Schiffman, 2011-05-03 Green Issues and Debates explores the multitude of threats to sustainable life on earth and the myriad of controversies surrounding potential solutions The grayer shades of green are deeply examined including such heady questions as Is ethanol production from corn a recipe for famine Does offshore drilling pose more of a risk to the environment than the problem it solves Is clean coal a viable option or is it simply polluting the energy dilemma Are genetically modified foods helpful or harmful Well respected scholars present more than 150 articles presented in A to Z format focusing on issues brought to the forefront by the green movement with carefully balanced pro and con viewpoints A valuable tool for students of all facets of ecology the environment and sustainable development the volume fully engages the reader inspiring further debate within the classroom Vivid photographs searchable hyperlinks numerous cross references an extensive resource guide and a clear accessible writing style make the Green Society volumes ideal for the classroom as well as for research **The new international economic Order**, 1976 *The Emergence Of The Nio Ideology* Craig Murphy, 2019-07-11 This study traces the political history of the ideas underlying Third World calls for a New International Economic Order Filling a significant gap in the literature the book shows that NIEO ideology has a direct unbroken line of development extending back to World War II when a new international economic order the Bretton Woods system was created Dr Murphy maintains that NIEO ideology is not rooted only in Third World acceptance of Prebisch's views on trade rather it evolved from Third World attempts to cope with problems and opportunities that emerged as the Bretton Woods system was created operated and began to break down By the 1970s the ideology had become a complex and coherent analysis of the economic position of Third World states including a political analysis of how Third World views could be made dominant Many of Dr Murphy's conclusions challenge the conventional wisdom about the Third World position of the NIEO In addition his study offers insight into the relatively unexplored area of how changes in political and social consciousness affect international systems and provides grounds on which officials from both the South and the North can see the others views as less alien *Official Report of Debates* European Conference of Local Authorities, Council of Europe, 1993-01-01 [Debates in Legislative Council on Amalgamation of Territories of Northern and Southern Rhodesia](#) Southern Rhodesia.
