Male Bias In The Development Process:

Male Bias in the Development Process Diane Elson, 1995 This book argues that the development process is marked by male bias ill founded and unjustified asymmetries that operate in favour of men and against women The contributors include some of the leading writers in the gender and development field Diane Elson Delia Davin Susie Jacobs Carolynne Dennis Alison MacEwan Scott and Ruth Pearson Together they analyze the variety of forms taken by male bias its foundations and the way it changes over time and the possibilities of overcoming it The cases considered cover both urban and rural settings agriculture industry and services self employment and wage employment and Africa Asia and Latin America *Woman's Role in Economic Development* Ester Boserup, 2007 First Published in 2007 Routledge is an imprint of Taylor Francis an informa company *Gender and Macroeconomic Policy* Raj Nallari, Breda Griffith, 2011-01-05 Mainstream economic analysis has traditionally overlooked gender The individual the basic category of analysis was regarded as genderless Neither gender discrimination nor segmentation and segregation within the labor market or within the household was present Contributions from development theory new household economics NHE labor economics and feminist analysis have done much to change this Focusing on gender equality by which we mean equality in opportunity inputs and outcome has yielded important insights for the growth and development of an economy But we are still at the cusp While there have been huge improvements in recognizing gender as an analytical category at the microeconomic level the macroeconomic implications of gender equality remain undeveloped Engendering macroeconomics is an important and valid research and policy area Over the past three decades economic development has generally affected women differently than men in the developing world At the same time gender relations have affected macroeconomic outcomes This volume examines the research and policy implications of engendering macroeconomic policy *American Studies* Janice A. Radway, Kevin Gaines, Barry Shank, Penny Von Eschen, 2009-03-09 American Studies is a vigorous bold account of the changes in the field of American Studies over the last thirty five years Through this set of carefully selected key essays by an editorial board of expert scholars the book demonstrates how changes in the field have produced new genealogies that tell different histories of both America and the study of America Charts the evolution of American Studies from the end of World War II to the present day by showcasing the best scholarship in this field An introductory essay by the distinguished editorial board highlights developments in the field and places each essay in its historical and theoretical context Explores topics such as American politics history culture race gender and working life Shows how changing perspectives have enabled older concepts to emerge in a different context

Gender, Development and Globalization Lourdes Beneria, Günseli Berik, Maria Floro, 2015-07-24 Gender Development and Globalization is the leading primer on global feminist economics and development Lourdes Bener a a pioneer in the field of feminist economics is joined in this second edition by Günseli Berik and Maria Floro to update the text to reflect the major theoretical empirical and methodological contributions and global developments in the last decade Its interdisciplinary

investigation remains accessible to a broad audience interested in an analytical treatment of the impact of globalization processes on development and wellbeing in general and on social and gender equality in particular The revision will continue to provide a wide ranging discussion of the strategies and policies that hold the most promise in promoting equitable and sustainable development The authors make the case for feminist economics as a useful framework to address major contemporary global challenges such as inequalities between the global South and North as well as within single countries persistent poverty and increasing vulnerability to financial crises food crises and climate change The authors approach is grounded in the intellectual current of feminism and human development drawing on Amartya Sen s capability approach and focused on the importance of the care economy increasing pressures faced by women and the failures of neoliberal reforms to bring about sustainable development reduction in poverty inequality and vulnerability to economic crisis

Changing China Chiao-min "Jimmy" Hsieh, 2018-02-12 This textbook will be welcomed by professors and students who have been long looking for an appropriate textbook for teaching and studying the changing geography of post reform China Hongmian Gong Hunter College CUNY A wonderful collection of current source data The range of bibliographic material in these pages is great Kit Salter University of Missouri Columbia *Changing China A Geographic Appraisal* provides an up to date and detailed account of the giant country that is undergoing an unparalleled and historic transition from a centralized command economy to a market based economy and from a rural agricultural society to an urban industrial power Contributions from a distinguished team of geographers both inside and outside of China are divided into three parts that assess respectively economic changes since the reform of 1978 recent social transformations and changes along China s peripheries including Hong Kong Taiwan Xinjiang and inner Mongolia An introductory chapter provides an overview of major themes Includes a chronology of major events in Chinese history and a glossary of Chinese terms

