Love Sex And Identity:

Sexuality and Identity Leslie J. Moran, 2017-11-30 Born in the late nineteenth century sexuality is a relatively new category within the human sciences in general and law and society scholarship in particular Despite its novelty it is now a central category through which we understand ourselves both as individuals and as members of communities This volume offers a collection of essays selected to reflect the ever widening horizons and diverse methodologies of law and society scholarship on sexual and identity in law The essays offer an insight into some of the key themes and recent developments in this body of work Each in different ways offers an evaluation of the nature meaning and effects of sexuality thereby providing a critical evaluation of the politics of sexual identity as it appears in and through the law **LoveSex** Cabby

Laffy, 2018-05-08 This book looks at how our brains minds bodies and emotions interact to create our experience of sexuality and how we can create a sense of sexual self esteem and a nutritious sexual diet for ourselves As the author notes in her Introduction we think and talk about sex as something we do rather than sexuality being something that we have and being sexual as something that we are We talk little about feeling sexual or the emotional and relational reasons for sexual desire about the fact that it is usually an other that we want to be sexual with Our focus seems to be on how much sex we can have rather than how we want to express ourselves sexually This book challenges the cultural commodification of sex and sexuality and encourages the reader to experience being sexual rather than doing sex or looking sexy This is crucial to our development of sexual self esteem particularly in an era of ubiquitous online pornography Love, Sex, and Identity, 1972

Place and Identity in the Lives of Antony, Paul, and Mary of Egypt Peter Anthony Mena, 2019-04-24 In this book Peter Anthony Mena looks closely at descriptions of space in ancient Christian hagiographies and considers how the desert relates to constructions of subjectivity By reading three pivotal ancient hagiographies the Life of Antony the Life of Paul the Hermit and the Life of Mary of Egypt in conjunction with Gloria Anzald's ideas about the US Mexican borderlands *la frontera* Mena shows readers how descriptions of the desert in these texts are replete with spaces and inhabitants that render the desert a borderland or frontier space in Anzald's terms As a borderland space the desert functions as a device for the creation of an emerging identity in late antiquity the desert ascetic Simultaneously the space of the desert is created through the image of the saint Literary critical religious studies and historical methodologies converge in this work in order to illuminate a heuristic tool for interpreting the desert in late antiquity and its importance for the development of desert asceticism Anzald's theories help guide a reading especially attuned to the important relationship between space and subjectivity

Centers of Power Joseph H. Berke, Stanley R. Schneider, 2008-01-22 Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material

as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality

Gender Complementarity and Christian Personalism Mary Veronica Sabelli, John P. Hittinger, 2025 When in the 1970 s Sister Prudence Allen RSM began to investigate philosophical thought on woman the question was considered to be at best a marginal area for philosophical research Rather it was seen as a sociological anthropological psychological or political issue This book confirms that today partly due to Allen s groundbreaking work the complementarity of man and woman is an important and fruitful area of research in philosophy providing an evaluative framework that enriches and challenges many other disciplines No one could have foreseen the centrality of her research for questions of gender theory that are in the third decade of the 21st century in the forefront of public attention In the present volume leading authors in the area of sex gender complementarity reflect upon and further develop various aspects of Allen s research In 14 original scholarly essays some contributors build upon Allen s project of exploring the concept of woman throughout the history of philosophy Others explore the work of 20th century philosophers most of them Christian Personalists whom Allen credits with significant influence on the development of integral gender complementarity such as Karol Wojtya a John Paul II Jacques Maritain Edith Stein Emmanuel Mounier W Norris Clarke SJ and Bernard Lonergan SJ Still other contributors consider Marian spirituality analogies between Benedictine spirituality and the physiological realities of a woman s body during pregnancy seminary education in the writings of Allen and others and the impact of Allen s work on the real lives of women in families the Church and professional life Upon completing her magisterial three volume work The Concept of Woman Allen passed the baton to a new generation of scholars stating The next phases will be developed by those who themselves take the argument further and deeper in their own research writing living and lecturing The present volume takes up the baton carrying Allen s work forward and paying tribute to the lifetime achievement of a great scholar
