**Male Sexuality** Jenny James,1989-12-01      **Healing the Male Psyche** John Rowan,2020-04-03 John Rowan argues that if men are to escape from their old roles and the new pressures of social uncertainty they need to be initiated into a new kind of masculinity but that this process must be personal to each man He explores how therapy can help or hinder the process of transformation Written for men who are looking for a new way of understanding their predicament as well as psychotherapists and counsellors working with men *Healing the Male Psyche* is packed with useful information and exercises and supported by a wide range of references

**The Horned God (RLE Feminist Theory)** John Rowan,2012-11-27 This original and pioneering study of how men relate to feminism will appeal to all men who are concerned about their response to the women s movement and to the women in their lives It will also be helpful for women seeking a constructive response from men John Rowan drawing on his personal journey through feminism and on his considerable experience as a therapist tackles the issues in a much deeper way than has been attempted before For men to discover feminism is wounding for them It can even make them despair about being men at all But unless they accept that wound nothing much will change John Rowan shows that men have to heal that wound at a conscious social political level changing laws practice and daily behaviour They have to heal it at an unconscious level through therapy exploring their profound feelings about their mothers their fathers and their own internal female nature They also have to heal the wound at a spiritual transpersonal level exploring the world of the Goddess and the Horned God Only then says John Rowan can they start to have any real dialogue with women and only then can the world begin to change for both men and women

**A Dictionary of Green Ideas** John Button,2019-06-21 First published in 1988 *A Dictionary of Green Ideas* collects together the concepts which go to make up a green view of the world Ecology and the environment conservation and appropriate technology politics and philosophy peace and health spirituality and world development all these areas and more are reflected in nearly 1500 entries The entries range

from the very short to full length essays reflecting the diversity of the subject matter All give a clear definition of the meaning of the term and an indication of its etymology and earliest use But the Dictionary of Green Ideas is much more than simply a list of definitions The concepts discussed are elaborated upon interpreted set in context exemplified by quotations from a wide range of sources and related to other entries by means of an extensive network of cross references The result is a fascinating and immensely readable book which successfully fulfils a double role as an accessible introduction to green thought and as a source of reference offering new insights to green thinkers of long standing     Studying Men and Masculinity David Ford, Jeff Hearn, 1988     The Atlantis Guardian Raymond S. Hislop, In style terms this work is in three parts First is this preface then there is the OLD REALITY and the NEW REALITY As previously indicated it is this PREFACE which must contain the accurate science And that aspect has led to this title for what was originally called the Black Tyger The RTUR I am aware that sometimes that has the extended spelling RTTUR to make the point of the double TT It is not that the Black Tyger has changed nor indeed the RTUR concept but rather it has been refined as I more clearly understand what is required at the Science level to reveal the reality On the one hand it is done in an INSTANT even BEFORE I write since it is ALL IN PLACE but disclosure contains a Time Element which is checked for accuracy on the basis of REAL EVENTS And real events will naturally include films and television broadcasts and radio transmissions even down to what is reported in the newspapers including particularly what is factually inaccurate but printed for political expediency such as the instructions of the ruling party diktat     Routledge Library Editions: Sustainability Various Authors, 2021-03-04 The 4 volumes in this set originally published between 1988 and 1997 draw together research by leading academics in the area of sustainability and provides a rigorous examination of related key issues The volumes examine environmental policy and plans for a sustainable future This set will be of particular interest to students of Environmental Studies     *New Society* ,1985-07

**Classical Masculinity and the Spectacular Body on Film** D. O'Brien, 2014-10-29 The muscle bound male body is a perennial feature of classically inflected action cinema This book reassesses these films as a cinematic form focusing on the depiction of heroic masculinity In particular Hercules in his many incarnations has greatly influenced popular cultural interpretations of manliness and the exaggerated male form     **Man and Animal** Hermann Poppelbaum, 2014-08-29 To be man is to know the animals and all the creatures of the earth it is to recognize our responsibility towards these beings once of the same order as ourselves but now obliged to live beside us in an incompleteness that never ceases its appeal to human beings warning us to make ourselves worthy of the trust invested in us Hermann Poppelbaum What is the historical and evolutionary relationship between man and animal In this classic text based on the anthroposophical science founded by Rudolf Steiner Poppelbaum trained in Biology compares the outer forms of man and animal revealing their essential differences and contrasting inner experiences Drawing a bold and clear delineation between the fundamental nature of man and that of the animal Poppelbaum argues that human beings are not the accidental outcome of animal development but the

hidden source of evolution itself He goes on to discuss the true relationship of both man and animal to their environment and develops a critique of contemporary theories regarding human and animal evolution He argues that rather than a simple reflex of the nervous system the human spirit is a microcosmic reflection of the spiritual macrocosm and our individual consciousness is a crucial seed for future evolution **British Paperbacks in Print** ,1984 **The Publishers' Trade List Annual** ,1985 Whores of Lost Atlantis Charles Busch,1995 Flamboyant emotional would be star Julian Young can wait no more for his starring vehicle so he devises one in an epic eight hour session and sets out to stage it casting himself as the female lead in drag of course and assembling a supporting cast that includes some of the most unforgettable eccentrics ever to answer a cattle call Now the real drama begins Will the sinister Kiko steal Julian s play Whore of Lost Atlantis or failing that will she sabotage his career Will the hunky Buster ever learn his lines Will Julian end up falling in love with his stage manager who happens to be a former gangster s moll and a woman Will he ever get the hair off his legs The answers not to mention the cataclysmic destruction temples falling hermaphrodites evil emperors and two bitchy courtesans among other spectacles can be found only in this gender bending roman a clef by the author and star of the plays and films Psycho Beach Party and Die Mommie Die **BOOK JACKET Neanderthals and Atlantis** Andrew Welburn,2024-11-25 Where do we come from The idea of human origins the whole pattern of prehistory has been through a revolution The long held Darwinian view purported to show how adopting an upright posture caused the gradual transition from animal to human That theory has fallen apart spectacularly Human orientation and equilibrium are now seen as a biological new beginning Characteristics such as social complexity and artistic ability emerged with startling suddenness in a Stone Age cognitive explosion In place of Darwin an entirely new history has emerged a migration out of Africa and a Middle Eastern transformation Crucial to understanding this is the discovery of our mystical shamanic roots as shown in the cave paintings that dazzled Picasso It has become clear that the cognitive leap was a spiritual revolution Not least our supposed human uniqueness has been challenged by the Neanderthals whose heritage has been hidden for millennia In no sense crude ape men they were a highly intelligent culturally advanced people whose history long overlapped ours Without them human evolution would undoubtedly be very different Over one hundred years ago Rudolf Steiner spoke of two human types or species This book illustrates how many of Steiner s descriptions of human development coincide remarkably with emerging perspectives His evolutionary thinking about humanity s distinctive role can set scientific discoveries in a dramatic new light His concepts concerning rhythmic phases and transitions grounded in the formation and disintegration of continents give authentic scientific expression to the myth of Atlantis Welburn weaves Steiner s perspectives with contemporary research in this ground breaking work exploring the turning points of human consciousness In doing so he helps replace the search for man s animal connections with the need to re think the very meaning of being human *Books in Print* ,1977 **Proceedings of the International Joint Conference on Arts and Humanities 2022 (IJCAH 2022)** Slamet Setiawan,Wulan Patria