Gender, Planning and Human Rights Tovi Fenster, 2002-09-11 Challenging the traditional treatment of human rights cast in purely legal frameworks the authors argue that in order to promote the notion of human rights its geographies and spatialities must be investigated and be made explicit A wealth of case studies examine the significance of these components in various countries with multi cultured societies and identify ways to integrate human rights issues in planning development and policy making The book uses case studies from UK Israel Canada Singapore USA Peru European Union Australia and the Czech Republic

Questioning Financial Governance from a Feminist Perspective Brigitte Young, Isabella Bakker, Diane Elson, 2011-08 *Questioning Financial Governance from a Feminist Perspective* brings together feminist economists and feminist political economists from different countries located in North America and Europe to analyze the strategic silence about gender in fiscal and monetary policy and financial regulation This silence reflects a set of assumptions that the key instruments of financial governance are gender neutral This often masks the ways in which financial governance operates to the disadvantage of women and reinforces gender inequality This book examines both the transformations in the governance of finance that predate the

financial crisis as well as some dimension of the crisis itself The transformations increasingly involved private as well as public forms of power along with institutions of state and civil society operating at the local national regional and global levels An important aspect of these transformations has been the creation of policy rules often enacted in laws that limit the discretion of national policy makers with respect to fiscal monetary and financial sector policies These policy rules tend to have inscribed in them a series of biases that have gender as well as class and race based outcomes The biases identified by the authors in the various chapters are the deflationary bias male breadwinner bias and commodification bias adding two new biases risk bias and creditor bias The originality of the book is that its primary focus is on macroeconomic policies fiscal and monetary and financial governance from a feminist perspective with a focus on the gross domestic product and its fluctuations and growth paid employment and inflation the budget surplus deficit levels of government expenditure and tax revenue and supply of money The central findings are that the key instruments of financial governance are not gender neutral Each chapter considers examples of financial governance and how it relates to the gender order including divisions of labour and relations of power and privilege This book is key reading for anyone studying feminist economics and should also be of interest to those researching macroeconomics political economics and women s studies *Theories of Urban Politics* David Judge,Gerry Stoker,Harold Wolman,1995-07-11 This textbook provides a comprehensive overview of the main theories which structure debate about urban politics It looks at aspects of power taking in both traditional and more recent theories It considers the nature of public bureaucracy and the importance of those officials with a leadership role in city government It examines the way that citizens are involved in the processes of urban politics and it puts urban politics in context in terms of the social and economic environment and the complex architecture of government in which it has to operate Adapt du r sum de l diteur *Women and Work in Northern Nigeria* R. Pittin,2002-11-15 Women and Work in Northern Nigeria is a study of the social and economic opportunities open to and seized upon by Muslim Hausa women primarily in the city of Katsina Nigeria over the course of the past three decades In the context of multiple political regimes the turmoil of the Nigerian economy and major ideological shifts women have sought to optimize their resources and situations Women and Work in Northern Nigeria take as a primary theme women s ability to recognize and to cross the physical spatial and discursive boundaries which ostensibly service to define and confine them *The Companion to Development Studies, 2nd Edition* Vandana Desai,Robert B Potter,2013-01-22 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion

to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics The Move to the Market? Paul Cook, Frederick Nixon, 1995-09-12 The Move to the Market brings together recent contributions that critically review and examine the role that trade and industry policy reforms have played in the transitional economies It relates trade and industry policy to the wider set of reforms being implemented as part of the process of moving from a predominantly centrally planned to a more market oriented economy The book highlights the different and complex patterns of development that are emerging between the transitional economies of Europe Africa and Asia **The Violence of Development** Karin Kapadia, 2002 Comprises 12 papers which assess the contemporary situation of women in India in four broad domains the cultural the social the political and the economic Argues that despite apparently positive indicators of progress particularly education and paid employment little has changed

Postpositivist International Relations Theory Amartya Mukhopadhyay, 2023-10-16 This book discusses postpositivist theories foregrounding postpositivism against the reigning realist and positivist pluralist orthodoxies The book explicates seven theories not as disparate endeavours but as developments linked by a common thread that seeks to enunciate globalist emancipatory goals for the theoretical field and the world that these theories seek to change It focuses on the following themes feminism environmentalism or green theory the English School critical theory constructivism postmodernism and postcolonialism Additionally a separate chapter on globalization shows that while mainstream neo realist international relations theories respond hostilely to globalization and liberal pluralist theories react benignly to it postpositivist theories positively welcome it The book offers a competent meta theoretical gridwork showing on which side of the opposing disciplinary positions in the fourth debate each of the seven theories are located It is a comprehensive guide to the postpositivist restructuring of the discipline of international relations This book will be of interest to researchers and students of political science international relations history humanities and literature *Development and Social Change*

