Dilman,2016-01-13 The book is concerned with questions about love questions about its many forms strands and aspects and the relation in which they stand to each other It is concerned with the way different aspects of sexual love conflict with each other with the way self regard and self interest can corrupt love and with spiritual love and its difficulties It seeks the views of some writers who have suggested some distinctive solutions to the existential problems that love poses in the face of its obstacles Plato Proust Sartre Freud D H Lawrence Erich Fromm C S Lewis Kierkegaard Simone Weil and Kahlil Gibran **Love's Grateful Striving** M. Jamie Ferreira,2001-06-07 Soren Kierkegaard s Works of Love 1847 a series of deliberations on the commandment to love one s neighbor has often been condemned by critics Here Ferreira seeks to rehabilitate Works of Love as one of Kierkegaard s most important works He shows that Kierkegaard s deliberations on love are highly relevant to some important themes in contemporary ethics including impartiality duty equality mutuality reciprocity self love sympathy and sacrifice Ferreira also argues that Works of Love bears on issues peculiar to a religious ethic such as the role of God as middle term and the possibility of preserving the aesthetic dimensions of love in a religious ethic of relation **The Possibility of Love** Kathleen O'Dwyer,2009 The Possibility of Love is an exploration of a concept close to the human heart Grounded in the ordinary everyday experiences of human living the book provides an exploration of the diverse obstacles to the experience of love the consequences of love TM s absence and the unquenchable desire for love which propels influences and ultimately motivates much of human behaviour The Possibility of Love poses the question is love actually possible between human beings or is it an ideal a fantasy an illusion or a comforting aspiration which enables a palliative denial and distortion of the reality of human being This expansive question is approached through an interdisciplinary analysis The author addresses the question of love TM s possibility as it is explored in a selection of literature from the disciplines of philosophy psychoanalysis and poetry The interdisciplinary nature of the study is based on the assertion of an interconnection between the three disciplines and that this interconnection enables a unique and insightful exploration of the question of love TM s possibility Thus the question is explored from diverse view points and also from different time frames convergences and divergences are noted and discussed and conclusions are drawn from the ensuing findings The book is essentially a philosophical analysis of an emotion that significantly impacts on human experience It attests to the gradually increasing acknowledgement of the power of

emotional experience in the search for knowledge wisdom and truth Thus it is a uniquely honest exploration of human nature in contemporary times *Reviving the Golden Rule* Andrew DeCort,2025-10-02 The Revolutionary Power of Loving Your Neighbor Discover the transformational power of neighbor love in theologian and ethicist Andrew DeCort s *Reviving the Golden Rule* This thought provoking work illuminates the revolutionary ethics of loving your neighbor weaving together history theology and practical guidance Through this in depth historical survey of the ethics of neighbor love DeCort invites readers to reclaim loving their neighbor as a powerful force for justice healing and human flourishing The biblical charges to love your neighbor as yourself and to do to others as you would have them do to you are at the heart of Abrahamic faith DeCort argues that they are also at the heart of some of the most groundbreaking developments in human rights and the common good Jesus taught neighbor love and promised Do this and you will flourish But Christians today are at high risk of ignoring or overthrowing the most daring teaching of Jesus movement Having heard it repeatedly and having benefited immensely from its cultural effects we have become dulled to neighbor love s revolutionary power In response *Reviving the Golden Rule* Explores the ethics of neighbor love from the ancient world to modern times Examines how neighbor love challenges the oppressive power of othering and expands human connection Highlights inspiring figures like Dietrich Bonhoeffer Mother Teresa and Oscar Romero who practiced neighbor love among marginalized communities Addresses instances where Christians have failed to uphold neighbor love Provides practical guidance on how to love and embrace othered neighbors today In one of the only historical and constructive works on the ethics of neighbor love DeCort invites us to reclaim this ancient movement Get your copy today and learn to embody this revolutionary practice amidst crises for the healing of the world *Raskolnikov's Rebirth* İlham Dilman,2000 Author İlham Dilman explains why a thoughtful psychology encompassing the varied modes of being experienced by humans is the best tool for investigating the nature of good and evil To illustrate he employs Raskolnikov Dostoyevsky s axe murdering protagonist in *Crime and Punishment* following his alienation from goodness his return to it and finally his ethical rebirth **Philosophy of Love, Sex, and Marriage** Raja Halwani,2010-05-26 How is love different from lust or infatuation Do love and marriage really go together like a horse and carriage Does sex have any necessary connection to either And how important are love sex and marriage to a well lived life In this lively lucid and comprehensive textbook Raja Halwani pursues the philosophical questions inherent in these three important aspects of human relationships exploring the nature uses and ethics of romantic love sexuality and marriage The book is structured in three parts Love begins by examining how romantic love differs from other types of love such as friendship and parental love It asks which properties of love are essential whether people have a choice in whom they love and whether lovers have moral obligations to one another that differ from those they owe to others Sex demonstrates the difficulty in defining sex and the sexual and examines what constitutes good and bad sex in terms of pleasure naturalness and moral permissibility It offers theoretical and applied ethical approaches to a wide range of sexual phenomena Marriage

