Women Writers of the Renaissance and Reformation Katharina M. Wilson, 1987 The dawn of humanism in the Renaissance presented privileged women with great opportunities for personal and intellectual growth Sexual and social roles still determined the extent to which a woman could pursue education and intellectual accomplishment but it was possible through the composition of poetry or prose to temporarily offset hierarchies of gender to become equal to men in the act of creation Edited by Katharina M Wilson this anthology introduces the works of twenty five women writers of the Renaissance and Reformation among them Marie Denti re a Swiss evangelical reformer whose writings were so successful they were banned during her lifetime Gaspara Stampa a cultivated courtesan of Venetian aristocratic circles who wrote lyric poetry that has earned her comparisons to Michelangelo and Tasso H lisenne de Crenne a French aristocrat who embodied the true spirit of the Renaissance feminist writing both as novelist and as champion of her sex Helene Kottanner Austrian chambermaid to Queen Elizabeth of Hungary whose memoirs recall her daring theft of the Holy Crown of Saint Stephen for her esteemed mistress and Lady Mary Sidney Wroth the first Englishwoman known to write a full length work of fiction and compose a significant body of secular poetry Offering a seldom seen counterpoint to literature written by men Women Writers of the Renaissance and Reformation presents prose and poetry that have never before appeared in English as well as writings that have rarely been available to the nonspecialist The women whose writings are included here are united by a keen awareness of the social limitations placed upon their creative potential of the strained relationship between their gender and their work This concern invests their writings with a distinctive voice one that carries the echoes of a male aesthetic while boldly declaring battle against it

The Hidden History of Women's Ordination Gary Macy, 2012-11-29 The Roman Catholic leadership still refuses to ordain women officially or even to recognize that women are capable of ordination But is the widely held assumption that women have always been excluded from such roles historically accurate How might the current debate change if our view of the history of women s ordination were to change In The Hidden History of Women s Ordination Gary Macy argues that for the first twelve hundred years of Christianity women were in fact ordained into various roles in the church He uncovers references to the ordination of women in papal episcopal and theological documents of the time and the rites for these ordinations have survived The insistence among scholars that women were not ordained Macy shows is based on a later definition of ordination one that would have been unknown in the early Middle Ages

Feminist Interpretations of Augustine Judith Chelius Stark, 2007 Since the establishment of Christianity in the West as a major religious tradition Augustine 354-430 CE has been considered a principal architect of the ways philosophy can be used for reasoning about faith In particular Augustine effected the joining of Platonism with Christian belief for the Middle Ages and beyond The results of his enterprise continue to be felt especially with regard to the contested topics of human embodiment sexuality and the nature and roles of women As a result few thinkers have been as problematic for feminists as he has been He is the thinker that a number of feminists love to hate What do feminist thinkers make of this problematic legacy These lively essays address that question and provide thoughtful arguments for the value of engaging Augustine's ideas and texts anew by using the well established methodologies that feminists have developed over the last thirty years Augustine and his legacy have much to answer for but these essays show that the body of his work also has much to offer as feminists explore challenge and reframe his thinking while forging new paradigms for construing gender power and notions of divinity

European Feminisms, 1700-1950 Karen M. Offen, 2000 This ambitious book explores challenges to male hegemony throughout continental Europe over the past 250 years For general readers and those interested primarily in the historical record it provides a comprehensive comparative account of feminist developments in European societies as well as a rereading of European history from a feminist perspective By placing gender or relations between women and men at the center of European politics it aims to reconfigure our understanding of the European past and to make visible a long but neglected tradition of feminist thought and politics On another level the book seeks to disentangle some misperceptions and to demystify some confusing contemporary debates about the Enlightenment reason nature and public vs private equality vs difference In the process the author aims to show that gender is not merely a useful category of analysis but that sexual difference lies at the heart of human thought and politics

