Bye Bye, Miss American Empire Bill Kauffman, 2010-07-10 It's been almost a century and a half since a critical mass of Americans believed that secession was an American birthright But breakaway movements large and small are rising up across the nation From Vermont to Alaska activists driven by all manner of motives want to form new states and even new nations So just what's happening out there The American Empire is dying says Bill Kauffman in this incisive eye opening investigation into modern day secession the next radical idea poised to enter mainstream discourse And those rising up to topple that empire are a surprising mix of conservatives liberals regionalists and independents who from movement to movement may share few political beliefs but who have one thing in common a sense that our nation has grown too large and too powerfully centralized to stay true to its founding principles Bye Bye Miss American Empire traces the historical roots of the secessionist spirit and introduces us to the often radical sometimes quixotic and highly charged movements that want to decentralize and re-localize power During the George W Bush administration frustrated liberals talked secession back to within hailing distance of the margins of national debate a place it had not occupied since 1861 Now secessionist voices on the left and right and everywhere in between are amplifying Writes Kauffman The noise is the sweet hum of revolution of
