Handbook of Medieval Culture. Volume 3 Albrecht Classen, 2015-08-31. A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly, our understanding of medieval culture of the basic living conditions and the specific value system prevalent at that time has considerably expanded to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship, and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads, and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

Heaven and Hell Louis Markos, 2013-05-17. For thousands of years, philosophers, theologians, and poets have tried to pierce through the veil of death to gaze with wonder, fear, and awe on the final and eternal state of the soul. Indeed, the four great epic poets of the Western tradition—Homer, Virgil, Dante, and Milton—structured their epics in part around a descent into the underworld that is both spiritual and physical, both allegorical and geographical. This book not only considers closely these epic journeys to the other side but explores the chain of influences that connects the poets to such writers as Plato, Cicero, St. John, St. Paul, Bunyan, Blake, and C. S. Lewis. Written in a narrative, man-of-letters style and complete with an annotated bibliography, a timeline, a who's who, and an extensive glossary of Jewish, Christian, and mythological terms, this user-friendly book will help readers understand how heaven and hell have been depicted for the last 3 000 years.

Keats and Negative Capability Li Ou, 2009-08-06 Negative capability the term John Keats used only once in a letter to his brothers is a well known but surprisingly unexplored concept in literary criticism and aesthetics. This book is the first book length study of this central concept in seventy years. As well as clarifying the meaning of the term and giving an anatomy of its key components the book gives a full account of the history of this idea. It traces the narrative of how the phrase first became known and gradually gained currency and explores its primary sources in earlier writers principally Shakespeare and William Hazlitt and its chief Modernist successors W B Yeats and T S Eliot. Meanwhile the term is also applied to Keats's own poetry which manifests the evolution of the idea in Keats's poetic practice. Many of the comparative readings of the relevant texts including King Lear illuminate the interconnections between these major writers. The book is an original and significant piece of scholarship on this celebrated concept.

A New Book of the Grotesques Robert Dunne, 2005 Sherwood Anderson remembered chiefly as a writer of short stories about life in the Midwest at the turn of the century was acknowledged as an innovator of the short story form. This book looks at Anderson's early fiction from contemporary interpretative methodologies particularly from poststructuralist approaches.

The Year's Best Science Fiction: Eighth Annual Collection Gardner Dozois, 1991-06-15 This edition of The Year's Best Science Fiction collects twenty five of the finest works of speculative fiction to see print in 1990 stories from the genre's every edge and from its heart. Among the many marvels are tales from the field's most accomplished artists Ursula K Le Guin's The Shobies Story returns to the Hainish worlds with a reality defining story while Joe Haldeman's The Hemmingway Hoax embarks from our world on a time defying trip through other possibilities. Kate Wilhelm Michael Moorcock Robert Silverberg and John Brunner demonstrate too with their stories why they remain among the most popular science fiction writers of all time. With the closing of a decade and cyberpunk virtually becoming reality many of the leading writers of the eighties have begun to bring new insight and vision to their fiction. Bruce Sterling examines a classic clash of cultures in We See Things Differently and James Patrick Kelly's Mr Boy presents a hard edged story about the guts of growing up. Lewis Shiner's White City and Connie Willis's Cibola both seek peace of sorts amid spectacle and works by Nancy Kress Lucius Shepard and Robert Frazier Pat Murphy and John Kessel also dazzle and amaze. Among the many other stories in this volume are powerhouse piece by Terry
