Bickerton,2011-04-01 The Illusion of Victory demonstrates that most of the rewards of victory in modern warfare are either exaggerated or false When the ostensible benefits of victory are examined a generation after a war it becomes inescapably evident that the defeated belligerent rarely conforms to the demands and expectations of the victor Consequently long term political and military stability is denied to both the victorious power and to the defeated one As a result neither victory nor defeat deter further outbreaks of war This sobering reality is increasingly the case in the twentieth and twenty first centuries Ian Bickerton persuasively argues that as the rhetoric of victory becomes more hollow all countries must adopt creative new approaches to resolving disputes Challenges and Accomplishments as the European Union and the United States

*European Colonial Empires* H. L. Wesseling, 2015-10-23 The nineteenth century was Europe's colonial century At the beginning of the period the only colonial empire that existed was the British Empire By the end of the century the situation was completely different and Europe's colonial possessions had come to constitute a large part of the world The French had acquired an immense colonial empire and the Dutch had extended their control over Indonesia Germany and Italy unified only in the latter half of the century had claimed their place under the sun Even the tiny Kingdom of Belgium had acquired a huge colonial territory in Africa the Belgian Congo This is the first book to describe the whole process of colonization from conquest to pacification and to analyze it in the light of administrative cultural and economic developments The European Colonial Empires discusses a uniquely long period instead of merely focussing on the shorter accepted age of classical imperialism Wesseling argues that European colonial expansion can be understood only by putting it into this long term perspective and by comparing the differences between the colonies in Africa Asia Oceania and the Caribbean This book redresses the balance that privileges the British colonial and imperial experience It emphasizes the continental European experience while relating developments to the British enterprise *Studying Hinduism* Sushil Mittal, Gene

*European Citizens' Initiative: A Tool for Engagement and Active Citizenship* Yilly Vanessa Pacheco, Dulce Lopes, 2023. This publication gathers contributions to understand better and further develop the European Citizens Initiative. This participatory and agenda setting tool introduced into the Treaty of Lisbon has not yet reached its full potential of citizen engagement nor has it driven the significant policy changes initially expected. Bearing this in mind, the project ECI From A to Z aimed to promote the knowledge and use of the European Citizens Initiative within the higher education arena by engaging investigators and students from four different Universities: University of Coimbra, Georg August University of Göttingen, Alexandru Ioan Cuza University of Iași and the University of Vigo, to work together to share their concerns and common views on the European Union role and policies. This publication describes the methodology followed and results reached under the project, but more than that, it is a practical toolkit for all who wish to know more about the European Citizens Initiative and how to put it in motion.

*European Public Procurement Law* Constant de Koninck, Peter Flamey, 2009-01-01. The European directives on public procurement do not contain any specific provisions ensuring their effective application. These provisions can be found in the Public Sector Remedies Directive 89/665 EEC and the Utilities Remedies Directive 92/13 EEC, as these directives have recently been amended by Directive 2007/66 EC. These measures provide means of redress for tenderers who have been prejudiced by a breach of the EU rules on public procurement. Following the highly user-friendly approach of its Part I predecessor and which cited and analyzed the Court of Justice's case law concerning the substantive EU procurement rules laid down in the Public Sector Directive and the Utilities Directives, and this book combines and links the full texts of the procurement remedies directives with 31 pertinent judgments issued by the Court of Justice of the European Communities. In one easy-to-use volume, this book provides full texts of the the Public Sector Remedies Directive and the Utilities Remedies Directive with the articles of these directives linked to the relevant Court of Justice case law, in-depth analysis of 31 judgments rendered by the Court of Justice in the period 1993 and 2008 in connection with subject matter treated by the articles of the two directives, expert discussion of major innovations introduced by Amending Directive 2007/66 EC with analysis of its ratio legis and full text essential excerpts from the chronologically ordered judgments, with each excerpt preceded by an overview of the subject matter and points of law treated in the judgment, pertinent passages of the opinions of the Advocate General and an exhaustive subject index. By thus combining the theory and reality and of European procurement law, the book not only saves readers time and effort but also provides profound and practical insight into the Remedies Directives and the important rights and obligations which they create. The pursuit of remedies for breaches of the EU procurement rules is a topic of high interest to public authorities and their suppliers, contractors and service

providers across Europe This book will be of great value to practitioners and to officials charged with ensuring that decisions taken by the public contracting authorities and entities may be reviewed effectively and rapidly thus building confidence among businesses and the public that public procurement procedures are fair European Misunderstanding André Gauron,2000 An advisor to Lionel Jospin this author paints a picture of the messy march toward a unified Europe and calls for a more representative system starting with a Constitution for all of Europe *Bilingualism and Identity in Deaf Communities* Melanie Metzger,2000 Is perception reality Editor Melanie Metzger investigates the cultural perceptions by and of deaf people around the world in *Bilingualism and Identity in Deaf Communities* All sociocultural groups offer possible solutions to the dilemma that a deaf child presents to the larger group write Claire Ramsey and Jose Antonio Noriega in their essay *Ninos Milagrizados Language Attitudes Deaf Education and Miracle Cures in Mexico* In this case Ramsey and Noriega analyze cultural attempts to unify deaf children with the rest of the community Other contributors report similar phenomena in deaf communities in New Zealand Nicaragua and Spain paying particular attention to how society's view of deaf people affects how deaf people view themselves A second theme pervasive in this collection akin to the questions of perception and identity is the impact of bilingualism in deaf communities Peter C Hauser offers a study of an American child proficient in both ASL and Cued English while Annica Detthow analyzes transliteration between Spoken Swedish and Swedish Sign Language Like its predecessors this sixth volume of the *Sociolinguistics in Deaf Communities* series distinguishes itself by the depth and diversity of its research making it a welcome addition to any scholar's library The Financial System Limit David Kauders,2020-07-27 Can the world really continue to stimulate its way out of every downturn What happens to debt as central banks and governments buy prosperity In *The Financial System Limit* the author puts forward three radical theories which show that Keynesian economics can no longer benefit society He explains why debt cannot expand to infinity then how debt interest is a cost to us all The global economic cycle is now determined by central bank policies David Kauders FRSA is a British investment manager who has been concerned about the hidden social costs of easy money This is his third book Read *The Financial System Limit* to understand why banks keep failing and learn why financial and economic policies have to change You will discover why debt reduction programs do not work Instead of reacting to the news stories of the day join the challenge to the economic consensus by reading *The Financial System Limit*
