shows how the claim of fake socialism is only ever made after the event As long as a socialist project is in its prime almost nobody claims that it is not real socialism On the contrary virtually every socialist project in history has gone through a honeymoon period during which it was enthusiastically praised by prominent Western intellectuals It was only when their failures became too obvious to deny that they got retroactively reclassified as not real socialism Everyday Life in the North Korean Revolution, 1945-1950 Suzy Kim,2013-08-09 During the founding of North Korea competing visions of an ideal modern state proliferated Independence and democracy were touted by all but plans for the future of North Korea differed in their ideas about how everyday life should be organized Daily life came under scrutiny as the primary arena for social change in public and private life In Everyday Life in the North Korean Revolution 1945 1950 Kim examines the revolutionary events that shaped people s lives in the development of the Democratic People s Republic of Korea By shifting the historical focus from the state and the Great Leader to how villagers experienced social revolution Kim offers new insights into why North Korea insists on setting its own course Kim s innovative use of documents seized by U S military forces during the Korean War and now stored in the National Archives personnel files autobiographies minutes of organizational meetings educational materials women s magazines and court documents together with oral histories allows her to present the first social history of North Korea during its formative years In an account that makes clear the leading role of women in these efforts Kim examines how villagers experienced understood and later remembered such events as the first land reform and modern elections in Korea s history as well as practices in literacy schools communal halls mass organizations and study sessions that transformed daily routine Journey to North Korea University of California, Berkeley. that the tensions that currently plague the alliance between the two countries have been present from the very beginning of the relationship. Leader Symbols and Personality Cult in North Korea Jae-Cheon Lim, 2015-03-24 The legitimacy of the North Korean state is based solely on the leader's personal legitimacy and is maintained by the indoctrination of people with leader symbols and the enactment of leadership cults in daily life. It can thus be dubbed a leader state. The frequency of leader symbols and the richness and scale of leader symbol making in North Korea are simply unrivalled. Furthermore, the personality cults of North Korean leaders are central to people's daily activity, critically affecting their minds and emotions. Both leader symbols and cult activities are profoundly entrenched in the institutions and daily life, and if separated and cancelled, the North Korean state would be transformed. This book analyses North Korea as a leader state, focusing on two elements: leader symbols and cult activities. It argues that these elements have been and continue to be the backbone of North Korea, shaping North Korean culture. To reveal the leader state character, the book specifically examines North Korea's leadership cults, its use of leader symbols in these cults, and the nature of the symbolism involved. How has the North Korean state developed the cult of the Kim Il-sung family? How does the state use leader symbols to perpetuate this cult? How has the state developed myths and rituals that sustain the cult in daily life? What leader images has state propaganda manufactured? How does the state's manipulation of leader symbols affect the symbolism that is assigned to the leader's actions? In answering these questions, this book sheds new light on the strength and resilience of the North Korean state and shows how it has been able to survive even the most difficult economic period of the mid-1990s. *Leader Symbols and Personality Cult in North Korea* will be essential reading for students and scholars of North Korea, Korean politics, Asian politics, political sociology, and visual politics.

Healing Historical Trauma in South Korean Film and Literature Chungmoo Choi, 2020-12-20 Through South Korean filmic and literary texts, this book explores affect and ethics in the healing of historical trauma as alternatives to the measures of transitional justice in want of national unity. Historians and legal practitioners who deal with transitional justice agree that the relationship between historiography and justice seeking is contested; this book reckons with this question of how much truth telling from a violent past will lead to healing, forgiving, forgetting, and finally overcoming resentment. Nuanced interpretations of South Korean filmic and literary texts are featured, including Park Chan-wook's *Oldboy*, Bong Joon-ho's *Mother*, and literary texts of Han Kang and Choe Yun, whilst also engaging the ethical and political philosophy of Levinas, Hannah Arendt, and others. Also offered is new and extensive research into the hitherto hidden history of thousands of North Korean war orphans who were sent to Eastern European countries for care. Grappling with the evils of history, the films and

novels examined herein find their ultimate themes in compassion hospitality humility and solidarity of the wounded Healing Historical Trauma in South Korean Film and Literature will appeal to students and scholars of film comparative literature cultural studies and Korean studies more broadly

Talking to North Korea James Glyn Ford, 2018-09-20 Despite recent attempts at negotiation the attitudes of both Kim Jong un s regime and the West seem unchanged North Korea is still shrouded in mystery and there are no clear plans for the future Can we trust either side to bring about peace And if so how This provocative insider s account blasts apart the myths which paint North Korea as a rogue state run by a mad leader Informed by extraordinary access to the country s leadership Glyn Ford investigates the regime from the inside providing game changing insights which Trump and his administration have failed to do Acknowledging that North Korea is a deeply flawed and repressive state he nonetheless shows that sections of the leadership are desperate to modernise and end their isolation With chapters on recent developments including the Trump Kim summit Ford supports a dialogue between East and West whilst also criticising Trump s facile attempts Talking to North Korea provides a road map for averting a war in North East Asia that would threaten the lives of millions
