## **Northcliffe Press Baron And Empire 1865 1922:**

*Media and the British Empire* C. Kaul, 2006-03-28 The only true history of a country wrote Thomas Macaulay is to be found in its newspapers This book explores how the media shaped and defined the economic social political and cultural dynamics of the British Empire by viewing it from the perspective of the colonised as well as the colonisers

**The Round Table Movement and the Fall of the 'Second' British Empire (1909-1919)** Andrea Bosco, 2017-01-06 In spite of the general phobia of federalism there is a strong federalist trend within British political culture In three very different historical contexts federalism inspired the action of political movements such as the Imperial Federation League the Round Table and the Federal Union Indeed it was regarded as the solution to problems arising from the first signs of the possible collapse of Great Britain and its Empire The Round Table Movement played a particularly interesting role in this regard attempting to reverse the rapid and inexorable decline of the British Empire It was a political organisation with roots in all the major peripheries of the Empire and almost unlimited financial resources This volume discusses the strategies and means employed by the group in order to maintain the British Empire's global prominence The book's main argument is that we did not have a British century the nineteenth and an American century the twentieth but rather four centuries of Anglo Saxon supremacy which witnessed the affirmation of the national principle expression of the Continental political tradition and its overcoming through its opposite the federal principle the expression of the insular political tradition

*The Imperial Aircraft Flotilla* Margaret Hall, 2017-10-30 A great wave of fundraising patriotic associations followed in the wake of Great Britain's declaration of war on Germany on 4 August 1914 at home but also right across the empire The most successful public campaign of all was launched in London at the beginning of 1915 Known as the Imperial Aircraft Flotilla the scheme aimed to attract contributions towards aircraft production costs from throughout the British Empire Any country locality or community that provided sufficient funds for an entire aeroplane could have it named after them It was promised that when the machine crashed or was shot down the name would be transferred to a new one of the same type Margaret Hall examines the Imperial Aircraft Flotilla as a facet of imperial history She analyzes the fundraising efforts in Canada and Newfoundland the Zanzibar Protectorate Fiji Mauritius and the Caribbean Hong Kong the Malay states and Straits Settlements West Africa especially Gold Coast Southern Rhodesia Basutoland Swaziland and the Union of South Africa the Indian empire and Burma British subjects in independent Abyssinia and Siam in the Shanghai International Settlement and the British community of Argentina Australia and New Zealand This remarkable and detailed book discusses the propaganda and counter subversion usages of the Imperial Aircraft Flotilla and what the support for the imperial war effort reveals about contemporary national and regional identities and aspirations

*Imperial Co-histories* Julie F. Codell, 2003 This book explores the creation of imperial identities in Britain and several of its colonies South Africa India Australia Wales and the ways in which the Victorian press around the world shaped and reflected these identities The concept of co histories borrowed from Edward Said and Frantz

Fanon helps explain how the press shaped the imperial and national identities of Britain and of the colonies into co histories that were thoroughly intertwined and symbiotic Exploring a variety of press media this book argues that the press was a site of resistance and revision by colonized authors and publishers as well as a force of colonial authority for the British government editors and publishers who projected a view of the empire to their British colonial and colonized readers Topics include The Journal of Indian Art and Industry produced by the British art schools in India women s periodicals Indian writers in the British press The Imperial Gazetteer published in Scotland the rise of telegraphic news agencies the British press s images of China seen through exhibitions of its art the Tory periodical Blackwood s Magazine and the Imperial Press Conference of 1909 University [Empire and Ireland](#) Roy MacLaren,2015-05-01 In Empire and Ireland Roy MacLaren recounts the life and political career of Hamar Greenwood a young man from rural Canada who reached the imperial pinnacle of the British cabinet Greenwood s arduous route was first beset by conservative opposition to his liberal convictions and later by hostility towards his role as chief secretary for Ireland under British prime minister Lloyd George during the tumultuous years of 1920 to 1922 A long time advocate of Home Rule for Ireland Greenwood endeavoured to provide Ireland with the same Dominion status as Canada Dominion Home Rule however was not enough for Irish Republicans who blamed him for the Black and Tan reprisals carried out by the British and too much for Conservative Unionists who believed he was insufficiently hard line Eventually abandoning the divided Liberals for the Conservatives he entered the House of Lords as Viscount Greenwood By then Britain could no longer sustain an empire which in his eyes had been a cradle for justice liberty and development The first biography of Hamar Greenwood MacLaren s thought provoking work also illuminates the meaning of liberal imperialism a significant factor in political thinking and policy formation throughout the global empire in Greenwood s time which still has resonance today

