Native Intoxicants of North America Sean Rafferty, 2023-08-18 Though scholarship on intoxicants in regions like Asia Africa Mesoamerica and South America is plentiful *Native Intoxicants of North America* represents the first foray into a study of prehistoric intoxicants throughout North America specifically In this study Sean Rafferty fills significant gaps in existing research with a focus on native cultures of North America and holistic coverage of intoxicants by type Importantly Rafferty

anchors his investigation in an easily overlooked question why did early humans use intoxicants in the first place Rafferty begins by discussing the origins of intoxicants and their role in rituals medicine and recreation Subsequent chapters turn to specific intoxicants hallucinogens stimulants alcohol and tobacco making ample use of illustrations across disciplines weaving a tapestry of culture ritual medicine botany artifact and history All the while Rafferty explores the societal significance of narcotics stimulants and hallucinogens on prehistoric North American cultures While Native Intoxicants of North America focuses specifically on Native cultures the author s analysis provides the foundation for a valuable broader discussion that in a world where few human behaviors are universal experiencing altered states of consciousness is one that transcends culture and time *International Handbook on Alcohol and Culture* Dwight B. Heath,1995-09-30 The first authoritative guide to how the world drinks this reference details alcohol use in different countries and cultures Variation is striking with alcohol sometimes a food a sacrament a symbol a tool a tranquilizer a medicine a love potion or an object of scorn often with very different meanings and uses in a single country This volume reveals multicultural and ethnic beliefs practices and attitudes about drinking around the world An extensive introduction discusses the close link between alcohol and culture and provides a foundation for the rest of the book Each of the following chapters is written by an expert contributor and discusses alcohol and culture in a particular country Chapters discuss historical trends drinking among ethnic and religious minorities national policies and social outcomes Countries range from industrial nations known for their alcohol research to developing nations and to places famous for drinking A concluding chapter highlights important similarities and differences Northern Spirits Reginald George Smart,Alan Charles Ogborne,1986-01-01 **The Real Dope** Ed Montigny,2011-05-30 Recent debate around the potential decriminalization of marijuana along with a growing perception that illicit drug use is on the rise has brought the role of the state in controlling intoxication to the forefront of public discussion Until now however there has been little scholarly consideration of the legal and social regulation of drug use in Canada In *The Real Dope* Edgar Andre Montigny brings together leading scholars from a diverse range of fields including history law political science criminology and psychology to examine the relationship between moral judgment and legal regulation Highlights of this collection include rare glimpses into how LSD cocaine and ecstasy have historically been treated by authority figures Other topics explored range from anti smoking campaigns and addiction treatment to the relationship between ethnicity and liquor control Readers will find intriguing links across arguments and disciplines providing a much needed foundation for meaningful discussion *Dealing with Alcohol* Sherry Saggars,Dennis Gray,1998-11-02 The devastating impact of alcohol on indigenous populations is well known but debate often overlooks the broad context of the problem and the priorities of indigenous people themselves This book was written with the desire to improve the level of informed debate and lead to constructive action It aims to provide readers with a coherent explanation of alcohol misuse among indigenous peoples in Australia New Zealand and Canada The extensive health economic social and

cultural consequences of misuse are described in the words of the indigenous people themselves The book found that patterns of indigenous alcohol consumption could not be understood in isolation from the impact of European colonialism and its continuing consequences Its authors argue that our understanding of alcohol misuse needs to be reconceptualised and structural inequalities addressed **The Social History of Alcohol Review** ,1992 **You Had to Be There** Robert Collins,2012-11-13 They gained their maturity in an age of monumental and unprecedented change from horse and buggy Model T Ford and crank telephone to moonwalks space shuttles and the Internet They are better educated more affluent more vigorous and longer lived than any generation before them yet obstinately cling to a forthright simplicity no generation is likely to regain They are proudly old fashioned in their outlook hardworking and frugal in their ways They are the last enthusiastic patriots the last to accept authority with respect They are the last generation to have reached adulthood without television credit cards computers or the Pill Their younger critics may call them old fogies Robert Collins calls them Generation M for mature In *You Had to Be There* Robert Collins gives us the entire history of this extraordinary and hugely influential generation Through this fascinating story he weaves the voices of Canadians from across the country who speak with humour regret and passion about the hardships and triumphs of their lives and about the widening gap between themselves and the rest of Canada Generation gaps are as old as humankind but rarely has there been as much misunderstanding and veiled animosity as there is between young and old today Robert Collins accounts for the prejudices pokes fun at the rivalries and with humour and sympathy invites younger Canadians to re examine their parents or grandparents lives and consider maybe for the first time the true proportion of their legacy *In Mixed Company* Julia Roberts,2009-07-01 *In Mixed Company* explores taverns as colonial public space and how men and women of diverse backgrounds Native and newcomer privileged and labouring white and non white negotiated a place for themselves within them The stories that emerge unsettle comfortable certainties about who belonged where in colonial society Colonial taverns were places where labourers enjoyed libations with wealthy Aboriginal traders like Captain Thomas who also treated a Scotsman to a small bowl of punch where white soldiers rubbed shoulders with black colonists out to celebrate Emancipation Day where English ladies and their small children sought refuge for a night The records of the past tell stories of time spent in mixed company but also of the myriad unequal ways that colonists found room in taverns and a place in Upper Canadian culture and society Reconstructed from tavern keepers accounts court records diaries travelogues and letters *In Mixed Company* is essential reading for tavern aficionados and anyone interested in the history of gender race and culture in Canadian or colonial society *Alcohol Health and Research World* ,1993 *Harm Reduction* Patricia G. Erickson,Diane M. Riley,Yuet W. Cheung,Pat A. O'Hare,1997-12-15 Since the First International Conference on the Reduction of Drug Related Harm held in 1990 the term harm reduction has gained wide currency in the areas of public health and drug policy Previously the field was characterized by heated struggle between prohibition and legalization of addictive substances and

this debate tended to obscure practical collective approaches Harm reduction an approach which encompasses various policy directives and program initiatives was inspired by the positive outcomes of such public measures as needle exchange programs for reduction of HIV risk methadone maintenance programs education on the risks of tobacco use and programs designed to limit alcohol consumption The essays in this book illustrate the scope and vigour of the emerging harm reduction model The essays drawn from seven international conferences on harm reduction cover a wide variety of topics including public policy women and reproductive issues the experiences of special populations human rights defining and measuring harm and intervention Researchers and practitioners will benefit from the varied papers in the volume which combine insights into policy making and front line outreach efforts with comprehensive conceptual and empirical approaches Harm Reduction represents an important initiative in making academic work accessible and useful to a larger community and provides guidance for the development of effective policies and programs **Cure, Care, or Control** Harald
