North Korean Special Forces:

North Korean Special Forces Joseph S. Bermudez, 1998 North Korea fields one of the world's largest armies tasked with annihilating U.S. and South Korean forces and reuniting the two Koreas. At the tip of the North Koreans' spear is the largest special operations force in the world. Here a leading expert on the subject fully exposes and analyzes this dangerous threat.

Countering North Korean Special Purpose Forces Major Troy P. Krause, 2015-11-06 As United States and Republic of Korea forces stand to defend against a DPRK attack one of the most formidable tasks is how to counter a second front in the Joint Rear Security Area of the Republic of Korea. North Korea has a robust and diverse special operations force capability: their Special Purpose Forces. With nearly 104,000 soldiers committed to these daring tactics and operations, the United States and the Republic of Korea must be vigilant and innovative to protect their forces from such attacks. The principal mission of the North Korean Special Purpose Forces is to infiltrate into the enemies' rear area and conduct short duration raids. Their most dangerous avenue of approach for their forces includes amphibious approaches, airborne infiltration, and the use of a vast tunnel network. How would the North carry out such an attack against such formidable foes? Will they use special operations type forces to disrupt the South in their rear areas? How would they move their forces into South Korea? What solutions does the United States and the Republic of Korea have to solve this problem, and which one is the best? This analysis examines the various methods the United States and the Republic of Korea will use to counter the North Korean Special Purpose Forces today and in the future.

North Korean Military Proliferation in the Middle East and Africa Bruce E. Bechtol Jr., 2018-09-07 North Korea has posed a threat to stability in Northeast Asia for decades. Since Kim Jong-un assumed power, this threat has both increased and broadened. Since 2011, the small, isolated nation has detonated nuclear weapons multiple times, tested a wide variety of ballistic missiles, expanded naval and ground systems that threaten South Korea, and routinely employs hostile rhetoric. Another threat it poses has been less recognized: North Korea presents a potentially greater risk to American interests by exporting its weapons systems to other volatile regions worldwide. In *North Korean Military Proliferation in the Middle East and Africa*, Bruce E. Bechtol Jr. analyzes relevant North Korean military capabilities, what arms the nation provides, and to whom; how it skirts its sanctions; and how North Korea's activities can best be contained. He traces illicit networks that lead to state and nonstate actors in the Middle East, including Syria, Iran, Hezbollah, and Hamas, and throughout Africa, including at least a dozen nations. The potential proliferation of nuclear and chemical weapons technology and the vehicles that carry it, including ballistic missiles and artillery, represent a broader threat than the leadership in Pyongyang. Including training and infrastructure support, North Korea's profits may range into the billions of dollars, all concealed in illicit networks and front companies so complex that the nation struggles to track and control them. Bechtol not only presents an accurate picture of the current North Korean threat, he also outlines methodologies that Washington and the international community must embrace in order to contain it.

The North Korean Special Purpose

Forces Michael S. Durtschi,1995 The purpose of this thesis is to assess the threat that the North Korean Special Forces pose and to explore how this threat might be deterred or countered This thesis will answer three questions First in the event of a second Korean War what will the special forces campaign look like Second how could one deter North Korea s use of this capability and if that fails can the threat be countered Finally what conclusions can be drawn from the North Korean case about the future use of special operations forces in general This study provides an empirical assessment of the capabilities of the North Korean Special Purpose Forces and the threat they pose to the interests of both South Korea and the United States It develops two possible campaign models based on two prominent schools of thought on the use of special operations forces SOF autonomous use or integration with general purpose forces This thesis then compares the capabilities of the North Korean Special Purpose Forces to the alternate campaign models to predict their possible uses in the event of a second Korean War Finally the study addresses how the Republic of Korea and the United States may deter or counter the threat these forces pose It also discusses what conclusions may be drawn from this study about the future use of special operations forces in general