as well as more critical consumers of modern news      News and the British World Simon James Potter, 2003 Revealed to contemporaries by the South African War the basis on which the system would develop soon became the focus for debate Commercial organizations including newspaper combinations and news agencies such as Reuters fought to protect their interests while constructive imperialists attempted to enlist the power of the state to strengthen the system Debate culminated in fierce controversies over state censorship and propaganda during and after World War I Based on extensive archival research this study addresses crucial themes including the impact of empire on the press Britain's imperial experience and the idea of a British world      **British Jews and Imperial Service** Stephanie M. Chasin, 2023-12-28 In the wake of the devastating WWI three Jews headed the most valuable territory in the British Empire in addition to a strategically important new addition Edwin Montagu held the position of Secretary of State for India Rufus Isaacs Lord Reading was the newly appointed Viceroy of India and Herbert Samuel arrived in Jerusalem as the first High Commissioner of Palestine Their appointments came at a time of great upheaval as Indian nationalists clamoured for independence pan Islamists fought to keep the defeated Ottoman Empire intact and the sultan in Constantinople and Zionists sought to build on the wartime promise by the British government to create a Jewish homeland in Palestine in face of opposition by Palestinians and pan Islamists The task of tackling these issues was made all the more difficult by accusations that Jews were not loyal to the British Empire and its goals a view promoted by the appearance of the antisemitic Protocols of the Elders of Zion in English translation This book follows this web of divisive imperial politics and nationalist and pan Islamist aspirations in India and Palestine through the lives and work of these three men whose efforts were coloured by the post war fear of a declining empire that was being corroded from within      *Visions of the Press in Britain, 1850-1950* Mark Hampton, 2004 Hampton surveys a diversity of sources to demonstrate that British theories of the press were intimately tied to definitions of the public and the emergence of mass democracy in the late nineteenth and early twentieth centuries      The Making of Murdoch: Power, Politics and What Shaped the Man Who Owns the Media Tom Roberts, 2020-01-23 Rupert Murdoch's extraordinary career has no parallel His control of Fox news which so successfully supports the Trump presidency is a key force in American politics In the UK his control of The Sun and The Times leaves politicians scrambling to get him onside But what do we know about the man himself This book looks closely at the Murdochs focusing on Rupert's father Keith who built the family's media power and cultivated the anti establishment instincts that his son Rupert is known for Roberts traces the life of the Murdochs how Rupert Murdoch's view of the world was formed and assesses its impact on the media that influences our politics today      Britannia's Zealots, Volume I N.C. Fleming, 2018-10-18 Britannia's Zealots Volume I opens the first longitudinal study to examine the Conservative Right from the late 19th century to the present day British Conservatism has always contained a significant section fundamentally opposed to progressive reform A permanent minority in Parliament dissident right wing Conservatives nevertheless had allies in the press and sympathy among grassroots party members

enabling them to create crises in the media and at party meetings N C Fleming charts the evolution of reactionary politics from its preoccupation with the Protestant constitution to its fixation with the prestige and strength of Britain's global empire He examines the overlooked ways in which Conservative Right parliamentarians shaped their party's policies and propaganda in and out of office and their relationships with the press and ordinary activists He seeks to demonstrate that this influence could be circumscribing and on occasion highly disruptive with consequences which remain relevant for today's Conservative party Britannia's Zealots Volume I will be of great interest to academics and students of British history right wing politics imperialism and 20th century history

**The Great War and the British Empire** Michael Walsh, Andrekos Varnava, 2016-11-25 In 1914 almost one quarter of the earth's surface was British When the empire and its allies went to war in 1914 against the Central Powers history's first global conflict was inevitable It is the social and cultural reactions to that war and within those distant often overlooked societies which is the focus of this volume From Singapore to Australia Cyprus to Ireland India to Iraq and around the rest of the British imperial world further complexities and interlocking themes are addressed offering new perspectives on imperial and colonial history and theory as well as art music photography propaganda education pacifism gender class race and diplomacy at the end of the pax Britannica

Hidden History Gerry Docherty, James MacGregor, 2013-07-04 Think you know about British history and the causes of the First World War Think again This fascinating and gripping study of events at the turn of the Twentieth Century is a remarkable insight into how political and social factors that we widely accept to be the causes of The Great War were really just a construct put together by a very small but powerful political elite Thought provoking Docherty and Macgregor do not mince their words their arguments are powerful Britain at War Simply astonishing Reader review Very illuminating Reader review You simply MUST read this book Reader review This is a page turner Reader review Hidden History uniquely exposes those responsible for the First World War It reveals how accounts of the war's origins have been deliberately falsified to conceal the guilt of the secret cabal of very rich and powerful men in London responsible for the most heinous crime perpetrated on humanity For ten years they plotted the destruction of Germany as the first stage of their plan to take control of the world The assassination of Archduke Franz Ferdinand was no chance happening It lit a fuse that had been carefully set through a chain of command stretching from Sarajevo through Belgrade and St Petersburg to that cabal in London Our understanding of these events has been firmly trapped in a web of falsehood and duplicity carefully constructed by the victors at Versailles in 1919 and maintained by compliant historians ever since The official version is fatally flawed warped by the volume of evidence they destroyed or concealed from public view Hidden History poses a tantalising challenge The authors ask only that you examine the evidence they lay before you

