North Korean Foreign Relations In The Post Cold War Era:

North Korean Foreign Relations in the Post-Cold War Era Samuel S. Kim, 1998 This book examines the changing face of North Korea's foreign policy and how its leaders deal with the rest of the world in the light of its altering political and economic conditions

North Korean Foreign Relations in the Post-Cold War World Samuel S. Kim, 2007 The author examines North Korea's foreign relations with China Russia Japan the United States and South Korea during the post Cold War era North Korea's extended and heavy reliance on foreign aid and assistance both military and economic in the first 4 decades came from China the Soviet Union and communist bloc states in the past 2 decades this aid has come from countries including China South Korea and the United States He argues that central to understanding North Korea's international behavior in the 21st century is the extent to which the policies of the United States have shaped that behavior Although some readers may not agree with all of Dr Kim's interpretations and assessments they nevertheless will find his analysis stimulating and extremely informative

North Korean Foreign Relations in the Post-Cold War World Strategic Studies Institute, Samuel S. Investigation, 2014-06-21 North Korea's foreign relations are a blend of contradiction and complexity They start from the incongruity between Pyongyang's highly touted policy of *juche* or self reliance and North Korea's extended and heavy reliance on foreign aid and assistance over the 6 decades of its existence This aid both military and economic in the first 4 decades came from China the Soviet Union and communist bloc states in the past 2 decades this aid has come from countries including China South Korea and the United States In this monograph Dr Samuel Kim examines North Korea's foreign relations with China Russia Japan the United States and South Korea during the post Cold War era He argues that central to understanding North Korea's international behavior in the 21st century is the extent to which the policies of the United States have shaped that behavior Although some readers may not agree with all of Dr Kim's interpretations and assessments they nevertheless will find his analysis stimulating

North Korean Foreign Relations in the Post-Cold War World Samuel Kim, 2007-04-30 Any attempt to understand North Korean foreign relations in the post Cold War world is to be confronted with a genuine puzzle of both real world and theoretical significance On the one hand in the post Cold War era North Korea officially known as the Democratic People's Republic of Korea DPRK has been seen by many as a failed state on the verge of explosion or implosion On the other hand not only has North Korea survived despite a rapid succession of external shocks the crumbling of the Berlin Wall the end of both the Cold War and superpower rivalry and the demise of the Soviet Union all on top of a series of seemingly fatal internal woes including spreading famine deepening socialist alienation and the death of its founder the eternal president Kim Il Sung But with its nuclear and missile brinkmanship diplomacy it has become a focus of regional and global prime time coverage Paradoxically Pyongyang seems to have turned its weakness into strength by playing its collapse card driving home the point that it is anything but a Fourth World banana republic that would disappear quietly without a big fight or a huge mess a mess that no outside neighboring

power would be willing or able to clean up In fact not only has North Korea the weakest of the six main actors in the region continued to exist but it has also catapulted itself to the position of primary driver of Northeast Asian geopolitics through its strategic use of nuclear brinkmanship diplomacy From this transformed geopolitical landscape emerges the greatest irony of the region today in the post Cold War world North Korea seems to have a more secure sovereignty itself while posing greater security risks to its neighbors than has ever been the case in recent history The starting premise of this monograph is that for all the uniqueness of the regime and its putative political autonomy post Kim Il Sung North Korea has been subject to the same external pressures and dynamics that are inherent in an increasingly interdependent and interactive world The foreign relations that define the place of North Korea in the international community today are the result of the trajectories that Pyongyang has chosen to take or was forced to take given its national interests and politics In addition the choices of the North Korean state are constrained by the international environment in which they interact given its location at the center of Northeast Asian geopolitics in which the interests of the Big Four China Russia Japan and the United States inevitably compete clash mesh coincide etc as those nations pursue their course in the region North Korea per se is seldom of great importance to any of the Big Four but its significance is closely tied to and shaped by the overall foreign policy goals of each of the Big Four Plus One South Korea Thus North Korea is seen merely as part of the problem or part of the solution for Northeast Asia

North Korean Foreign Relations in the Post-Cold War World Lyman R. Rechter, 2009 The starting premise of this book is that for all the uniqueness of the regime and its putative political autonomy post Kim Il Sung North Korea has been subject to the same external pressures and dynamics that are inherent in an increasingly interdependent and interactive world The foreign relations that define the place of North Korea in the international community today are the result of the trajectories that Pyongyang has chosen to take or was forced to take given its national interests and politics In addition the choices of the North Korean state are constrained by the international environment in which they interact given its location at the centre of Northeast Asian geopolitics in which the interests of the Big Four China Russia Japan and the United States inevitably compete clash mesh coincide etc as those nations pursue their course in the region North Korea per se is seldom of great importance to any of the Big Four but its significance is closely tied to and shaped by the overall foreign policy goals of each of the Big Four Plus One South Korea Thus North Korea is seen merely as part of the problem or part of the solution for Northeast Asia

US Foreign Policy in the Post-Cold War Era T. Onea, 2013-10-17 Why has the US proven unable to enact a foreign policy of restraint in the post Cold War era For all but a brief period in the 1990s US foreign policy is marked by an assertive appearance despite relative hegemony This book examines the causes and impact of US foreign policy measuring its successes pitfalls and what the future has in store

