barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal **Global Conjectures**

William C. Kirby, Mechthild Leutner, Klaus Mühlhahn, 2006 This volume deals with the integration of modern China into processes of global exchange and cross border interaction The articles explore the broader theme in different ways and in different subfields ranging from the history of political ideas to the history of institutions from global migration of people to the transmigration of academic discourses Focusing on modern as well as contemporary periods the studies demonstrate that China in the course of the twentieth century became an ever more important nodal point in a complex set of worldwide networks and engagements The integration into global networks together with the global consciousness that corresponded with it made possible significant connections transcending national borders The essays also show that the effects could be homogenizing or globalizing but at the same time the growing interactions also produced opposition and fragmentation

Archaeology's Visual Culture Roger Balm, 2015-12-14 Archaeology's Visual Culture explores archaeology through the lens of visual culture theory The insistent visibility of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style and reflect fundamental visual sensibilities within the discipline of archaeology
