**Nature-based Tourism in Peripheral Areas** Colin Michael Hall, Stephen W. Boyd, 2005-01-01 Nature based Tourism in Peripheral Areas provides a comprehensive examination of this form of tourism development as it occurs within alpine forest sub polar island coastal and marine environments This book goes beyond much of the debate surrounding ecotourism and the impacts of tourism in vulnerable environments to place nature based tourism in a wider regional context particularly when for many peripheral regions tourism remains one of the key opportunities for economic development Therefore a central theme that is present throughout many of the chapters is the role that nature based tourism can play as the catalyst for larger regional development of regions The book will serve as essential reading to senior undergraduate and postgraduate students taking courses in tourism and related degrees where the major focus is on tourism that occurs within peripheral regions It will also serve as a key reference to researchers and professionals interested in the role of tourism as a regional development tool

**Fashion Aesthetics and Ethics** Louise Wallenberg, Andrea Kollnitz, 2023-05-04 How are aesthetics and ethics related to the practical realities of the global fashion industry Both have played an important role in academic fashion studies to this point but they are most often discussed in the context of abstract phenomena such as modernity and capitalism or identity issues such as sexuality class and gender The essays in this volume strive instead to show how the realities of the global fashion industry have important and pertinent aesthetic and ethical consequences This collection provides critical and philosophical analysis of the interplay of aesthetics and ethics within the global fashion industry Characterized by an increasingly fast spinning production the industry is highly exploitative in terms of environment and labor force underpaid textile workers retailers working under brutal competition from the mass merchandise discounters young designers seamstresses and curators often working for free and a vast body of aspiring models In addition fashion related aesthetic ideals are becoming more influential than ever in directing consumers in their social and personal identification processes and bodily practices with sometimes fatal consequences Covering a wide range of subjects such as fashion s highly problematic production and consumption practices the possibility of producing and consuming fashion ethically fashion s intimate connection with nature and technology Fashion Aesthetics and Ethics highlights the powerful aesthetical presence of fashion in relation to its ethical premises and often problematic outcomes

*The Legacy of Ancient Rome in the Russian Silver Age* Anna Frajlich, 2007-01-01 For poets throughout the world Rome was the world This is particularly true for Russian poets owing to the anagrammatical relation of the words Rome and mir Rome and world The legacy of ancient Rome has always constituted an important component of the Russian cultural consciousness The revitalization of classical scholarship in nineteenth century Russia and new approaches to antiquity prompted many of the Russian Symbolists to seek their inspiration in ancient Rome Vladimir Solovyov Dmitry Merezhkovsky Valery Bryusov Vyacheslav Ivanov Maksimilian Voloshin Vasily Komarovsky and Mikhail Kuzmin all made significant contributions to what is

often referred to as the Roman text *The Legacy of Ancient Rome in the Russian Silver Age* analyzes the forms involved in creating the Roman image and explores its functionality within the given poetic system In addition to the formal analysis the background and the stimulus leading up to the composition of a particular poem are explored as well as allusions to legends myths and Rome's geography and architecture Moreover this study considers the function of the Roman text in Russian Symbolist poetics and the works of the individual poets Finally the relation between the Roman and Petersburg texts of Russian literature is explored since many of the Russian Symbolist poets found in Rome a perfect metaphor for their studies of the city and urban poetry

Dagny Mary Kay Norseng, 2018-03-23 A love goddess who was imprisoned and betrayed by love a wife who returned again and again to her childhood home a mother who left her children a writer who preferred silence Dagny Juel Przybyszewska existed in a borderland between myth and reality Born into an upper class Norwegian family in 1867 she died at the age of thirty three estranged from everyone and everything she had known shot by a neurotic young man in a hotel room in Tiflis near the Black Sea He wrote She was not of this world she was far too ethereal for anyone to understand her true nature Dagny Juel was one of four beautiful and talented daughters of a prominent doctor who was attendant physician to the king of Sweden In 1893 she went to Berlin to study piano and soon she became the central figure in an avant garde group of writers painters and patrons of the arts known as *Zum schwarzen Ferkel* The Black Piglet She was painted by Edvard Munch and was the

model for the destructive woman of many of Strindberg's writings. In the Berlin circle she met and married the brilliant mercurial Polish writer Stanislaw Przybyszewski. But Dagny was more than the mysterious and provocative muse of two of the major European cultural centers, Berlin and Krakow. She herself wrote revolutionary plays and poetry and acted as cultural agent for Scandinavian artists on the Continent. During her lifetime her plays and poems were published in Norwegian, Polish, and Czech, and a collection of her plays came out in Norway as recently as 1978. At once an engrossing elegantly narrated biography and a work of meticulous scholarship, Mary Kay Norseng's book is the first full-length study in English to examine Dagny's writings and to explore her relationships. Attempting to sort fact from the sensationalized fiction that has grown up around this remarkable woman, Norseng has consulted all available letters and memoirs of Dagny, her husband, her family, and her acquaintances, as well as Dagny's own writings and the wealth of material written about her. The book resulting from this intensive study will change the way the world has viewed Dagny Przybyszewska, while it provides new insights into the literary and artistic environment of fin de siècle Europe.

*Seasonal Landscapes* Hannes Palang, Helen Sooväli, Anu Printsmann, 2007-05-24 Seasonality is so obvious that it is typically omitted from landscape research. It is expressed both in the natural rhythms of the landscape and in human lifestyles. This book opens new perspectives on how seasons are perceived by people and societies in different parts of the world; it offers interdisciplinary perspectives on seasonality research and discusses its applications to planning.

**The A to Z of Sweden** Irene Scobbie, 2010-05-11 The A to Z of Sweden relates the history of Sweden through a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, appendixes, and hundreds of cross-referenced dictionary entries on significant persons, events, and institutions.

this dictionary *Knut Hamsun* Monika Žagar, 2011-07-01 Awarded the Nobel Prize for Literature in 1920, Knut Hamsun (1859-1952) was a towering figure of Norwegian letters. He was also a Nazi sympathizer and supporter of the German occupation of Norway during the Second World War. In 1943, Hamsun sent his Nobel medal to Third Reich propaganda minister Joseph Goebbels as a token of his admiration and authored a reverential obituary for Hitler in May 1945. For decades, scholars have wrestled with the dichotomy between Hamsun's merits as a writer and his infamous ties to Nazism. In her incisive study of Hamsun, Monika Žagar refuses to separate his political and cultural ideas from an analysis of his highly regarded writing. Her analysis reveals the ways in which messages of racism and sexism appear in plays, fiction, and none too subtle nonfiction produced by a prolific author over the course of his long career. In the process, Žagar illuminates Norway's changing social relations and long history of interaction with other peoples. Focusing on selected masterpieces as well as writings hitherto largely ignored, Žagar demonstrates that Hamsun did not arrive at his notions of race and gender late in life. Rather, his ideas were rooted in a mindset that idealized Norwegian rural life, embraced racial hierarchy, and tightly defined the acceptable notion of women in society. Making the case that Hamsun's support of Nazi political ideals was a natural outgrowth of his reactionary aversion to modernity, Knut Hamsun serves as a corrective to scholarship treating Hamsun's Nazi ties as
