Norwegian Maritime Explorers And Expeditions Over The Past Thousand Years:

Norwegian Maritime Explorers and Expeditions Over the Past Thousand Years Øystein Johansen, 1999 Norwegian maritime explorers and expeditions take you on the greatest journeys of discovery over a thousand years Throughout Norwegian history the sea has been the most important highway used by Norwegians in their travels along our almost 2000 kilometre long coast or to more distant destinations Some explorers set off in search of new territories for commercial reasons like Viking Ottar around the year 890 A D and Leif Eiriksson in 999 A D Jens Munk in 1619 or Carl Anton Larsen and Otto Sverdrup in the twentieth century Others like Fridtjof Nansen and Roald Amundsen had a burning desire to explore new countries and realize personal ambitions or like Thor Heyerdahl they have wanted to prove a theory about ancient vessels and their ability to cross oceans All these explorers have one key characteristic in common they look upon the sea as a natural element to be mastered but not conquered They conducted their expeditions on nature's own terms in spite of the risks involved The chapters of this book tell stories of daring courage stubborn endurance and scientific curiosity and the drama and tension derive not only from the explorers struggle with the forces of nature but also from the outstanding personalities of the men who made these journeys Publisher's description [The A to Z of Norway](#) Jan Sjøvik, 2010-05-11 One of the smallest countries in Europe Norway has created for itself a position in the world community which is completely out of proportion to the size of its population Originally the home of sub Arctic hunters and gatherers then of ferocious Vikings it lost perhaps half of its population to the Black Death in 1349 ended up in a union with Denmark that lasted until 1814 and then became united with Sweden gaining complete independence only as recently as 1905 Over the centuries the Norwegians eked out a meager living from stony fields and treacherous seas while suffering through hunger darkness and cold however its recent productive use of such natural resources as hydroelectric power natural gas and oil has made the Norwegians some of the richest people in the world The A to Z of Norway supplies a wealth of information that illuminates Norway's remarkable history society and culture This is done through a chronology a bibliography an introductory essay appendixes and over 250 cross referenced dictionary entries covering events and individuals of historical political social and cultural significance Both past and present political parties are discussed major economic sectors are described and basic economic facts are provided Several entries describe the history and attractions of major Norwegian cities and Norway's role in the international community is detailed as well providing a full portrait of this vibrant country **Historical Dictionary of Norway** Terje Leiren, Jan Sjøvik, 2019-10-08 Norway has a thousand year history from the Vikings 750 1100 to modern times Historically a poor country on Europe's periphery its natural resources and hardy people have established a successful modern welfare state Norway has exploited its natural resources of fish water oil and gas to become one of Europe's most successful small states This second edition of I contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations

religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Norway Dutch Light in the "Norwegian Night" Louis Sicking, Harry de Bles, Erlend des Bouvrie, 2004 The Rise of Little Big Norway John F. L. Ross, 2019-11-30 The Rise of Little Big Norway explores the unlikely rise of Norway from peripherality to today's global steward with an enviable work life balance influential oil fund and Arctic front row seat Drawing on wide ranging source material John Ross's original approach combines astute observation thoughtful analysis and a flowing essay style leavened with the comparative insight that only a seasoned observer of the region can bring The book examines the settings histories and niche elements that lend Norway its distinctiveness and differentiate it from its Nordic neighbors It gives special attention to the northern and Arctic dimensions of Norwegian life and elaborates a connecting thematic thread the mobility that once took Vikings across the Atlantic in open boats and makes today's Norwegians the most traveled people on the planet The result is a carefully crafted general study of Norway a country long overlooked in favor of its Nordic neighbors but now a quiet force in its own right and a touchstone for twenty first century issues ranging from identity politics to the Arctic melt This book fills a major gap in the literature on Norway and the Nordic region Prospects for Polar Tourism John Snyder, Bernard Stonehouse, 2007 This book examines polar tourism in its environmental economic and cultural settings and explores the potential for growth as well as essential management for sustainability It has 17 chapters organized in 4 parts under the following headings i tourism and the polar environment ii economic roles of polar tourism iii developments in Antarctic tourism and iv managing the new realities The book will appeal to researchers in tourism ecology and environmental studies and to those involved in developing sustainable polar tourism It has a subject index Report on Norwegian Fishery and Marine Investigations, 1909 A Marine's Odyssey Larry Ritchie Williams, 2017-11-23 Colonel Larry Williams spent twenty seven years in the United States Marine Corps commanding ten units and organizations while serving from Japan and Vietnam to Moscow and Beirut Here is his account It started by a chance discovery and years later was dramatically reoriented by a coin toss As the high school class of 1953 anticipated graduation they chatted in the hallways exchanging ideas about future plans His afternoon and Saturday jobs during high school did not provide enough money for college One day while changing classes he observed a booklet on his homeroom teacher's desk that described the NROTC as how one might earn a commission in the United States Navy and even compete for a college scholarship It contained an application Upon graduation from the University of North Carolina at Chapel Hill four years later he was commissioned a second lieutenant in the Marine Corps preparing to serve the obligated four years payback for his free education It seemed like a good plan but life often has little respect for planning Within three years he was on Okinawa separated from his wife and their two newborns for a thirteen month deployment On his return he joined the faculty at the Army Artillery and Missile School Then it was another thirteen months away this time in Vietnam Reassigned to Frankfurt Germany he commanded Marine Security Guards in twenty seven diplomatic posts in Europe including six behind the Iron Curtain Upon graduation

