content of an individual's aesthetic experience is a stimulating new direction for psychoanalytic theory of art. With this work Hagman stands in the company of his predecessors with this deeply learned sensitively conceived and provocative general theory of human aesthetic experience. Ellen Dissanayake author of *Art and Intimacy: How the Arts Began* and *Homo Aestheticus: Where Art Comes From and Why* [Women, Love, and Power](#) Elaine Baruch, 1992-10 Elaine Baruch is not only among the most quiet voiced and fair minded of feminist writers. She is also among the most far ranging in her scholarship equally at ease with the writers of the Renaissance and Freud the medieval troubadours and our contemporary polemicists instructive absorbing and persuasive. Diana Trilling A lively mind is at work here and a keen and witty writer too. Irving Howe This is a fine collection of essays making many imaginative conjectures and amusing connections. *Times Literary Supplement* In these essays what emerges is a history of romantic love. Highly recommended. *Library Journal* Arguing that romantic love need not be a tool of women's oppression feminist critic Baruch contends that unacknowledged male fantasies about love motivate much literature by men rewarding provocative. *Publishers Weekly* Utilizing both Freudian and non Freudian psychoanalysis as well as feminist criticism Baruch examines literary works by women and men from medieval and Romantic periods as well as cultural observations on the twentieth century and how they have influenced attitudes toward love. *The Tangled Wing* Melvin Konner, 2003-02 A vital updating of a seminal work of science. The book suggests that everyone seeks psychic complementarity with

an Other in intimate relationships as a way of supporting personal growth and development A complementary partner is one who is different in some individually meaningful way not necessarily in terms of gender Drawing upon interviews with individuals and lesbian couples literature on lesbian psychology and contemporary psychoanalytic theory Beverly Burch observes a special attraction between primary lesbians women who have been attracted to other women from an early age and lesbians who formerly were heterosexual This difference may be a source of tension for lovers but it also attracts and bonds them in conscious and unconscious ways The intimacy between lesbian partners permits interpersonal exchanges that foster the continuing development of each according to Burch This development can occur in three areas with the significance of each varying from couple to couple It can be a source of both conscious and unconscious psychosexual exchanges a way in which each partner can experience the road not taken through her relationship with the other The partners different histories can reflect different ways of negotiating difference itself a pivotal theme in the development of adult women And gender role identities related to different developmental experiences can be played with expanding the experience of being female in a way that can challenge gender categories

Barriers to Loving Stephen B. Levine, 2013-10-23 Barriers to Loving is an intriguing exploration of the role of sexual love over the course of life Beginning with the mental health professions avoidance of the topic Levine proposes a

compendium of love's pathologies by reorganizing what is familiar to clinicians into the barriers that limit the formation of adult love impediments that diminish a partner's lovability and the impediments to feeling and expressing love for a partner. Before reviewing scientific contributions to the understanding of love, he explores the topics of sexual excess and infidelity and how they relate to the aspiration to love and be loved. The final two chapters synthesize with clarity what to teach about love to young professionals in order to prepare them for the complexities they will soon encounter and provide a sophisticated answer to the question: What is love? *Barriers to Loving* integrates humanism, science, and clinical experience in Levine's long-appreciated unique and mature voice.

The Kennedy Obsession John Hellmann, 1999-03-19 John F. Kennedy was not only a president but also a symbol for America's most cherished ideas. In *The Kennedy Obsession*, John Hellmann takes a thoroughly original approach to understanding Kennedy's star power and his carefully crafted public image. Tracing Kennedy's self-creation as diligent scholar, bashful hero, and sensitive rebel, cued by cultural figures such as Lord Byron, Ernest Hemingway, and Cary Grant, and the images of Kennedy in the aftermath of his assassination, Hellmann reveals the painstaking transformation of private life into public persona of a man into perhaps the major American myth of our time.

Reload Mary Flanagan, Austin Booth, 2002-05-03 An anthology of feminist cyberfiction and theoretical and critical writings on gender and technoculture. Most writing on cyberculture is dominated by two almost mutually exclusive visions: the heroic image of the male outlaw hacker and the utopian myth of a gender-free cyberworld. *Reload* offers an alternative picture of cyberspace as a complex and contradictory place where there is oppression as well as liberation. It shows how cyberpunk's revolutionary claims conceal its ultimate conservatism on matters of class, gender, and race. The cyberfeminists writing here view cyberculture as a social experiment with an as yet unfulfilled potential to create new identities, relationships, and cultures. The book brings together women's cyberfiction, fiction that explores the relationship between people and virtual technologies, and feminist theoretical and

critical investigations of gender and technoculture From a variety of viewpoints the writers consider the effects of rapid and profound technological change on culture in particular both the revolutionary and reactionary effects of cyberculture on women s lives They also explore the feminist implications of the cyborg a human machine hybrid The writers challenge the conceptual and institutional rifts between high and low culture which are embedded in the texts and artifacts of cyberculture
