Rhymes from the North Country Burt Porter, 2016-01-22 Hawk Owl The frozen bog lies silent white and black A few fine flakes of snow sift slowly down On stunted spruce and wind torn tamarack As gray light fades and night comes early on Burt Porter Through vivid imagery and an eloquent voice Vermont s ardent naturalist and traditional poet Burt Porter brings nature to life in a collection of poems that rhythmically explore the North Country its beauty and inhabitants Porters thoughtful poems reflect on a variety of themes and subjects that include the four seasons love rainbows milkweed and the twinned seeds of a maple tree As he leads others down a lyrical path Porter shines a light on the spectacular beauty of Vermont and a simplistic life that can only be found in a countryside where cattle doze in darkened barns a bank of fog hangs in the sun warmed air and love lives in quiet ways In all of the best senses Burt Porter is Americas best and perhaps last bard I love every poem in the collection Howard Frank Mosher award winning author

The Forms of Youth Stephanie Burt, 2007-09-04 Early in the twentieth century Americans and other English speaking nations began to regard adolescence as a separate phase of life Associated with uncertainty inwardness instability and sexual energy adolescence acquired its own tastes habits subcultures slang economic interests and art forms This new idea of adolescence became the driving force behind some of the modern era s most original poetry Stephen Burt demonstrates how adolescence supplied the inspiration and at times the formal principles on which many twentieth century poets founded their works William Carlos Williams and his contemporaries fashioned their American verse in response to the idealization of new kinds of youth in the 1910s and 1920s W H Auden s early work Philip Larkin s verse Thom Gunn s transatlantic poetry and Basil Bunting s late modernist masterpiece Briggflatts all track the development of adolescence in Britain as it moved from the private space of

elite schools to the urban public space of sixties subcultures The diversity of American poetry from the Second World War to the end of the sixties illuminates poets reactions to the idea that teenagers juvenile delinquents hippies and student radicals might for better or worse transform the nation George Oppen Gwendolyn Brooks and Robert Lowell in particular built and rebuilt their sixties styles in reaction to changing concepts of youth Contemporary poets continue to fashion new ideas of youth Laura Kasischke and Jorie Graham focus on the discoveries of a specifically female adolescence The Irish poet Paul Muldoon and the Australian poet John Tranter use teenage perspectives to represent a postmodernist uncertainty Other poets have rejected traditional and modern ideas of adolescence preferring instead to view this age as a reflection of the uncertainties and restricted tastes of the way we live now The first comprehensive study of adolescence in twentieth century poetry The Forms of Youth recasts the history of how English speaking cultures began to view this phase of life as a valuable state of consciousness if not the very essence of a Western identity

The Oxford Book of American Poetry David Lehman, 2006 Redefines the great canon of American poetry from its origins in the 17th century right up to the present

Encyclopedia of the New York School Poets Terence Diggory, 2009 An A to Z reference to writers of the New York School including John Ashbery who is often considered America's greatest living poet Examines significant movements in literary history and its

development through the years Rethinking the North American Long Poem Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence Rethinking the North American Long Poem focuses on the North American variant of this notorious form notorious because of its often forbidding and difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman's Song of Myself Ezra Pound's The Cantos Muriel Rukeyser's The Book of the Dead and Charles Olson's The Maximus Poems They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis's Drafts M NourbeSe Philip's Zong and Claudia Rankine's Citizen Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present **A Literary Field Guide to Northern Appalachia** Todd

Davis, Noah Davis, Carolyn Mahan, 2024-09-15 Northern Appalachia is one of the most biodiverse regions on Earth and home to a broad range of ecological and human cultures With A Literary Field Guide to Northern Appalachia editors Todd Davis and Noah Davis recognize and celebrate this diversity and the fact that humans are storytelling creatures who develop relationships with their landscapes at the intersection of art and science A companion volume to A Literary Field Guide to Southern Appalachia this guide introduces the reader to seventy indigenous species found in Northern Appalachia a region comprising parts of Ohio Pennsylvania New York Connecticut New Jersey Massachusetts Vermont New Hampshire and Maine As a hybrid literary and natural history anthology the book consists of descriptions and notes on habitat range and ecology provided by six scientists with expertise in the region's flora and fauna In addition eleven artists and seventy poets have provided original artwork and poetry that illuminate the lives of the greater than human world Defying easy stereotypes the guide presents trees shrubs wildflowers and mammals birds and fish reptiles and amphibians and invertebrates and fungi Love and wonder for these ancient mountains and their ever evolving residents flood the pages of this book inviting the reader into a deeper way of knowing a place and the lives dependent on it *North of Eden* Rennie McQuilkin, 2017 This is the definitive collection of poems by Rennie McQuilkin Poet Laureate of CT and winner of the CT Book Award His 15th poetry collection it contains his best work from previous books demonstrating a love of the natural world and management of the worst life can throw at us The day after their expulsion from Eden he writes Adam and Eve get dressed for work and consider what to plant in a lesser garden Since the living is no longer easy and love no longer blooms of its own accord they are learning to pay attention And so it goes in parry after parry throughout the book North of Eden contains over 200 poems not presented in McQuilkin's earlier collection of Selected Poems The Weathering which won the 2010 CT Book Award