Turkish Foreign Policy in Post Cold War Era İdris Bal, 2004 With the end of Cold War discipline the world has entered a new era Parameters have changed new handicaps as well as new opportunities have been created for countries Turkey as a neighbor of former USSR a member of NATO and

located at the center of a sensitive region covered by Caucasus Balkans and Middle East has been affected by the end of Cold War radically Turkey has lost some of her bargaining cards in the new era and therefore has needed new arguments This need encouraged Turkey to take active steps in Post Cold War era This book analyzes Turkey s relations with US EU Balkans Middle East Caucasus Central Asia Russia China and Japan At the same time effects of economic crises and domestic developments on foreign policy Turkish model in Turkish foreign policy water conflict and Kurdish problem are analyzed as well To conclude it is possible to argue that although Turkey lost some of her bargaining cards in Post Cold War era new developments pushed Turkey to the center of world politics rather than to periphery Contributors Meliha Benli Altunisik Deniz Ike Aribogan H seyin Bagci Idris Bal Zeyno Baran Fulya Kip Barnard Erol Bulut Ibrahim S Canbolat Saziye Gazioglu Ramazan G zen Saban Kardas H B lent Olcay Cengiz Okman Henry E Paniev Victor Panin Dirk Rochtus Faruk S nmezoglu G l Turan Ilter Turan Mustafa T rkes Nasuh Uslu North Korean Foreign Relations in the Post-Cold War World Samuel S. Committee on Foreign Affairs,1992 **North Korea and the Global Nuclear Order** Edward Howell,2023 For a state that has gained a global reputation as a violator of international norms North Korea s determination to become a nuclear armed state is puzzling **When Leaders Learn and When They Don't** Akan Malici,2009-01-08 Develops a new and dynamic theory of foreign policy decision making and experiential learning **North Korea** Hazel Smith,2015-04-09 This is a historically founded empirical study of social and economic transformation wrought by marketisation from below in North Korea *International Politics and Security in Korea* Jungsup Kim,2007-01-26 This comprehensive book explains that while world politics has entered the post Cold War era since the late 1980s the Korean peninsula has not Diplomatic relations have yet to be established between North Korea the US and Japan while conventional military confrontation has persisted Pyongyang s nuclear weapons programme has further increased tensions and the possibility of war has frequently been considered Publisher , Engagement with North Korea Sung Chull Kim,David C. Kang,2010-07-02 How the world deals with North Korea and its nuclear capability will have ramifications for both regional

and global stability Engagement with North Korea examines the still controversial policy strategy known as engagement which aims to persuade rather than force North Korea to be cooperative While examining the converging and diverging policies of engagement practiced by the United States China Russia Japan and South Korea the contributors to this volume uncover how and to what extent engagement has made some form of progress and under what conditions it is likely to achieve complete success In addition to the critical topic of denuclearization the volume also demonstrates that engagement involves the use of negotiations and incentives in both the economic and the security realms This volume is essential reading for both students and policy makers concerned about denuclearization in the multilateral context **The International**

Relations of Northeast Asia Samuel S. Kim, 2004 Written by a team of leading scholars this volume presents a variety of theoretical perspectives and case studies to offer a comprehensive analysis of the pressures that shape the policy choices of China Russia Japan the United States North and South Korea and Taiwan *China and North Korea* Andrew Scobell, 2004 At first it might not seem surprising to have a formal military alliance that has endured more than 4 decades between two communist neighbors China and North Korea After all their armed forces fought shoulder to shoulder in the Korean War 50 years ago However Beijing's ties to Pyongyang have weakened considerably over time and China now has much better and stronger relations with the free market democracy of South Korea than it does with the totalitarian centrally planned economy of North Korea In many ways Pyongyang has become a Cold War relic strategic liability and monumental headache for Beijing Nevertheless the China North Korea alliance remains formally in effect and Beijing continues to provide vital supplies of food and fuel to the brutal and repressive Pyongyang regime Since the ongoing nuclear crisis on the Korean Peninsula which emerged in October 2002 the United States and other countries have pinned high hopes on Chinese efforts to moderate and reason with North Korea Beijing's initiative to bring Pyongyang to the table in the so called Six Party Talks and host them seems to substantiate these hopes Yet as the author points out it would be unrealistic to raise one's expectations over what China might accomplish vis vis North Korea Beijing plays a useful and important role on the Korean Peninsula but in the final analysis the author argues that there are significant limitations on China's influence both in terms of what actions Beijing would be prepared to take and what impact this pressure can have If this analysis is correct then North Korea is unlikely to mend its ways anytime soon **Power Shift** David Shambaugh, 2006-01-17 The dynamics of international relations in Asia are undergoing broad and fundamental changes that are reverberating around the world Primary among the catalysts of change in the region is the rise of China as the engine of regional economic growth as a major military power as a significant voice in regional diplomacy and as a proactive power in multilateral institutions With in depth assessments by seventeen of the world's leading experts on China's foreign relations this groundbreaking volume offers the most timely up to date and comprehensive analysis of China's emerging influence on international relations in Asia The contributors explore the various dimensions of China's rise its influence on the region the consequences for the United

States and alternative models of the evolving Asian order What emerges is a clear picture of China increasingly at the center of the regional web while North Korean and Taiwan could erupt in conflict the predominant trend in Asia is the creation of an extensive web of mutual interdependence among states and non state actors Providing the best overview we currently have of the changing political balance on the Asian continent this accessible volume will be essential reading for anyone concerned with contemporary Asian affairs

Hungry for Peace Hazel Smith, 2005 Smith describes the famine that devastated the country in the 1990s and the international rescue program that Pyongyang requested and received Together the famine and the humanitarian response have wrought subtle but profound changes in North Korea s economy society and security outlook Smith argues that the regime has been prodded into accepting some international norms allowed markets to develop and has included some human security concerns alongside military political interests in its negotiations with the West
