Abstracts of North American Geology ,1969 **The Price of Gold** John Sandlos, Arn Keeling, 2025-10-16 Fifty years of gold mining at Yellowknife in the Northwest Territories spurred northern settlement and produced millions of dollars in profits But mineral processing also had catastrophic environmental effects and left a troubled legacy When two mining companies in Yellowknife began processing gold ore in the 1940s they did so with little or no pollution controls Giant Mine spewed thousands of kilograms of arsenic trioxide from its roaster stack into the environment causing illness and death among people and animals especially in the adjacent Yellowknives Dene community Even after the companies installed controls arsenic trioxide continued to enter the atmosphere and waterways Eventually Giant Mine the biggest polluter would deposit the arsenic dust beneath the mine leaving 237 000 tonnes of highly toxic material buried underground For decades the mining companies and the federal government hid the worst effects of the pollution doubted their own studies and resisted calls for action Yet the Yellowknives Dene fought back with the support of labour unions and environmental groups questioning the safety of the air and water in their community and the massive toxic deposit underground The Price of Gold traces the troubling history of one of Canada s most contaminated sites but also the inspiring story of Indigenous labour and environmental activists who resisted the ongoing poisoning of their communities **Arctic Bibliography** Arctic Institute of North America, 1953 House of Commons Debates, Official Report Canada. relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education *Geological Survey of Canada, Current Research (Online) no. 2007-A7* , **Taking the Bite out of Rabies** David Gregory,Rowland Tinline,2020-07-02 Taking the Bite out of Rabies records the evolution of rabies management and control in Canada **Atlas of Chrysophyceean Cysts** A.N.
