Finger, Valerie Quinney, Chip Hughes, Alvin Rosenbaum, Susan Moss, Throughout the country and even this region people view the South through myth and stereotype It's not surprising If they turn to newspapers to television and radio to popular films and literature to most history books and folklore they encounter these distortions They find insulting portraits of Southerners whitewashed presentations of southern economics and politics selective visions of history misunderstandings of relationships between people and between people and their land and work Many trivial qualities are romanticized other important ones are totally ignored Blacks are presented only as victims of racism and labor struggles are completely forgotten This view is inevitable when people simply treat the South as an aberration of mainstream America or a remnant of some past culture We at Southern Exposure look at the South from another perspective This is our home we are of it and examine it that we may know more of ourselves and our neighbors These are the politics and culture that surround us and affect us daily that we must analyze praise and attack so our lives can grow and prosper And this is the ground from which we must view the larger world By listening to local tobacco farmers discuss the pressures on them to expand or die we can better understand Earl Butz's plan for US agribusiness By hearing a bluesman's story we come to appreciate how a particular culture evolves from material hardship and inspires immense creativity **Housing and Planning References**, 1972 **Daily Life of Women in the Progressive Era** Kirstin Olsen, 2019-06-24 This book illustrates the social change that took place in the lives of women during the Progressive Era The political and social change of the Progressive Era brought conflicts over labor women's rights consumerism religion sexuality and many other aspects of American life As Americans argued and fought over suffrage and political reform vast changes were also taking place in women's professional material personal recreational and intellectual lives In this installment of Greenwood's *Daily Life through History* series award winning author Kirstin Olsen brings to life the everyday experiences priorities and challenges of women in America's Progressive Era ca 1890 1920 From the barnstorming bloomer girls who showed America that women could play baseball to film star tycoon and co founder of the Academy of Motion Pictures Mary Pickford and from the highly skilled Hello Girls telephone operators who helped win

World War I to the remarkable journalist and civil rights activist Ida Wells Barnett women led both famous and ordinary lives that were shaped by and helped to drive the dramatic social change taking place during the Progressive Era All of this and more is described in this book through topical sections as well as stories and profiles that reveal to readers the daily lives of America s women who lived during the Progressive Era Readers will benefit from Olsen s characteristically sharp eye for detail power of description and breadth of historical knowledge Biennial Report of the North Carolina Library Commission North Carolina Library Commission,1922