Moral Foundations of Philosophy of Mind Joel Backström,Hannes Nykänen,Niklas Toivakainen,Thomas Wallgren,2019-09-05 This volume brings together a collection of essays that explore in a new way how unacknowledged moral concerns are integral to debates in the philosophy of mind The radical suggestion of the book is that we can make sense of the internal dynamics and cultural significance of these debates only when we understand the moral forces that shape them Drawing inspiration from a variety of traditions including Wittgenstein Lacan phenomenology and analytic philosophy the authors address a wide range of topics including the mind body problem the problem of other minds subjectivity and objectivity the debates on mindreading naturalism reductive physicalism representationalism and the E turn Dennett s heterophenomenology McDowell s neo Kantianism Wittgenstein s private language considerations and his notion of an attitude towards a soul repression love conscience the difficulties of self understanding and the methods and aims of philosophy Through a combination of detailed immanent criticism and bold constructive work the authors move the discussion to a new level beyond humanistic or conservative critiques of naturalism and scientism Shakespeare and the Nature of Love Marcus Nordlund,2007 The best conception of love Marcus Nordlund contends and hence the best framework for its literary analysis must be a fusion of evolutionary cultural and historical explanation It is within just such a bio cultural nexus that Nordlund explores Shakespeare s treatment of different forms of love His approach leads to a valuable new perspective on Shakespearean love and more broadly on the interaction between our common humanity and our historical contingency as they are reflected recast transformed or even suppressed in literary works After addressing critical issues about love biology and culture raised by his method Nordlund considers four specific forms of love in seven of Shakespeare s plays Examining the vicissitudes of parental love in *Titus Andronicus* and *Coriolanus* he argues that Shakespeare makes a sustained inquiry into the impact of culture and society upon the natural human affections *King Lear* offers insight into the

conflicted relationship between love and duty In two problem plays about romantic love Troilus and Cressida and All's Well that Ends Well the tension between individual idiosyncrasies and social consensus becomes especially salient And finally in Othello and The Winter's Tale Nordlund asks what Shakespeare can tell us about the dark avatar of jealousy *The Self, the Soul and the Psychology of Good and Evil* Ilham Dilman,2007-04-11 The way an individual's psychology is intertwined with their morality is the subject of this fascinating book from the pen of the late Ilham Dilman Dilman convincingly argues that evil though it cannot be reduced to psychological terms it is a moral concept is explicable in terms of an individual person's psychology Goodness by contrast comes from the person and not their psychology Philosophers the world over will want to read this book and see how Dilman skilfully defends his arguments *Sense and Reality* John Edelman,2013-05-02 This book is a collection of essays each of which discusses the work of one of eight individuals Rush Rhees Peter Winch R F Holland J R Jones H O Mounce D Z Phillips Ilham Dilman and R W Beardsmore who taught philosophy at the University of Wales Swansea for some time from the 1950s through to the 1990s and so contributed to what in some circles came to be known as the Swansea School These eight essays are in turn followed by a ninth that drawing on the previous eight offers something of a critical overview of philosophy at Swansea during that same period The essays are not primarily historical in character Instead they aim at both the critical assessment and the continuation of the sort of philosophical work that during those years came to be especially associated with philosophy at Swansea work that is deeply indebted to the philosophy of Ludwig Wittgenstein but also distinctively sensitive to the relevance of literary works to philosophical reflection **Psychoanalytic Knowledge** M. Chung,C. Feltham,2003-11-04 Psychoanalytic Knowledge presents cutting edge thinking on some fundamental ideas in psychoanalysis by important international scholars in the field of the philosophy of psychoanalysis It explores the nature of psychoanalytic knowledge in the light of contemporary philosophical views or critiques of a diversity of topics relevant to psychoanalysis the philosophy of mind the notion of changing oneself religion the notion of interdisciplinary links with psychoanalytic knowledge post Freudian psychoanalytic knowledge and challenges to psychoanalytic methodology *When Texas Prison Scams Religion* Michael G. Maness,2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ's executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25

