covers various issues and concerns in the world petroleum supply The materials in the book are organized thematically into
sections The text first covers the world perspectives of conventional petroleum and then proceeds to discussing the
classification of petroleum resources Section III deals with the conventional oil and gas deposits while Section IV talks about
enhanced oil recovery Next the selection deals with gases in tight formations along with tar sand heavy oil and oil shale
deposits The eighth section tackles gases in geopressured reservoirs while the ninth section details other unconventional
petroleum and gas deposits The last section deals with concerns in technology transfer of petroleum and gas technology The
book will be of great use to researchers and practitioners in disciplines involved in the petroleum industry FWS/OBS.
