Melancholy Experience in Literature of the Long Eighteenth Century A. Ingram, S. Sim, C. Lawlor, R. Terry, J. Baker, Leigh Wetherall Dickson, 2011-04-12 Arising from a research project on depression in the eighteenth century this book discusses the experience of depressive states both in terms of existing modes of thought and expression and of attempts to describe and

live with suffering It also asks what present day society can learn about depression from the eighteenth century experience

Sherwin,2000-03-01 In this highly provocative and informed work Byron L Sherwin one of the leading Jewish ethicists of our time demonstrates how the wisdom of the past found in classical texts that form Jewish religious tradition can forcefully address the moral perplexities of the present In setting out a contemporary agenda for Jewish ethics

Sherwin debunks common misconceptions about Jewish ethics and distinguishes between the ethics of Judaism and various forms of secular and religious ethics. He shows for example how the ethics of Judaism and the ethics of Jews often are at odds, how the Judeo-Christian ethic is an obsolete myth and how Jewish and Christian ethics radically differ both in terms of their theological assumptions and in their applied methodologies. Sherwin delineates a methodology for Jewish ethics which he applies to a wide variety of issues such as health and healing, euthanasia, reproductive biotechnology, cloning, parent-child relationships, economic justice, repentance or moral rehabilitation and the relationship between humans and machines. Drawing on a wide range of biblical, rabbinical, Jewish philosophical and kabbalistic sources, *Jewish Ethics for the Twenty-First Century* links the biblical term image of God to moral freedom, human creativity and the challenge of becoming God's partner in creation and a coauthor of the Torah.

Hungarian Psychiatry, Society and Politics in the Long Nineteenth Century Emese Lafferton, 2021-11-29. This book provides the first comprehensive study of the history of Hungarian psychiatry between 1850 and 1920, placed in both an Austro-Hungarian and wider European comparative framework. Taking an interdisciplinary approach, the book captures the institutional worlds of the different types of psychiatric institutions intertwined with the intellectual history of mental illness and the micro-historical study of everyday institutional practice. It uncovers the ways in which psychiatrists gradually organised themselves and their profession defined their field and role, claimed expertise within the medical sciences, lobbied for legal reform and the establishment of psychiatric institutions, fought for university positions, the establishment of departments and specialised psychiatric teaching. Beyond this story of increasing professionalization, this study also explores how psychiatry became invested in social critique. It shows how psychiatry gradually moved beyond its closely defined disciplinary borders and became a public arena with psychiatrists broadening their focus from individual patients to society at large, whether through mass publications or participation in popular social movements. Finally, the book examines how psychiatry began to influence the concept of mental health during the first decades of the twentieth century against the rich social and cultural context of fin de siècle Budapest and the Austro-Hungarian Dual Monarchy.

The Malady of the Century Max Simon Nordau, 2013-11. Come you fellows, that's enough joking! This defection of yours, melancholy Eynhardt, combines obstinacy with wisdom like Balaam's ass. Well, may you rest in peace. And now let us be off. The glasses filled with clear Affenthaler rang merrily together; the smiling landlord took up his money and the company rose noisily from the wooden bench, overturning it with a bang. The round table was only proof against a similar accident on account of its structure, which some one with wise forethought had so designed that only the most tremendous shaking could upset its equilibrium. The boisterous group consisted of five or six young men easily recognized as students by their caps with colored bands, the scars on their faces and their rather swaggering manner. They slung their knapsacks on, stepped through the open door of the little arbor where they had been sitting on to the highroad and gathered round the previous speaker. He was a tall, good-looking young man with fair hair, laughing blue eyes and a budding mustache.

Then you are determined Eynhardt that you won't go any further asked he with an accent which betrayed him as a Rhinelander Yes I am determined Eynhardt answered A groan for the worthless fellow but more in sorrow than in anger said the tall one to the others They groaned three times loudly all together while the Rhinelander gravely beat time An unpracticed ear would very likely have failed to note the shade of feeling implied in the noise but he appeared satisfied Well just as you like No compulsion Freedom is the best thing in life including the freedom to do stupid things Perhaps he knows of some cave where he is going to turn hermit said one of the group Or he has a little business appointment and we should be in the way said another They laughed and the Rhinelander went on
