Tepperman, 1986 *Making Sense of the Social World* Daniel F. Chambliss, Russell K. Schutt, 2014-12-16 At the heart of this book is the authors firm belief that understanding research methods is critical to being an informed citizen in our complex fast paced social world Now in its Fifth Edition Making Sense of the Social World by Daniel F Chambliss and Russell K Schutt continues to help students achieve that understanding by providing a balanced treatment of qualitative and quantitative methods integrating substantive examples and research techniques throughout All essential elements of social research

methods are covered including validity causation experimental and quasi experimental design and techniques of analysis Additionally it is written in a less formal style to make concepts more accessible to students and it includes wide ranging practical exercises drawn from every experience to help students get hands on with the material Not only do students find the book approachable and easy to digest but they also enjoy it

Religion, spirituality and the social sciences Basia Spalek, Alia Imtoul, 2008-09-03 A growing number of people are claiming or reclaiming a religious or spiritual identity for themselves Yet in contemporary Western societies the frameworks of understanding that have developed within the social science disciplines and which are used to analyse data are secular in nature and so may be inappropriate for investigating some aspects of religion spirituality and faith and how these intersect with individuals lives This edited collection addresses important theoretical and methodological issues to explore ways of engaging with religion and spirituality when carrying out social science research Divided into three sections the book examines the notion of secularism in relation to contemporary western society including a focus upon secularisation explores how the values underpinning social scientific enquiry might serve to marginalise religion and spirituality and reflects on social science research methodologies when researching religion and spirituality With international contributions from key academics in the fields of religious studies cultural studies political science criminology sociology health and social policy this engaging book will provide social science students educators researchers and practitioners with an essential overview of key debates around secularism faith spirituality and social science research
