**North American Game Birds and Mammals** Aldo Starker Leopold, Ralph J. Gutiérrez, Michael T. Bronson, 1981  
Presents a concise summary of 135 game species of the United States Canada and northern Mexico with important aspects of their natural history      **American Game Mammals and Birds** John Charles Phillips, 1930      **North American Fauna**, 1950      The Upland and Webless Migratory Game Birds of Texas Leonard A. Brennan, Damon L. Williford, Bart M. Ballard, William P. Kuvlesky, Eric D. Grahmann, Stephen J. DeMaso, 2017-02-17 Authored by some of the state s top wildlife scientists The Upland and Webless Migratory Game Birds of Texas presents the most up to date and comprehensive information covering twenty one species of game birds Ranging from the most well known like the Wild Turkey and Mourning Dove to the marsh loving rails and other more elusive species these birds have widespread appeal among both hunters and birders and underscore the diverse challenges facing wildlife scientists land managers and conservationists in Texas today From cultural significance to taxonomy and evolutionary history this volume provides a wealth of background information on these species Additionally the book offers illustrated species accounts detailed range maps and information about habitat and management requirements hunting regulations and research priorities Readers will gain a deeper understanding of these game birds and the array of terrestrial and wetland landscapes key to their survival This will serve as a convenient and thorough reference volume for wildlife biologists and enthusiasts as well as landowners and hunters      The Tænioid cestodes of North American birds Brayton Howard Ransom, 1909      **The North American Grouse: Their Biology and Behavior** Paul Johnsgard, 2016 The ten currently recognized species of grouse in North America have played an important role in America s history from the famous but ill fated heath hen a primary source of meat for the earliest New England immigrants to the ruffed grouse currently one of the most abundant and soughtafter upland game birds in more than 40 states and provinces This book summarizes the ecology reproductive biology and social behavior of all ten of the extant North American grouse species It also describes the current status of grouse populations some of which are perilously close to extinction The social behavior of grouse is of special biological interest because among these ten species there is a complete mating system spectrum from seasonally monogamous pair bonding to highly promiscuous mating patterns The latter group illustrates the strong structural and behavioral effects of sexual selection resulting from nonmonogamous mating These influences reach a peak in the development by some grouse species of engaging in mating leks arena like competitions performed by males while attempting to attract fertile females and also provide opportunities for females to select optimum mating partners These sexual competitions also promote strong differences evolving in sexual signaling behaviors displays among closely related species Nevertheless a relatively high incidence of mating errors and resulting hybridization often occurs in spite of these marked behavioral differences In addition to a text of 101 000 words the book includes 16 range maps 37 line drawings and 38 photographs by the author as well as nearly 1 400 literature citations      The North American

Model of Wildlife Conservation Shane P. Mahoney, Valerius Geist, 2019-09-10 The foremost experts on the North American Model of Wildlife Conservation come together to discuss its role in the rescue recovery and future of our wildlife resources At the end of the nineteenth century North America suffered a catastrophic loss of wildlife driven by unbridled resource extraction market hunting and unrelenting subsistence killing This crisis led powerful political forces in the United States and Canada to collaborate in the hopes of reversing the process not merely halting the extinctions but returning wildlife to abundance While there was great understanding of how to manage wildlife in Europe where wildlife management was an old mature profession Continental methods depended on social values often unacceptable to North Americans Even Canada a loyal colony of England abandoned wildlife management as practiced in the mother country and joined forces with like minded Americans to develop a revolutionary system of wildlife conservation In time and surviving the close scrutiny and hard ongoing debate of open democratic societies this series of conservation practices became known as the North American Model of Wildlife Conservation In this book editors Shane P Mahoney and Valerius Geist both leading authorities on the North American Model bring together their expert colleagues to provide a comprehensive overview of the origins achievements and shortcomings of this highly successful conservation approach This volume reviews the emergence of conservation in late nineteenth early twentieth century North America provides detailed explorations of the Model s institutions principles laws and policies places the Model within ecological cultural and socioeconomic contexts describes the many economic social and cultural benefits of wildlife restoration and management addresses the Model s challenges and limitations while pointing to emerging opportunities for increasing inclusivity and optimizing implementation Studying the North American experience offers insight into how institutionalizing policies and laws while incentivizing citizen engagement can result in a resilient framework for conservation Written for wildlife professionals researchers and students this book explores the factors that helped fashion an enduring conservation system one that has not only rescued recovered and sustainably utilized wildlife for over a century but that has also advanced a significant economic driver and a greater scientific understanding of wildlife ecology Contributors Leonard A Brennan Rosie Cooney James L Cummins Kathryn Frens Valerius Geist James R Heffelfinger David G Hewitt Paul R Krausman Shane P Mahoney John F Organ James Peek William Porter John Sandlos James A Schaefer