THE TRUE FORCE OF NORTH KOREA: Military, Weapons of Mass Destruction and Ballistic Missiles, Including Reaction of the U.S. Government to the Korean Military Threat Andrew Scobell, John M. Sanford, Daniel A. Pinkston, Strategic Studies Institute, U.S. Congress, Donald Trump, 2017-09-19 North Korea is a country of paradoxes and contradictions Although it remains an economic basket case that cannot feed and clothe its own people it nevertheless possesses one of the world s largest armed forces Whether measured in terms of the total number of personnel in uniform numbers of special operations soldiers the size of its submarine fleet quantity of ballistic missiles in its arsenal or its substantial weapons of mass destruction programs Pyongyang is a major military power Content North Korea s Military Threat Conventional Forces Unconventional Forces Overall Conclusions The North Korean Ballistic Missile Program DPRK National Strategy and Motivations Historical Background of DPRK Missile Development Institutional Setting Conclusion U S Government Policy Toward North Korea Countering the North Korean Threat New Steps in U S Policy Pressuring North Korea Evaluating Options President Donald Trump on Current Crisis on the Korean Peninsula A Message to the Congress of the United States on the Continuation of the National Emergency with Respect to North Korea Continuation of the National Emergency with Respect to North Korea Statement from the President on North Korea s Second ICBM Launch Statement by President Donald J Trump on North Korea About the Authors

Preparing for the Possibility of a North Korean Collapse Bruce W. Bennett, 2013-09-19 A North Korean government collapse would have serious consequences including a humanitarian disaster and civil war The Republic of Korea and the United States can help mitigate the consequences seeking unification by being prepared to deliver humanitarian aid in the North stop conflict demilitarize the North Korean military over time secure and eliminate North Korean weapons of mass destruction and manage Chinese intervention

The Ashgate Research Companion to the Korean War Donald W. Boose, 2016-03-23 This essential companion provides a

comprehensive study of the literature on the causes course and consequences of the Korean War 1950-1953. Aimed primarily at readers with a special interest in military history and contemporary conflict studies, the authors summarize and analyze the key research issues in what for years was known as the Forgotten War. The book comprises three main thematic parts, each with chapters ranging across a variety of crucial topics covering the background, conduct, clashes, and outcome of the Korean War. The first part sets the historical stage with chapters focusing on the main participants. The second part provides details on the tactics, equipment, and logistics of the belligerents. Part III covers the course of the war with each chapter addressing a key stage of the fighting in chronological order. The enormous increase in writings on the Korean War during the last thirty years, following the release of key primary source documents, has revived and energized the interest of scholars. This essential reference work not only provides an overview of recent research but also assesses what impact this has had on understanding the war. Military Police, 1989 **Military Review**, 2019 Defiant Failed State Bruce E.

Bechtol, 2010-10 Delineates the challenges posed by North Korea **The North Korean Ballistic Missile Program** Daniel A. Pinkston, 2008 North Korea's nuclear weapons and ballistic missile programs have drawn international attention for years. In the early 1960s, Pyongyang began to pursue the capability to produce advanced weapons systems including rockets and missiles. However, foreign assistance and technology, particularly from China and the Soviet Union, were instrumental in the acquisition of these capabilities. The ballistic missile inventory now totals about 800, including about 200 Nodong missiles that could strike Japan. In April 2007, North Korea for the first time displayed two new missiles: a short-range tactical missile that poses a threat to Seoul and U.S. Forces in South Korea, and an intermediate-range missile that could potentially strike Guam. Although North Korea has not demonstrated the ability to produce a nuclear warhead package for its missiles, its missiles are believed to be capable of delivering chemical and possibly biological munitions. North Korean media and government officials claim the country needs a nuclear deterrent to cope with the hostile policy of the United States, but Pyongyang has never officially abandoned its objective of completing the revolution in the south. Little is known about North Korean military doctrine and the role of its ballistic missiles, but National Defense Commission Chairman Kim Chong-il has ultimate authority over their disposition. The Changing Military Balance in the Koreas and Northeast Asia Anthony H. Cordesman, Aaron Lin, 2015-07-07 The tensions between the Koreas and the potential involvement of China, Japan, Russia, and the United States in a Korean conflict create a nearly open-ended spectrum of possible conflicts. These conflicts could range from posturing and threats to a major conventional conflict on the Korean peninsula with intervention by outside powers to the extreme of nuclear conflict. The Korean balance is also affected by the uncertain mix of cooperation and competition between the United States and China, particularly with the U.S. pivot toward Asia and the steady modernization of Chinese forces. This new volume, up to date through Spring 2015, provides a detailed examination of the military forces in Northeast Asia, North and South Korea, China, Russia, Japan, and the United States, setting those forces in the larger geostrategic context.