Philip McMichael, Heloise Weber, 2020-12-21 Development and Social Change A Global Perspective explains how development thinking and practice have shaped our world It introduces students to four interconnected projects and how their dynamics contradictions and controversies have influenced development trajectories colonialism the development era the neoliberal globalization project and sustainable development Authors Philip McMichael and Heloise Weber use case studies and examples to help describe a complex world in transition Students are encouraged to see global development as a contested historical project By showing how development stems from unequal power relationships between and among peoples and states often with planet threatening environmental outcomes it enables readers to reflect on the possibilities for more just social ecological and political relations The Palgrave Handbook of Gender and Development Wendy Harcourt, 2016-04-29 With original and engaging contributions this Handbook confirms feminist scholarship in development

studies as a vibrant research field It reveals the diverse ways that feminist theory and practice inform and shape gender analysis and development policies bridging generations of feminists from different institutions disciplines and regions

Feminisms in Development Andrea Cornwall,Elizabeth Harrison,Ann Whitehead,2013-07-04 This collection of essays by leading feminist thinkers from North and South constitutes a major new attempt to reposition feminism within development studies Feminism s emphasis on social transformation makes it fundamental to development studies Yet the relationship between the two disciplines has frequently been a troubled one At present the way in which many development institutions function often undermines feminist intent through bureaucratic structures and unequal power quotients Moreover the seeming intractability of inequalities and injustice in developing countries have presented feminists with some enormous challenges Here emphasizing the importance of a plurality of approaches the authors argue for the importance of what feminisms have to say to development Confronting the enormous challenges for feminisms in development studies this book provides real hope for dialogue and exchange between feminisms and development

New Frontiers in Feminist Political Economy Shirin Rai,Georgina Waylen,2013-11-07 This volume brings together the work of outstanding feminist scholars who reflect on the achievements of feminist political economy and the challenges it faces in the 21st century The volume develops further some key areas of research in feminist political economy understanding economies as gendered structures and economic crises as crises in social reproduction as well as in finance and production assessing economic policies through the lens of women s rights analysing global transformations in women s work making visible the unpaid economy in which care is provided for family and communities and critiquing the ways in which policy makers are addressing or failing to address this unpaid economy

Gender Responsive Investment Handbook Vanessa Erogbogbo,Esther Eghobamien,Elizabeth Pimentel,2013 Women account for between 25 40 per cent of SMEs worldwide and their earning power is estimated to reach US 18 trillion by 2014 more than double the estimated 2014 GDP of China and India combined Yet there remain structural and cultural barriers to the effective delivery of financial services to women in the global marketplace meaning that a high percentage is unbanked and receive a low proportion of credit As women entrepreneurs grow in number they need financial products and services beyond microfinance and gender responsive budget initiatives that will allow them to expand their businesses Gender Responsive Investment is a process of ensuring gender equitable access to financial services and investment resources through rigorous assessment of the differing needs of women and men It recognises that a more equitable allocation of resources will make a greater impact on sustainable economic development with long term benefits for the whole economy This Handbook supports policy makers to identify the policies laws and regulations that hinder womens access to finance and assists financial institutions to identify opportunities to deliver inclusive well designed products and services for women

Development in Unity Volume 3 Daasebre Prof. (Emeritus) Oti Boateng,2019-01-04 This Volume a scholarly piece of development thoughts discusses in Part One the new concept of

development embracing a much more inclusive view of increasing the welfare of societies followed by a critical examination of the various development theories and practices that underpinned the global development order over the greater part of the 20th century in both classic and contemporary contexts It then discusses the unique contribution of the author's award winning Root based Model to the development process The Root based Model provides a desirable bridge between the dominant growth concentrated development pattern and the alternative development paradigm In addition to its institutional networking dynamics utilizing the power of shared information for sustainable community development the model resolves the critical issue of integrating the citizens sector into the national development process through a genuine participatory approach Part Two encapsulates various research works and papers over the years by the author that keep resonating on the development landscape and illuminate much of the discussions in Part One The book urges developing countries to adopt solutions suited to their cultures and local constraints instead of importing best practices which may not fit into the key policy issues of development in the local context
