## **Love Celibacy And The Inner Marriage:**

Love, Celibacy and the Inner Marriage John P. Dourley, 1987 The author of *The Illness That We Are* and *The Psyche as Sacrament* shows that without a deeply compassionate relationship to our own soul we cannot realize the full extent of our ability to love either our intimates or God

*Love, Celibacy and the Inner Marriage* John Dourley, C.G. Jung Society of Ottawa, 1983\* *Love: Bondage or Liberation?* Deirdre Johnson, 2018-03-26 Much has been written about the function of falling in love in the course of therapy itself This book has a much broader aim The author a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value The author argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths

The World Is a Waiting Lover Trebbe Johnson, 2011-02-08 Johnson explores the concept of the Beloved the elusive alluring force that beckons us forth to passionate engagement with the world and shows how our sense of love is often linked to something far greater than ourselves She explains that mistaking a human lover for the inner eternal Beloved is the first step in any romance yet the ability to distinguish between the two ultimately holds the key to our quest for personal freedom and fulfillment Steeped in Western and Eastern myth and romantic imagery *The World is a Waiting Lover* guides us through story and thought in order to discover passion Eros and our authentic selves It is a personal story and at the same time an invitation to explore our individual yearnings to live with fearless authenticity as we find more passion and meaning in our work relationships and view of the future

**College Cloisters - Married Bachelors** Bridget Duckenfield, 2014-07-03 Using archival material and many unpublished sources this work traces the origins of Oxford and Cambridge University colleges as places of learning founded from the thirteenth century for unmarried men who were required to take vows of poverty chastity and obedience the majority of whom trained for the priesthood The process reveals how the isolated monk like existence was gradually transformed from the idea of married Fellows at University Colleges being considered absurd into considering it absurd not to allow Fellows to marry and keep their fellowships and therefore their income This book shows how the Church was accepted as an essential element in society with university trained Churchmen becoming influential in Crown government and State As part of the cataclysmic change from Catholic to Protestant religion Edward VI and his Council permitted priests to marry partly to declare their allegiance to the new Protestant religion and their rejection of the old However within the university colleges the rule that Fellows would lose their fellowships immediately on marriage

was insisted upon Why a group of individuals were instructed to remain set in a medieval monastic way of life within a nineteenth century institution is traced in conjunction with how anomalies arose were absorbed accepted or challenged by a few courageous individuals prior to bringing about the ultimate change to the statutes in 1882 In God's Shadow Ann Conrad Lammers,1994 For years world famous psychologist C G Jung and British theologian Victor White author of *God and the Unconscious* engaged in a lively correspondence Now Anne Conrad Lammers examines the highly illuminating friendship and dialogue between these two men providing particularly valuable insights into Jung s attitude toward theology

Walker,2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung s theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover **The Religious Function of the Psyche** Lionel Corbett,2002-01-04 Traditional concepts of God are no longer tenable for many people who nevertheless experience a strong sense of the sacred in their lives *The Religious Function of the Psyche* offers a psychological model for the understanding of such experience using the language and interpretive methods of depth psychology particularly those of C G Jung and psychoanalytic self psychology The problems of evil and suffering and the notion of human development as an incarnation of spirit are dealt with by means of a religious approach to the psyche that can be brought easily into psychotherapeutic practice and applied by the individual in everyday life The book offers an alternative approach to spirituality as well as providing an introduction to Jung and religion

individual and social life This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion On Behalf of the Mystical Fool examines Jung's critique of traditional western religion demonstrating the negative consequences of religious and political collective unconsciousness and their consequent social irresponsibility in today's culture The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual's access to the sense of ultimacy residual in the psyche and seeking expression in a myth of a much wider compass This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience
