Jordan, 2021-10-21

Maurice Duke and Daniel P Jordan vividly describe the colorful life and times of one of the South s and America s most important businesses and provide insight into how luck management practices and personalities helped the company rise to international prominence Universal Leaf Tobacco Company the world s largest independent leaf tobacco dealer is one of the major buying arms for tobacco manufacturers worldwide selecting purchasing processing and storing leaf tobacco The story opens during the aftermath of the Civil War when Southerners realized once again the worldwide potential of their native crop The authors follow the company from its incorporation 1918 through one of the first hostile takeover attempts in American business to its evolution in 1993 into Universal Corporation a worldwide conglomerate with a number of products including tobacco Based on scholarly research and over two hundred interviews with past and present Universal employees this objective saga reveals much about American business and economic history History of Frederick the Second of Prussia, Called Frederick the Great (Complete) Various Authors, On the southern coasts of the Baltic Sea between the latitudes of 52 and 54 there lies a country which was first revealed to civilized eyes about three hundred years before the birth of Christ The trading adventurers from Marseilles who landed at various points upon the coast found it a cold savage region of lakes forests marshy jungles and sandy wastes A shaggy tribe peopled it of semi barbarians almost as wild as the bears wolves and swine which roamed their forests As the centuries rolled on centuries of which in these remote regions history takes no note but in which the gloomy generations came and went shouting fighting weeping dying gradually the aspect of a rude civilization spread over those dreary solitudes The savage inhabitants somewhat tamed increased in numbers and there appeared a tall and manly race of fair complexion light hair stern aspect great physical strength and very formidable in battle Still centuries elapsed leaving little for history to record but war and woe Fierce tribes swept in all directions Battle was life s great business Man ignorant degraded brutal could have had but few if any joys Perhaps through his degradation his woes were only such as beasts feel By degrees from this chaos a certain kind of governmental order

emerged Small tribes became united under powerful chieftains Kings arose There were all varieties of political organizations dukedoms principalities marquisates and electorates It is recorded that Adalbert bishop of Prag about the year 997 with two companions as apostles of Christianity first penetrated these wilds Like Christian heroes they went with staff and scrip regardless of danger The bishop was fifty years of age and his gray hairs floated in the breeze As he landed a stout savage struck him with the flat of his oar and sent him headlong to the ground The zealous bishop perhaps not unwilling to secure the crown of martyrdom pressed on preaching the Gospel in face of prohibitions and menaces until he entered one of the sacred inclosures which was a sanctuary of the idols of these heathen The priests rushed upon him endeavored to drive him out and struck him with a dagger in the back of his neck He uttered but one cry Jesus receive me and stretching out his arms fell with his face to the ground and lay dead there in the form of a crucifix The place is yet pointed out where Adalbert fell Still the seeds of Christianity were sown Other missionaries followed Idolatry disappeared and the realm became nominally Christian Revealed religion introduced increased enlightenment and culture though there still remained much of the savagery of ancient days When the Reformation in the sixteenth century was presented to Europe and was rejected by Italy France Austria and Spain it was accepted though not unanimously yet very generally by the inhabitants of this wild region In the year 1700 there was in the midst of the realm of which we are about to write and which is now called Prussia a province then known as the Marquisate of Brandenburg It embraced a little over fifteen thousand square miles being about twice as large as the State of Massachusetts It was one of the electorates of Germany and the elector or marquis Frederick belonged to the renowned family of Hohenzollern To the east of Brandenburg there was a duchy called Prussia This duchy in some of the political agitations of the times had been transferred to the Marquis of Brandenburg The Elector of Brandenburg Frederick an ambitious man rejoicing in the extent of his domain which was large for a marquisate though small for a monarchy obtained from the Emperor of Germany its recognition as a kingdom and assumed the title of Frederick I of Prussia Many of the proud monarchies of Europe did not conceal the contempt with which they regarded this petty kingdom They received the elector into their society very much as haughty nobles proud of a long line of illustrious ancestry would receive a successful merchant who had purchased a title Frederick himself was greatly elated with the honor he had attained and his subjects shared with him in his exultation
