## **North Country Spring:**

**North Country** Jon K. Lauck, Gleaves Whitney, 2023-05-04 Travel north from the upper Midwest's metropolises and before long you're Up North a region that's hard to define but unmistakable to any resident or tourist. Crops give way to forests, mines or their remains mark the landscape and lakes multiply becoming ever clearer until you reach the vastness of the Great Lakes. How to characterize this region as distinct from the agrarian Midwest is the question North Country seeks to answer as a congenial group of scholars, journalists and public intellectuals explores the distinctive landscape, culture and history that define the northern margins of the American Midwest. From the glacial past to the present day, these essays range across the histories of the Dakota and Ojibwe people, colonial imperial rivalries and immigration and conflicts between the economic imperatives of resource extraction and the stewardship of nature. The book also considers literary treatments of the area and arguably makes its own contributions to that literature as some of the authors search for the North Country through personal essays while others highlight individuals who are identified with the area like Sigurd Olson, John Barlow Martin and Russell Kirk. From the fur trade to tourism, fisheries to supper clubs, Finnish settlers to Native treaty rights, the nature of the North Country emerges here in all its variety and particularity as clearly distinct from the greater Midwest as it is part of the American heartland.

*Notes from the North Country* O. B. Eustis, 1983 A year-long diary of observations of the seasonal changes in Eustis's northern Michigan home.

**North Country** Mary Lethert Wingerd, 2010 In 1862, four years after Minnesota was ratified as the thirty-second state in the Union, simmering tensions between indigenous Dakota and white settlers culminated in the violent six-week-long U.S. Dakota War. Hundreds of lives were lost on both sides and the war ended with the execution of thirty-eight Dakotas on December 26, 1862, in Mankato, Minnesota, the largest mass execution in American history. The following April, after suffering a long internment at Fort Snelling, the Dakota and Winnebago peoples were forcefully removed to South Dakota, precipitating the near destruction of the area's native communities while simultaneously laying the foundation for what we know and recognize today as Minnesota.

**In North Country: The Making of Minnesota** Mary Lethert Wingerd unlocks the complex origins of the state, origins that have often been ignored in favor of legend and a far more benign narrative of immigration, settlement and cultural exchange. Moving from the earliest years of contact between Europeans and the indigenous peoples of the western Great Lakes region to the era of French and British influence during the fur trade and beyond, Wingerd charts how for two centuries prior to official statehood, Native people and Europeans in the region maintained a hesitant, largely cobeneficial relationship. Founded on intermarriage, kinship and trade between the two parties, this racially hybridized society was a meeting point for cultural and economic exchange until the western expansion of American capitalism and violation of treaties by the U.S. government during the 1850s wore sharply at this tremulous bond, ultimately leading to what Wingerd calls Minnesota's Civil War. A cornerstone text in the chronicle of Minnesota's history, Wingerd's narrative is augmented by more than 170 illustrations chosen and described by Kirsten