Two World Wars and Hitler: Who was Responsible? Jim Macgregor, John O'Dowd, 2025-03-19 A radical re interpretation of events between 1914 and 1945 this book is a scholarly revision of the history of Nazi Germany that is sure to open the eyes of many thus far reluctant to face the truth Deeply researched well

sourced evidence relates the true origins of the world wars Corporal Hitler's meteoric rise to supreme power thanks to Britain and the United States of America and how in 1939 the world was once again and very deliberately taken into the abyss The book does not like so many histories about Hitler and the world wars tinker around the edges of modern history It is a unique re writing of the history at a level that is clearly understandable not merely to the academic with a wide level of expertise but to ordinary readers with no more than a general interest in the subject matter Told here for the first time the astonishing truth about British and American secret agents encouraging facilitating and funding Hitler's rise to power is sure to attract a substantial readership Two World Wars and Hitler Who Was Responsible by Jim Macgregor and John O Dowd takes readers on a deep dive into the murky waters of global politics exposing the intricate web of money foreign agents and geopolitical schemes that shaped the events of the 20th century This book challenges the accepted narratives surrounding the causes of the two world wars and Adolf Hitler's rise to power peeling back layers of propaganda to uncover hidden truths The authors bring their medical and academic backgrounds to bear on a meticulously researched investigation connecting dots that span continents and decades From the clandestine dealings of financial elites to the machinations of intelligence operatives the authors argue that the outcomes of these conflicts were anything but inevitable They propose that powerful individuals and institutions actively manipulated the course of history prioritizing profit and dominance over the welfare of nations and huma

**Haldane** John Campbell,2020-07-16 Can you name the creator of the Territorial Army the British Expeditionary Force the Imperial General Staff and the Officers Training Corps The man who laid the foundation stones of MI5 MI6 the RAF the LSE Imperial College the redbrick universities and the Medical Research Council This book restores Richard Burdon Haldane to his rightful place among the great men of British and Canadian history Serving as war minister in the 1905 Liberal British government his groundbreaking proposals on defence education and government structure were astonishingly ahead of his time the very building blocks of modern Britain Even the Canadian Constitution as now interpreted is unthinkable without Haldane His ubiquitous networks ranged from Wilde to Einstein Churchill to Carnegie king to kaiser his polymathic interests enabled pioneering cross party cross sector cooperation Yet in 1915 he was ejected from the Lord Chancellorship unjustly vilified by an ignorant press campaign as a German sympathizer John Campbell charts these ups and downs reveals the intensely personal side of Haldane through previously unpublished love letters and shows his enormous relevance in our search for just societies and states today Amidst political and national instability it is surely now right to reinstate Haldane as an outstanding example of true statesmanship

**The Marquess of Londonderry** N.C. Fleming,2024-02-22 Charles Stewart Henry Vane Tempest Stewart the seventh Marquess of Londonderry has long been a divisive figure in British and Irish history Was he an anti Semitic Nazi sympathizer as some have argued or did he seek to preserve peace in Europe Should he be blamed for the breakdown of the World Disarmament Conference as the Labour party maintained or did he help to preserve the Royal Air Force that ultimately secured victory in the Battle of Britain Was he the

founding father of integrated education in Northern Ireland or the friendly face of a sectarian government In the paperback edition of *The Marquess of Londonderry* N C Fleming answers these questions and more This updated and expanded biography draws extensively from private family papers and state papers as well as new scholarship to provide an illuminating and rounded study of an infamous and often misunderstood aristocrat It contains new details about his household and wealth his travels across the British Empire and his ownership of collieries in County Durham Londonderry's political beliefs are fully examined including his attitudes to democracy capitalism women's rights religion trade unions and anti-Semitism It charts his diplomatic efforts at the League of Nations and his promotion of Anglo-German understanding in response to the aggressive policies of Adolf Hitler Fleming places Londonderry's political career in the context of aristocratic decline and growing calls for social equality He demonstrates how Londonderry defied contemporary expectations by holding on to high office and how he continued to have the attention of powerful figures even after his removal from the government
