidates The political geography and socio economic profile of districts that elect women differ substantially from districts that elect men With data on over 10 000 elections and 30 000 candidates from 1916 to the present Palmer and Simon explore how strategy and the power of incumbency affect women s decisions to run for office *Breaking the Political Glass Ceiling* is the most comprehensive analysis of women in congressional elections available The Second Edition is fully updated to reflect the pivotal 2006 mid term elections including Nancy Pelosi s rise to Speaker of the House Hillary Clinton s bid for the presidency and a record number of women serving as committee chairs Additionally the authors have created a website found at [politicsandwomen.com](http://politicsandwomen.com) to highlight key features of the book and provide updates throughout the election cycle      **National Energy Act** United States.
