International Monetary Fund. European Dept.,2016-07-05 This paper discusses the oil economy outlook and risk for Norway
Growth has continued to slow in the mainland economy At the start of this year oil prices had dropped by roughly 60 percent
from their peak in June 2014 to less than US 40 a barrel The labor market is feeling the sting of the oil price crash The krone
has weakened substantially along with the decline in oil prices However a modest recovery should take root next year
Mainland economy growth should be about 1 percent this year and pick up to close to 13 4 percent in 2017 Exploring
Norway's Fertility, Work, and Family Policy Trends OECD,2023-06-20 Like other Nordic countries Norway has been investing
heavily in family policy to enable combining work and family life Nevertheless between 2009 and 2022 the Total Fertility

Communities and Urban Housing Montserrat Pareja-Eastaway,Nessa Winston,2016-12-08 Since the start of the twenty
first century urban communities have faced increasing challenges in housing affordability with environmental issues causing
additional concern It is clear that changes to urban housing are needed to enhance the resilience of cities and improve the
economic social and physical well being of residents This book provides a comparative cross national perspective on urban
housing and sustainability in Europe exploring the key barriers and drivers associated with sustainable urban development
and community regeneration Country specific chapters allow for easy comparison with each summarizing how sustainable
housing operates in the country in question before going on to discuss the key barriers and drivers at play This book brings a
sustainability perspective to the comparative housing literature which frequently fails to integrate the social economic and
environmental pillars of sustainability The book outlines many of the changes that professionals and residents will need to
make to their practices and cultures in order to enhance housing resilience Students researchers and professionals with an
interest in sustainable housing creation and regeneration will find this book an invaluable reference Land Policies in
Europe Thomas Hartmann,Andreas Hengstermann,Mathias Jehling,Arthur Schindelegger,Fabian Wenner,2025-03-02 Land is
a scarce resource How can conflicting claims to land be reconciled How can more housing be provided and at the same time
the ecological goal of reducing land take be met In many European countries land use planning is facing increasing and
oftentimes contradictory challenges This forms a land question which requires land policies that can deal with the fraught
relationship between planning and private property rights A legislative reflex is to adapt planning laws Oftentimes such
changes lack a deeper reflection of land policy and its implications Especially an international comparison can foster a
structured reflection of the own land policy This thought provoking book compiles a remarkable collection of 12 cases
unveiling how land policies work Curated by leading experts in the field it takes the reader on a journey through the

multifaceted realm of land policies across the continent This book offers valuable insights into the complex interplay between land use and property rights Land Policies in Europe isn't just a book it's a conversation starter equally relevant for experienced academics or young students policymakers and practitioners This is an open access book *Housing in the European Countryside* Nick Gallent, Mark Shucksmith, Mark Tewdwr-Jones, 2003-12-08 This book reviews international experience of housing pressure in rural areas in a number of countries