from the Armed Forces Staff College in Norfolk he and a classmate were informed by Headquarters Marine Corps that they both were to be reassigned to WestPac western pacific for a year with one going to Okinawa and the other to Vietnam Headquarters asked for their preferences Both wanted to return to Vietnam He lost the coin toss and it was back to Okinawa That coin toss was to significantly restructure his career and his life The subsequent years included managing the security at the Naval Air Station Alameda California made turbulent by the prevailing civil rights and antiwar environment contributing to the Marine Corps becoming the only military service to support every dollar spent with explicit cost benefit analysis in spite of opposition by the Army and the DoD fielding a totally new light armor combat capability into the Marine Corps with an innovative acquisition program completing within budget and only 2 25 years from concept to production conducting Arctic exercises in North Norway including a night amphibious landing unseen by Russians just a mountain range away in Murmansk commanding the largest artillery organization in the world and trying unsuccessfully to contribute to a peaceful resolution to conflict in Lebanon in 1983

The Greatest Show in the Arctic P. J. Capelotti,2016-05-06 In Gilded Age America Arctic explorers were fabulous celebrities assured of riches and near immortality so long as they reached the North Pole first Of the many attempts to meet that goal three American expeditions launched from the Russian archipelago of Franz Josef Land ended in abject failure their exploits consigned to near oblivion Even so these ventures the Wellman expedition 1898 99 the Baldwin Ziegler 1901 2 and the Fiala Ziegler 1903 5 have much to tell us about the personalities politics and economics

of exploration in their day In *The Greatest Show in the Arctic* the first book to chronicle all three expeditions P J Capelotti explores what went right and what in the end went tragically wrong The cast of colorful characters from the Franz Josef Land forays included Walter Wellman a Chicago journalist and bon vivant running from debts his mistress and an illegitimate daughter Evelyn Briggs Baldwin a deranged meteorologist with a fetish for balloons and a passion for Swedish conserves and Anthony Fiala a pious photographer in search of God in the Arctic Featuring an international cast of supporting characters worthy of a three ring circus *The Greatest Show in the Arctic* follows each of the three expeditions in turn from spectacular feats of financing to their bitter ends Along the way the explorers accumulated considerable geographic knowledge and left a legacy of place names Through close study of the expeditions journals Capelotti reveals that the Franz Josef Land endeavors foundered chiefly because of poor leadership and internal friction not for lack of funding as historians have previously suspected Presenting tales of noble intentions novel inventions and epic miscalculations *The Greatest Show in the Arctic* brings fresh life to a unique and underappreciated story of American exploration

Sabotage in the Arctic Stewart B. Nelson, 2007-08-28 The story of Australian born Sir Hubert Wilkins and the Nautilus is usually a brief footnote if mentioned at all of Arctic exploration history However it is a tale of daring enterprise and of men captivated by the pursuit of noble deeds Having leased and extensively modified a decommissioned vintage World War I U S Navy submarine the Wilkins Ellsworth Trans Arctic Submarine Expedition of 1931 was marked by controversy from its inception Many considered it a huge publicity stunt especially the planned rendezvous at the North Pole with the German airship Graf Zeppelin The Nautilus did make it into the Arctic but suspected sabotage ended Sir Hubert's quest to be the first to use a submarine to cross the Arctic Ocean by way of the North Pole An oceanographer historian and author Dr Nelson is a Fellow of the Marine Technology Society a member of the Explorers Club and the former president of the American Oceanic Organization