The Modernisation of the Republic of Korea Navy Ian Bowers, 2018-08-11 This book sheds light on one of the most under studied but powerful navies in the world Using a multifaceted approach it examines how the Republic of Korea Navy ROKN has sought to transform itself from a coastal naval force focused solely on deterring North Korea to a navy capable of operating in the blue waters of East Asia and beyond The project argues that peninsular and regional security dynamics technological developments the US South Korea alliance and internal politics combine to inform and shape ROKN modernisation

North Korea's Military-Diplomatic Campaigns, 1966-2008 Narushige Michishita, 2009-10-16 This book examines North Korea's nuclear diplomacy over a long time period from the early 1960s setting its dangerous brinkmanship in the wider context of North Korea's military and diplomatic campaigns to achieve its political goals It argues that the last four decades of military adventurism demonstrates Pyongyang's consistent calculated use of military tools to advance strategic objectives vis vis its adversaries It shows how recent behavior of the North Korean government is entirely consistent with its behavior over this longer period the North Korean government's conduct rather than being haphazard or reactive is rational in the Clausewitzian sense of being ready to use force as an extension of diplomacy by other means The book goes on to demonstrate that North Korea's calculated adventurism has come full circle what we are seeing now is a modified repetition of earlier events such as the Pueblo incident of 1968 and the nuclear and missile diplomacy of the 1990s Using extensive interviews in the United States and South Korea including those with defected North Korean government officials alongside newly declassified first hand material from U S South Korean and former Communist bloc archives the book argues that whilst North Korea's military diplomatic campaigns have intensified its policy objectives have become more conservative and are aimed at regime survival normalization of relations with the United States and Japan and obtaining economic aid

Korean Peninsula Division/Unification Korea Institute for National Unification (South Korea), Kyuryoon Kim, Jae-Jeok Park, 2013-11-21 This book analyzes the cost of division that the four powers must bear as well as the benefits of unification they will acquire There has been much research on the same topic but mostly done from the perspective of Korean scholars However this book provides perspectives of scholars from each of the four states as well as Asia Pacific region This book is part of an ongoing effort by KINU to strengthen South Korea's unification diplomacy This book is divided into 10 chapters Chapter 1-8 analyze the cost of division and the benefits of unification from the security and economic perspective of the United States Japan China and Russia Chapter 9 and 10 look at the bigger picture by discussing the division cost and benefits of unification from the standpoint of the Asia Pacific region as a whole Based on the analyses of the chapters the conclusion chapter examines the similarities and differences of the division cost that the four powers must bear as well as the benefits they will obtain Introduction The Costs of Division and the Benefits of Unification for the Four Northeast Asian Powers Kook Shin Kim Jae Jeok Park Chapter 1 The Costs of Korean Division and the Benefits of Korean Unification for U S National Security Kongdan Katy Oh Chapter 2 Economic Implications for the United States of the Divided Korean Peninsula

Abstracts, October 1994-September 1995 United States. Naval Postgraduate School, Monterey, CA.,1995 Power, Interest, and Identity in Military Alliances J. Suh,2007-06-25 This book looks at U S Korea relations and argues that military alliances depend upon a combination of power distribution material assets and identities The author asserts that beyond being mere tools of power balancing alliances are also impacted by material and institutional practices that constitute the identity of allies and adversaries Military Combative Masters of the 20th Century Tank Todd,2005 Profiles of military armed and unarmed combat instructors from around the world past and present The Routledge Handbook of Civil-military Relations Thomas C. Bruneau,Florina Cristiana Matei,2013 The Routledge Handbook of Civil Military Relations not only fills this important lacuna but offers an up to date comparative analysis which identifies three essential components in civil military relations 1 democratic civilian control 2 operational effectiveness and 3 the efficiency of the security institutions This Handbook will be essential reading for students and practitioners in the fields of civil military relations

Scenes from an Unfinished War Daniel P. Bolger,1991 This paper discusses the extended period of low intensity conflict that North Korea conducted against South Korea in the mid to late 1960s This period of hostilities had its dramatic moments such as the seizure of the USS Pueblo but for the most part the tactics consisted of propaganda infiltration assassination plots and guerrilla warfare Because the war in Vietnam overshadowed these developments the unfinished war in Korea has largely been ignored by military officers studying the nature and demands of modern warfare In this sense the label forgotten war often applied to the conventional war of the early 1950s is much more applicable to the conflict on the peninsula from 1966 to 1969 It describes in detail the vast range of military operations short of war that an adversary can employ against countries supported by the United States and assesses how allied forces can adapt to the unexpected and devise countermeasures that if not completely effective can at least disrupt the designs of the adversary so he cannot obtain his primary objectives Through the exemplary leadership of General Charles H Bonesteel III it demonstrates the importance of personality in warfare and the essential need for officers to recognize the dominance of political considerations at the lower end of the conflict spectrum
