Not Quite The Diplomat Home Truths About World Affairs:

Not Quite the Diplomat Chris Patten, 2005 *Not Quite the Diplomat* describes what has been happening in Britain Europe and the world since 1997 from the perspective of one at the heart of international events In examining how we got to where we are he writes frankly about many of the major players and what happened behind closed doors his sketches of world leaders including Chirac Putin Kohl and Blair a man who has convictions to which he holds strongly while he holds them and of key moments done with the brush of a master portraitist In arguing about where we should be he writes with the directness of a man freed at last from the bonds of diplomatic restraint No recent book by a politician of any political persuasion has been so engaging so outspoken and often so funny If Chris Patten is no longer the diplomat it is the readers of this book who are the beneficiaries

Quebec in a Global Light Robert Calderisi, 2019-04-08 To the outside world Quebec is Canada's most distinctive province To many Canadians it has sometimes seemed the most troublesome But over the last quarter century quietly but steadily it has wrestled successfully with two of the West's most daunting challenges protecting national values in the face of mass immigration and striking a proper balance between economic efficiency and a sound social safety net Quebec has also taken a lead in fighting climate change Yet many people including many Quebecers are unaware of this progress and much remains to be done These achievements and the tenacity that made them possible are rooted in centuries of adversity and struggle In this masterful survey of the major social and economic issues facing Quebec Robert Calderisi offers an intimate look into the sensitivities and strengths of a society that has grown accustomed to being misunderstood In doing so he argues that the values uniting Quebecers their common sense courtesy concern for the downtrodden aversion to conflict and mild form of nationalism linked to a firm refusal to be homogenized by globalization make them the most Canadian of all Canadians

Ethics As Foreign Policy Dan Bulley, 2009-05-07 Ethical foreign policy has often been considered utopian unrealistic and potentially very dangerous

Dan Bulley argues for a reconceptualisation of ethics as foreign policy as both look to how we can and ought to relate to others Inspired by the deconstructive thought of Jacques Derrida Bulley studies the ethical claims of British 1997 2007 and EU 1999 2004 foreign policy These claims are read against themselves to illustrate their deep ambiguity A textual analysis of speeches statements and interviews given by foreign policy makers shows that a responsibility to save Africa to protect Iraqis and to hospitably welcome the Balkans into the EU are also irresponsible inhospitable and unethical The author contends that foreign policies making a claim to morality are ethical and unethical in their own terms suggesting that while a truly ethical foreign policy remains ultimately unachievable it does not justify abandoning a responsible relation to others Rather a negotiation of ethics as foreign policy suggests potential individual context bound decisions which remain open to contestation and permanent critique Bulley argues that the goal of ethical foreign policy must be maintained as a productive hope of what is neither completely impossible nor entirely possible

The European Commission Neill Nugent, Mark Rhinard, 2015-10-26 The European Commission is at the very heart of the European integration process and with the Council is one of the two central institutions of the European Union Its activist role under Jacques Delors led to a dramatic increase in its activity and influence and contributed to a crisis of confidence in its effectiveness and its lack of adequate financial controls which culminated in the resignation of the entire Commission under Jacques Santer in 1999 What progress has the Commission made in addressing these issues under Romano Prodi What are its prospects in face of the new challenges of Eastward enlargement How great is its influence and how does this vary according to issues and circumstances What are the implications of its hybrid character as a political and administrative body How much has the Commission changed over time and how much and how does it need to change now Written by a leading authority and author of the best selling introductory text on the EU this major new text provides the definitive introduction to and assessment of the Commission its evolution composition organisation character functioning and role Comprehensive up to date and based on extensive original research it will be essential reading for students of European integration politicians policy makers and functionaries and anyone with a serious interest in the European Union its current character and future prospects

New Approaches to EU Foreign Policy Maciej Wilga, Ireneusz Pawel Karolewski, 2014-06-05 EU foreign policy once existed in the form of the European Political Cooperation with only a limited political leverage and symbolic institutional underpinnings In recent years rapid changes have occurred including an expanding institutional apparatus increased responsibility and growing demand for action This book examines new approaches to the EU s foreign policy that address its rapidly changing character presenting the newest theoretical perspectives and dealing with novel empirical developments Rather than simply considering structural variations and changes in the agency of the EU it explores the new complexity in EU foreign policy The authors offer new theoretical perspectives and new empirical studies dealing among others with issues such as Power delegation to the Commission EU diplomacy Parliamentarisation and constitutionalisation Committees involvement in foreign policy process

Making British Defence Policy Robert Self, 2022-06-16 This book explores the process by which defence policy is made in contemporary Britain and the institutions actors and conflicting interests which interact in its inception and continuous reformulation Rather than dealing with the substance of defence policy this study focuses upon the institutional actors involved in this process This is a subject which has commanded far more interest from public Parliament government and the armed forces since the protracted bloody and ultimately unsuccessful British military involvement in Iraq and Afghanistan The work begins with a discussion of two contextual factors shaping policy The first relates to the impact of Britain's special relationship with the United States over defence and intelligence matters while the second considers the impact of Britain's relatively disappointing economic performance upon the funding of British defence since 1945 It then goes on to explore the role and impact of all the key policy actors from the Prime Minister Cabinet and core executive to the Ministry of Defence and its relations with the broader Whitehall village and the Foreign Office and Treasury in particular The work concludes by examining the increasing influence of external policy actors and forces such as Parliament the courts political parties pressure groups and public opinion This book will be of much interest to students of British defence policy security studies and contemporary military history
