Weird Tales from Northern Seas Jonas Lie, 2024-02-10

Jonas Lie is sufficiently famous to need but a very few words of introduction Ever since 1870 when he made his reputation by his first novel *Den Fremsynte* he has been a prime favourite with the Scandinavian public and of late years his principal romances have gone the round of Europe He has written novels of all kinds but he excels when he describes the wild seas of Northern Norway and the stern and hardy race of sailors and fishers who seek their fortunes and so often find their graves on those dangerous waters Such tales for instance as *Tremasteren* *Fremtid* *Lodsen* og *hans Hustru* *Gaa Paa* and *Den Fremsynte* are unique of their kind and give far truer pictures of Norwegian life and character in the rough than anything that can be found elsewhere in the literature Indeed Lie's skippers and mates are as superior to Kjelland's for instance as the peasants of Jens Tvedt a writer by the way still unknown beyond his native land are superior to the much vaunted peasants of Bjørnstjerne Bjørnson But it is when Lie tells us some of the wild legends of his native province Nordland some of the grim tales on which he himself was brought up so to speak that he is perhaps most vivid and enthralling The folk lore of those lonely sub arctic tracts is in keeping with the savagery of nature We rarely if ever hear of friendly elves or companionable gnomes there The supernatural beings that haunt those shores and seas are for the most part malignant and malefic They seem to hate man They love to mock his toils and sport with his despair In his very first romance *Den Fremsynte* Lie relates two of these weird tales Nos 1 and 3 of the present selection Another tale in which many of the superstitious beliefs and wild imaginings of the Nordland fishermen are skilfully grouped together to form the background of a charming love story entitled *Finn Blood* I have borrowed from the volume of *Fortællinger* og *Skildringer* published in 1872 The remaining eight stories are selected from the book *Trold* which was the event of the Christmas publishing season at Christiania in 1891 Last Christmas a second series of *Trold* came out but it is distinctly inferior to the former one

distinct subjectivities Contributors to this book address the problem of amnesia regarding this distinct subjectivity of the northern region of Korea in contemporary historical and cultural discourses which have largely been dominated by grand paradigms such as modernization theory the positivist perspective and Marxism Through the use of storytelling linguistic analysis and journal entries from turn of the century missionaries and traveling Russians in addition to many varieties of unconventional primary sources the authors creatively explore unfamiliar terrain while examining the culture identity and regional distinctiveness of the northern region and its people They investigate how the northern part of the Korean peninsula developed and changed historically from the early Choson to the colonial period and come to a consensus regarding the importance of regionalism as a vital factor in historical transformation especially in regard to Korea s tumultuous modern era
