These words do not come from heaven These writings knowledge arose in the Heart through Universal Intuition and were written from Oneself to oneself without the interference of the author s personal thoughts ego What you call I is your identity Bonding yourself with your identity creates the I am ego personality This identity of yours is not actually you it is an illusory state of what you are not In Reality you are not your ego identity The external world and its social parameters play a big role in forming this ego identity You do not own anything no name no form or any image that you can call I You have not constructed or created these You do not own anything you think you can control or possess When you identify yourself with these things the things that you are not or do not own you are creating a self imposed prison for yourself and living inside of it In other words you create your ego personality In this case we have to ask the following question who am I Really Are you really all that you claim to own names forms and images Are you only made up of body and mind When you identify with these beliefs and those of the collective world consciousness you get lost and break away from your true Reality When you claim ownership of these names forms and images you create your ego personality Whenever you say I am this or that you are identifying with that thing which you now claim as your own and you unify yourself with that thing If you do not identify with anything if you do not claim ownership of anything the I ceases to exist Removing the I dissolving it is the ultimate freedom we seek The walls of the self imposed prison of ego personality you possessively created will fall away Here in this liberated state of being the necessity for choice or decision falls away too You act just as is needed in each moment of life as it arises in the Now Thoughts of should I have done this or that will disappear The mind is like software running on a computer The virus that corrupts the software is the ego It is this ego personality that creates erroneous beliefs and then claims ownership of them Only when this virus is removed by an antivirus program Mind reveals itself in its full capacity With this cleaning up process human minds become increasingly liberated and expansively intelligent In this Book knowledge of advanced life is being released into the public publishing domain for the first time This life can be described with concepts of Absolute Human Birth of Absolute Humanity Experiencing Non Existence and Beyond Non Existence We believe through our life experience that the only way to change our individual and collective point of view is to know NON EXISTENCE The will behind the writing and publishing of this knowledge in the Book arose in servitude

Grandparents/Grandchildren Arthur Kornhaber,Kenneth L. Woodward,2019-11-20 In this book Kornhaber and Woodward explore the vital connections which link generations to each other and expose a new social contract that destroys the emotional bonds between grandparents and grandchildren This is the first book which reviews in a careful ethnographic manner the relationship of grandchildren to grandparents and the place of love at one end and abandonment at the other by grandparents The authors probe the deep unexplored emotional histories of hundreds of grandparents how they feel about themselves their grandchildren and their loss of function within today s nuclear family With sharp increases in the number of broken families and working mothers grandparents are more vital than ever and also more available than ever This basic research document shows how grandparents recover their natural role as elders of the family and of society The author s basic premise is that to exist is to be connected and that no matter how grandparents act they affect the emotional well being of their grandchildren for better or for worse simply because they exist In an age when mounting economic and social pressures make it increasingly easier to split a family than to sustain one the authors alert us to a forgotten source of family strength the power of grandparents to enrich the lives as a whole The case studies reported in this volume represent a first effort in an area left unexplored by developmental

The Ethics of Interpretation Pol Vandavelde,2023-03-07 This book discusses the ethical dimension of the interpretation of texts and events Its purpose is not to address the neutrality or ideological biases of interpreters but rather to discuss the underlying issue of the intervention of interpreters into the process of interpretation The author calls this intervention the ethical aspect of interpretation and argues that interpreters are neither neutral nor necessarily activists He examines three models of interpretation all of which recognize the role that interpreters play in the process of interpretation In these models the question of the truth or validity of interpretation is dependent upon the attitude of interpreters These three models are 1 the principle of charity in interpretation in the two different versions defended by Hans Georg Gadamer and Donald Davidson 2 the production of truth as developed by Paul Ricoeur and Michel Foucault and 3 the regulative principle in interpretation as formal validity claims as presented by Karl Otto Apel and J rgen Habermas and as benevolence or love as an epistemic virtue as defended by Friedrich Schlegel and Friedrich Schleiermacher The critical discussion of these three models which brings to the fore the different manners in which interpreters intervene in the process of

interpretation as persons lays the foundations for an ethics of interpretation The Ethics of Interpretation will be of interest to scholars and advanced students working in hermeneutics 19th and 20th century philosophy literary theory and cultural theory
