The Hukbalahap Insurrection Lawrence M. Greenberg, 1987 *Counterinsurgency, Security Forces, and the Identification Problem* Jr Magruder, 2017-07-28

This book presents a theory and empirical evidence for how security forces can identify militant suspects during counterinsurgency operations. A major oversight on the part of academics and practitioners has been to ignore the critical antecedent issue common to persuasion and coercion: counterinsurgency COIN approaches distinguishing friend from foe. This book proposes that the behaviour of security forces influences the likelihood of militant identification during a COIN campaign and argues that security forces must respect civilian safety in order to create a credible commitment to facilitate collaboration with a population. This distinction is important as conventional wisdom has wrongly assumed that the presence of security forces confers control over terrain or influence over a population. Collaboration between civilian and government actors is the key observable indicator of support in COIN. Paradoxically, this theory accounts for why and how increased risk to government forces in the short term actually improves civilian security in the long run. *Counterinsurgency Security Forces and the Identification Problem* draws on three case studies: the Huk Rebellion in the Philippines post World War II, Marines Corps experiences in Vietnam through the Combined Action Program and Special Operations activities in Iraq after 2003. For military practitioners, the work illustrates the critical precursor to establishing security during counterinsurgency operations. The book also examines the role and limits of modern technology in solving the identification problem. This book will be of interest to students of counterinsurgency, military history, strategic studies, US foreign policy and security studies in general.

The Evacuation of Civilians from Burma Michael D. Leigh, 2014-04-24

The string of military defeats during 1942 marked the end of British hegemony in Southeast Asia, finally destroying the myth of British imperial invincibility. The Japanese attack on Burma led to a hurried and often poorly organized evacuation of Indian and European civilians from the country. The evacuation was a public humiliation for the British and marked the end of their role in Burma. *The Evacuation of Civilians from Burma* investigates the social and political background to the evacuation and the consequences of its failure. Utilizing unpublished letters, diaries, memoirs and official reports, Michael Leigh provides the first comprehensive account of the evacuation, analyzing its source in the structures of colonial society, fractured race relations and in the turbulent politics of colonial Burma.

The Myth Of Victory Richard W. Hobbs, 2019-06-10

Richard Hobbs examines one of society's greatest problems: the need for reconciliation between the democratic dislike of war and the appropriate use of the military instrument in world politics. He questions whether the results obtained in war are worth the expenditures made and contends that victory gained from total war pushed to its outer limits.

 Roxanne Lynn Doty looks at the way these kinds of labels influence North South relations reflecting a history of colonialism
 and shaping the way national identity is constructed today Employing a critical poststructuralist perspective Doty examines
 two imperial encounters over time between the United States and the Philippines and between Great Britain and Kenya The
 history of these two relationships demonstrates that not only is the more powerful member allowed to construct reality but
 this construction of reality bears an important relationship to actual practice Doty considers the persistence of

Vietnam Lobby Joseph G. Morgan, 2000-11-09 Established in 1955 as a private advocacy group the American Friends of
 Vietnam worked to influence U S attitudes and policies toward Vietnam for nearly two decades AFV members wrote articles
 gave speeches sponsored aid drives and forged ties with journalists academics and government officials in an effort to
 generate American assistance for South Vietnam In *The Vietnam Lobby* Joseph Morgan shifts the focus away from the much
 examined antiwar demonstrations that took place in America to concentrate instead on the actions of those who endorsed U
 S intervention in Vietnam Drawing on a wide range of documentary sources Morgan presents a comprehensive study of the
 AFV and its activities He traces the group's establishment and growth examines its internal organization and politics and
 ultimately evaluates its effectiveness in guiding government policy and public opinion Morgan also assesses the charges of

antiwar critics who claimed the AFV exerted an excessive perhaps disastrous influence in shaping America's Vietnam policy. Finally he offers insights into the thinking of those who believed that the United States had the unique ability even the obligation to help shape Vietnam's future. Originally published in 1997. During his thirty six years on the court he became known as one of its most outspoken and controversial members. In this volume which was originally published for the William O Douglas Institute distinguished scholars examine four major aspects of Justice Douglas's work: his relations with his colleagues, his views on civil liberties which primarily led to his reputation as a liberal, his stance as an environmentalist and his views as an internationalist. *The U.S. Quarterly Book Review*, 1953 **Judicial Independence** United States. Making Sense of the Vietnam Wars Mark Philip Bradley, Marilyn B. Young, 2008-04-30 Making sense of the wars for Vietnam has had a long history. The question why Vietnam dominated American and Vietnamese political life for much of the length of the wars and has continued to be asked in the decades since they ended. This volume brings together the work of eleven scholars to examine the conceptual and methodological shifts that have marked the contested terrain of Vietnam War scholarship. Editors Marilyn Young and Mark Bradley's superb group of renowned contributors spans the generations including those who were active during wartime along with scholars conducting research in Vietnamese sources and uncovering new sources in the United States, former Soviet Union, China and Eastern and Western Europe. Ranging in format from top down reconsiderations of critical decision making moments in Washington, Hanoi and Saigon to microhistories of the war that explore its meanings from the bottom up, these essays comprise the most up to date collection of scholarship on the controversial historiography of the Vietnam Wars. Misalliance Edward Miller, 2013-04-15 Diem's alliance with Washington has long been seen as a Cold War relationship gone bad, undone by either American arrogance or Diem's stubbornness. Edward Miller argues that this misalliance was more than just a joint effort to contain communism. It was also a means for each side to shrewdly pursue its plans for nation building in South Vietnam.