McQuilkin's poems are both accessible and resonant witty and lyrical About them Gray Jacobik has said Elegant and tenderhearted replete with sound play and radiant metaphor such poems rank with the best of Carruth Kunitz Nemerov and Warren Richard Wilbur has praised *The Weathering* for its unostentatious brilliance of structure and seemingly offhand way of threading thought through its particulars And Eamon Grennan writes that Rennie McQuilkin offers us poems of a grainy poised exacting honesty There's a Shaker furniture feel to their mix of plainness and grace Grounded and unabashedly local these poems are also at home in the sky and in touch with everywhere providing a deep reading of a truly examined life McQuilkin balances with elegance the practical erotic and mindful zones of his experience infusing the quotidian with a sense of something nearly numinous To risk a large formulation which McQuilkin would likely shrug off I'd say his is at root a redemptive vision an ability to encounter tough truths and by encountering them without flinching to come through Quietly vigilant affectionate yet scrupulous and at times humorously wry the poems in *The Weathering* in their landscapes and dreamscapes their weathers their swift erotic swerves their family of loved ones their undimmed and perpetual relish for the things of nature and the things of man give in form and content language and matter continuous pleasure

Northern Irish Poetry E. Kennedy-Andrews, 2014-08-18 Through discussion of the ways in which major Northern Irish poets such as John Hewitt Seamus Heaney Michael Longley Louis MacNeice and Derek Mahon have been influenced by America this study shows how Northern Irish poetry overflows national borders complicating and enriching itself through cross cultural interaction and hybridity

Derek Mahon: A Retrospective Nicholas Grene, Tom Walker, 2024-09-17 Derek Mahon 1941 2020 is widely recognized as one of the most important Irish poets of his generation

This collection of new critical essays offers an important retrospective assessment of the nature of his poetic achievement. Bringing together many leading scholars of modern and contemporary Irish poetry including a notable number of accomplished poet critics, its contributors range widely across Mahon's body of work. Their essays offer fresh considerations of the biographical, geographical, and literary contexts that shaped his poetic voice. This includes paying attention not only to more familiar influences but also to previously little considered interlocutors. The stylistic and formal achievement of his voice is re-evaluated in ways that range from attentive close readings to considerations of his controversial practice of self-revision and his engagements with music and experiments in translation. The politics of a poet often misleadingly considered apolitical are also reframed to take in the engagements of his early work through to the ecocritical commitment of his later poetry. Indeed, a notable aspect of this book is the consideration it gives to all the phases of Mahon's career. As a whole, the collection opens up many new ways of reading and understanding Mahon's important body of work. Cézanne Alex Danchev, 2012. A major biography, the first comprehensive new assessment to be published in decades of the brilliant work and restless life of Paul Cézanne, the most influential painter of his time whose vision revolutionized the role of the painter.

Grace, 2002-04-15. *Canada and the Idea of North* examines the ways in which Canadians have defined themselves as a northern people in their literature, art,

music drama history geography politics and popular culture From the Franklin Mystery to the comic book superheroine Nelvana Glenn Gould's documentaries the paintings of Lawren Harris and Molson beer ads the idea of the north has been central to the Canadian imagination Sherrill Grace argues that Canadians have always used ideas of Canada as North to promote a distinct national identity and national unity In a penultimate chapter The North Writes Back Grace presents newly emerging northern voices and shows how they view the long tradition of representing the North by southern activists artists and scholars With the recent creation of Nunavut increasing concern about northern ecosystems and social challenges and renewed attention to Canada's role as a circumpolar nation Canada and the Idea of North shows that nordicity still plays an urgent and central role in Canada at the start of the twenty first century
