American studies in the scholarly sense are old in Europe But academic chairs and research institutions were late in developing as they were in the United States themselves In most European universities the subject was firmly established only after the Second World War The University of Oslo in Norway in 1946 founded a full professorship of American literature the first of its kind in Scandinavia and in 1948 an American Institute In the following year the Institute started a series of book publications in cooperation with the University of Pennsylvania This is the second of two volumes titled Americana Norvegica **Norwegian American Studies** Knut Gjerset, Ludvig Hektoen, 1926-02-04 *The Legacy of Rosa Luxemburg, Oskar Lange and Michał Kalecki* R. Bellofiore, E. Karwowski, J. Toporowski, 2013-12-13 Rosa Luxemburg Oskar Lange and Michał Kalecki made important contributions to twentieth century political economy that guided the thinking of their student Tadeusz Kowalik These contributions are re examined by renowned economists highlighting the common themes in their political economy and the neglected aspects of their work Polish American History after 1939 Joanna Wojdon, 2024-06-03 This book is the second in a three part multi authored study of Polish American history which aims to present the history of Polish Americans in the United States from the beginning of Polish presence on the continent to the current times shown against a broad historical background of developments in Poland the United States and other locations of the Polish Diaspora According to the 2010 US Census there are 9 5 million persons who identify themselves as Polish Americans in the United States making them the eighth largest ethnic group in the country today Polish Americans or Polonia for short has always been one of the largest immigrant and ethnic groups and the largest Slavic group in America Despite that common knowledge about its social and political life culture and economy is still inadequate in Academia and among the Polish Americans themselves The book discusses the major themes in Polish American history such as organizational life and the structure of the community facing subsequent waves of immigration from Poland its leadership and political involvement in Polish and American affairs as well as living and working conditions and the everyday life of families and communities

their culture ethnic identity and relations with the broadly understood American society starting from the outbreak of World War 2 in Poland in September 1939 and ending with the highlights of the 21st century developments It depicts Polish Americans transition from a minority through ethnic group to Americans who take pride in their symbolic ethnicity maintained intentionally and manifested occasionally This volume will be of great value to students and scholars alike interested in Polish and American History and Social and Cultural History **Catalog of Museum Publications & Media** Paul Wasserman, Esther Herman, **State, Church and Laity in Norwegian Society** John T. Shaw, 1974 **Global Eurolinguistics** P. Sture Ureland, 2001 Focus is on the world wide phenomenon of linguistic migration to North America Most treatments of linguistic transfer of European languages to the North American Continent have so far been written within a narrow national philological framework for each language emigrated although there are great similarities in the overall history of the migrating languages both from a micro linguistic and macro linguistic point of view Formal linguistic phenomena such as for instance borrowing mixing and code switching occur everywhere in a similar typology of interference and transference which is exemplified in every article of this book Also the socioethnic development of most north western European languages in North America demonstrate the same pattern cultural convergence and loss of distinct ethnic markers in the course of time and change of generations under concomitant loss of the Old World languages This lack of globality in dealing with the languages emigrated to North America is due to one sided training in linguistics and is to be seen as an outcome of national upbringing not only in the national philologies but also the nationally centred type of structural and generative linguistics American Studies in Scandinavia ,2005
