The Qur'an, Translation and the Media Ahmed S. Elimam, Alysia S. Fletcher, 2021-08-19 This book aims to identify how the Qur'an is narrated in and by the press media through the use of translation featuring examples from a corpus of newspaper articles from the UK and Europe across two decades Drawing on work at the intersection of narrative theory and translation studies the volume highlights the ways in

which press media play an integral role in the construction promotion and circulation of narratives about events and communities shedding light specifically on translations of Qur'anic verses across British Italian and Spanish newspapers between 2001 and 2019. Elima and Fletcher examine how such translations have been used to create and disseminate narratives about the Qur'an and in turn Islam and Muslims unpacking the kinds of narratives evoked personal public conceptual and meta narratives and narrative strategies employed selective appropriation temporality causal employment and relationality toward framing readers understanding of the Qur'an. The book will be of particular interest to scholars working at the intersection of translation studies and such areas as media studies religion politics and sociology.

Afganistán: una república del silencio A. K., 2021-05-10. El relato que nadie se atreve a contar la historia de los hazaras un pueblo sin tierra al que se niegan sus derechos. Afganistán es una república en la que habitan diferentes etnias y cuyo pasado y presente es sinónimo de guerra y genocidio. Pese a ello en su sociedad reina una hipocresía que lo ensalza y dulcifica y que ha ahogado en un mar de mentiras y silencios las voces de los hazaras una minoría descendiente de los antiguos mongoles de lengua persa y religión musulmana. Qui que sufrió en 1890 un genocidio en el que el 62 por 100 de su población fue exterminada por los pastunes. Renunciando a las convenciones de géneros literarios como la autobiografía o las memorias y siguiendo las reglas del relato oral este libro ofrece a través de los ojos de quien ha crecido superando obstáculos y sufriendo en sus carnes la discriminación étnica y el sofocante ambiente religioso y feudal un recorrido por el periplo vital de A. K. Gracias a él el lector podrá observar por primera vez la vida en el interior de las madrasas las escuelas religiosas musulmanas y conocer sus reglas sus privilegios y sus jerarquías. Un alegato a favor de los derechos humanos la dignidad y la igualdad entre hombres y mujeres de la libertad y del valor de la educación laica y también una crítica sincera sin exabruptos sin odio a la corrupción el fanatismo y la pobreza. El testimonio de este estudiante y profesor afgano no sólo nos transporta a una compleja y difícil infancia y adultez llenas de sentimientos encontrados carencias materiales y dominio pastoral sino que nos relata el devenir colectivo de aquellos condenados al mutismo. Uno de ellos ha decidido acabar con ello. Y ello es un acto necesario valiente en un país en el que escribir conlleva peligros para la propia vida.

Raíces de Sentido Rafael Echeverría, 2021-10-28. Si deseamos comprender cómo somos y la manera como encaramos la vida es imprescindible mirar al pasado y conectarnos con nuestras raíces históricas. Somos el producto de una larga historia en donde confluyen múltiples corrientes culturales. Las que recogemos en este libro no son obviamente todas. Pero sí creemos que son las más importantes. Profundizar en ellas nos permite no sólo entendernos mejor sino también retomar contacto con aspectos que marcaron nuestra historia y que pudieran sernos muy útiles para sortear el futuro que hoy encaramos. Siempre hemos reconocido que el ser occidental se ha nutrido de dos grandes tradiciones por un lado aquella que viene del mundo greco romano y por otro la que recibimos del mundo judeo

cristiano Lo que no siempre reconocemos es que esas dos tradiciones reciben una importante influencia del mundo cultural egipcio que se desarrollara mucho antes El papel de Egipto en los textos judíos por tomar una de estas tradiciones tiende a reducirse al período asociado con el trauma de la esclavitud Como apreciar el lector nosotros levantaremos una hipótesis alternativa y exploraremos la idea de que la tradición judeo cristiana podría ser heredera de corrientes que nacen en el Egipto antiguo Interculturalidad, formación del profesorado y educación ,2005 El libro aporta modelos múltiples y experiencias que ayudan a comprender y a analizar la formación de profesionales que laboran en espacios amplios de la sociedad multicultural
