Penalty Roger Hood,Carolyn Hoyle,2008 This new edition of a classic study assesses the global status of capital punishment As in previous editions this work draws on Roger Hood s experiences as consultant to the United Nations for the Secretary General s five yearly surveys of capital punishment as well as the latest literature from non governmental organizations and academic experts This edition examines significant developments around the world including the Chinese plan for the People s Supreme Court to review all death sentences and the abolition in the USA of the death penalty for offenders who committed murder while under the age of 18 Recent legal challenges to lethal injection as a form of execution are also examined This edition also includes an additional chapter on the role and influence of victims families and victim interest movements This volume shows how despite a number of set backs the movement to abolish the death penalty has continued to gather pace that international organizations and human rights treaties continue to put pressure on retentionist countries that further developments have been made in securing protection for those facing the death penalty in retentionist counties and that despite such advances in some parts of the world the range of crimes subject to the death penalty remains wide and the number of executions considerable This work engages with the latest debates on the realities of capital punishment with claims that the death penalty is a unique deterrent to murder and other serious crimes and contains expanded coverage of arguments about the role of public opinion in the debate on capital punishment *Women and Capital Punishment in the*

United States David V. Baker,2015-11-26 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population *Journal of the American Medical Association* American Medical Association,1908 Includes

proceedings of the Association papers read at the annual sessions and list of current medical literature **Resistance**

Shane Moran,2021-04-19 In Resistance Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje s resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation

Legalizing LGBT Families Amanda K. Baumle,D'Lane R. Compton,2017-11 In depth interviews examine the role of the law in the lives of LGBT parents The decision to have a child is seldom a simple one often fraught with complexities regarding emotional readiness finances marital status and compatibility with life and career goals Rarely though do individuals consider the role of the law in facilitating or inhibiting their ability to have a child or to parent For LGBT individuals however parenting is saturated with legality including the initial decision of whether to have a child how to have a child whether one s relationship with their child will be recognized and everyday acts of parenting Through interviews with 137 LGBT parents Amanda K Baumle and D Lane R Compton examine the role of the law in the lives of LGBT parents and how individuals use the law when making decisions about family formation or parenting Baumle and Compton explore the ways in which LGBT parents participate in the process of constructing legality through accepting modifying or rejecting legal meanings about their families They conclude that legality is constructed through a complex interplay of legal context social networks individual characteristics and familial desires Ultimately the stories of LGBT parents in this book reflect a rich and varied relationship between the law the state and the private family goals of individuals

The Death Penalty Roger Hood CBE QC (Hon) DCL FBA,Carolyn Hoyle,2008-03-27 The 4th edition of this authoritative study of the death penalty now written jointly with Carolyn Hoyle brings up to date developments in the movement to abolish the death penalty worldwide It draws on Roger Hood s experience as consultant to the United Nations for the UN Secretary General s five yearly surveys of capital punishment and on the latest information from non governmental organizations and the academic literature Not only have many more countries abolished capital punishment but even amongst those that retain it the majority have been carrying out fewer executions Legal challenges to the mandatory capital punishment have been successful as has the pressure to abolish the death penalty for those who commit a capital crime when under the age of 18 This edition has more to say about the prospects that China will restrict and control the number of executions on the road to abolition Yet despite such advances this book reveals many human rights abuses where the death penalty still exists In some countries a wide range of crimes are still subject to capital punishment and the authorities too often fail to meet the safeguards embodied in international human rights treaties to safeguard those facing the death penalty There is evidence of police abuse unfair trials lack of access to competent defence counsel excessive periods of time spent on in horrible conditions on death row and

public painful forms of execution The authors engage with the latest debates on the realities of capital punishment especially its justification as a uniquely effective deterrent whether it can ever be administered equitably without discrimination or error and what influence relatives of victims should have in sentencing and on the public debate For the first time it also discussing the problem of devising an alternative to capital punishment especially life imprisonment without the possibility of parole

Feld,2019-06-01 Winner 2020 ACJS Outstanding Book Award given by the Academy of Criminal Justice Sciences A major statement on the juvenile justice system by one of America s leading experts The juvenile court lies at the intersection of youth policy and crime policy Its institutional practices reflect our changing ideas about children and crime control The Evolution of the Juvenile Court provides a sweeping overview of the American juvenile justice system s development and

change over the past century Noted law professor and criminologist Barry C Feld places special emphasis on changes over the last 25 years the ascendance of get tough crime policies and the more recent Supreme Court recognition that children are different Feld s comprehensive historical analyses trace juvenile courts evolution through four periods the original Progressive Era the Due Process Revolution in the 1960s the Get Tough Era of the 1980s and 1990s and today s Kids Are Different era In each period changes in the economy cities families race and ethnicity and politics have shaped juvenile courts policies and practices Changes in juvenile courts ends and means substance and procedure reflect shifting notions of children s culpability and competence The Evolution of the Juvenile Court examines how conservative politicians used coded racial appeals to advocate get tough policies that equated children with adults and more recent Supreme Court decisions that draw on developmental psychology and neuroscience research to bolster its conclusions about youths reduced criminal responsibility and diminished competence Feld draws on lessons from the past to envision a new developmentally appropriate justice system for children Ultimately providing justice for children requires structural changes to reduce social and economic inequality concentrated poverty in segregated urban areas that disproportionately expose children of color to juvenile courts punitive policies Historical prescriptive and analytical The Evolution of the Juvenile Court evaluates the author s past recommendations to abolish juvenile courts in light of this new evidence and concludes that separate but reformed juvenile courts are necessary to protect children who commit crimes and facilitate their successful transition to adulthood