The Unknown History of Jewish Women Through the Ages Rachel Elijor, 2023-05-22 The Unknown History of Jewish Women On Learning and Illiteracy On Slavery and Liberty is a comprehensive study on the history of Jewish women which discusses their absence from the Jewish Hebrew library of the People of the Book and interprets their social condition in relation to their imposed ignorance and exclusion from public literacy The book begins with a chapter on communal education for Jewish boys which was compulsory and free of charge for the first ten years in all traditional Jewish communities The discussion continues with the striking absence of any communal Jewish education for girls until the late nineteenth and early twentieth century and the implications of this fact for twentieth century immigration to Israel 1949 1959 The following chapters discuss the social cultural and legal contexts of this reality of female illiteracy in the Jewish community a community that placed a supreme value on male education The discussion

focuses on the patriarchal order and the postulations rules norms sanctions and mythologies that in antiquity and the Middle Ages laid the religious foundations of this discriminatory reality **Daughters of the Church** Ruth A. Tucker, Walter L. Liefeld, 2010-08-10 Rich in historical events and colorfully written this fascinating account of women in the church spans nearly two thousand years of church history It tells of events and aspirations determination and disappointment patience and achievement that mark the history of daughters of the church from the time of Jesus to the present The authors have endeavored to present an objective story The very fact that readers may find themselves surprised now and again by the prominent role of women in certain events and movements proves an inequality that historical narrative has often been guilty of This is a book about women It is a setting straight off the record a restoring of balance to history that has repeatedly played down the significance of the contributions of women to the theology the witness the movements and the growth of the church An exegetical study of relevant Scripture passages offers stimulating thought for discussion and for serious reevaluation of historical givens This volume is enriched by pictures appendixes bibliography and indexes Like many of the women whose stories it tells this book has a subdued strength that should not be underestimated **Quest for the Living God** Elizabeth A. Johnson, 2007-10-14 Concerned with new frontiers in our understanding of God this book aims to spread the light of theological knowledge ever ancient ever new *The Bible in History* David W. Kling, 2004-08-12 No one can doubt that the Bible has exerted a tremendous influence on Western civilization since the dawn of Christianity But few of us have considered the precise nature of that influence in particular historical contexts In this book David Kling traces the fascinating story of how specific biblical texts have at different times emerged to be the inspiration of movements that have changed the course of history By examining eight such pivotal texts Kling elucidates the ways in which sacred texts continue to shape our lives as well as our history Among the passages he discusses are Upon this rock I will build my church Matthew 16 18 which inspired the formation of the papacy and has served as its foundation for centuries The righteous will live by faith Romans 1 17 which caught the imagination of Martin Luther and sparked the Protestant Reformation Go to Pharaoh and say to him Thus says the Lord Let my people go so that they may worship me Exodus 8 1 which has played an important and diverse role in African American history from early slave spirituals through the modern civil rights movement and beyond There is no longer Jew or Greek there is no longer slave or free there is no longer male and female for all of you are one in Christ Jesus Galatians 3 28 which has been adopted by feminists as a rallying cry in the battle for women s ordination Each of the historical episodes he explores from the beginning of Christian monasticism to the emergence of Pentecostalism is evidence of the dynamic interplay between Scripture and the social and cultural context in which it is interpreted Kling s innovative study of this process shows how sacred texts can give life to social movements and how powerful social forces can give new meaning to Scripture **Engendering Curriculum History** Petra Hendry, 2011-05-20 How can curriculum history be re envisioned from a feminist poststructuralist perspective Engendering Curriculum History disrupts dominant notions of

history as linear as inevitable progress and as embedded in the individual This conversation requires a history that seeks remembrance not representation reflexivity not linearity and responsibility not truth Rejecting a compensatory approach to rewriting history which leaves dominant historical categories and periodization intact Hendry examines how the narrative structures of curriculum histories are implicated in the construction of gendered subjects Five central chapters take up a particular discourse wisdom the body colonization progressivism and pragmatism to excavate the subject identities made possible across time and space Curriculum history is understood as an emergent not a finished process as an unending dialogue that creates spaces for conversation in which multiple conflicting paradoxical and contradictory interpretations can be generated as a means to stimulate more questions not grand narratives