years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars **The Handbook of Virtue**

Ethics Stan van Hooft,2014-09-11 Virtue ethics has emerged as a distinct field within moral theory whether as an alternative account of right action or as a conception of normativity which departs entirely from the obligatoriness of morality and has proved itself invaluable to many aspects of contemporary applied ethics Virtue ethics now flourishes in philosophy sociology and theology and its applications extend to law politics and bioethics The Handbook of Virtue Ethics brings together leading international scholars to provide an overview of the field Each chapter summarizes and assesses the most important work on a particular topic and sets this work in the context of historical developments Taking a global approach by embracing a variety of major cultural traditions along with the Western the Handbook maps the emergence of virtue ethics and provides a framework for future developments **Would You Lie to Save a Life** Michael Glenn Maness,2007-09-12 Would You Lie to

Save a Life Love Will Find a Way Home A Theology on the Ethics of Love In 1968 Commander Lloyd Bucher and the USS Pueblo were pirated on the high seas They were held captive for 11 months and Bucher was forced to sign a confession forced to lie to save the lives of his men How does Love impact that decision in a Christian theology Love makes the world go round Without Love little else has value this side of heaven In this dilemma between Love and Truth Love was chosen over Truth but not at the expense of all Truth Between the deontological and teleological elements time itself comes into play in the determination of the absolute rightness of the choice in perfect Love How is as capable as Jesus was and is today The course of Love is a sacred stewardship of time that is the highest exhibition of the Christian's own Imago Dei or image of God granted to us in creation When we are able to follow the Scarlet Thread of obedience perfectly it will lead straight through all of 1 the areas of complexity uniting 2 all of the demands of all of the absolutes and run dead center between 3 all of the ethical fine lines These three areas are detailed specifically *Dictionary of Twentieth-Century British Philosophers* Stuart

Brown,2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs

as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture

Rethinking Philosophers' Responsibility Lydia Amir, 2017-11-06 Calling on philosophers as the custodians of rationality to reconsider their responsibility toward their communities and the state of civilization at large this book considers philosophy to be a practical discipline Largely foreign to philosophers and non philosophers alike this conception of philosophy discloses the relevance of its unique contributions to contemporary society The book offers a compelling and accessible analysis of philosophy also in relation to religion psychology the New Age Movement and globalization and exemplifies through a wide range of current problems how philosophers can fulfil their responsibility Its argument that responsibility lies where one is capable of doing what is needed and even more so when no one else can do it targets philosophers However its innovative study of contemporary philosophy coupled with its original contributions to the problems at hand will engage academics and students from other disciplines as well as a general readership

A Church of the Poor Sedmak, Clemens, 2016-12-15 Using resources ranging from scripture to Catholic social teaching to the early Church Fathers the author examines how Pope Francis's emphasis on the Church of the Poor is calling us to a new epistemic practice involving an understanding of orthodoxy as discipleship and discipleship as a new way of getting to know and understand the world
