Ptolemy's Maps of Northern Europe Schutte Gudmund,1901 *The World Map, 1300-1492* Evelyn Edson,2007-07-15 A history of the development of world maps during the later medieval period in the centuries leading up to Columbus s journey In the two centuries before Columbus mapmaking was transformed The World Map 1300 1492 investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery A comprehensive and complex picture of the changing face of medieval geography With the mastery of a formidable palette of historiographic knowledge and well reasoned discussions of the sources The World Map 1300 1492 will certainly remain an important work to consult for both medieval and early modern scholars for many years to come Ian J Aebel *Terrae Incognitae* **Handbook for Northern Europe; Including Denmark, Norway, Sweden, Finland, and Russia.
