Not The End Of The World A Novel:

Fukushima Fiction Rachel DiNitto, 2019-05-31 Fukushima Fiction introduces readers to the powerful literary works that have emerged out of Japan's triple disaster now known as 3.11. The book provides a broad and nuanced picture of the varied literary responses to this ongoing tragedy, focusing on serious fiction (*junbungaku*), the one area of Japanese cultural production that has consistently addressed the disaster and its aftermath. Examining short stories and novels by both new and established writers, author Rachel DiNitto effectively captures this literary tide and names it after the nuclear accident that turned a natural disaster into an environmental and political catastrophe. The book takes a spatial approach to a new literary landscape, tracing Fukushima fiction thematically from depictions of the local experience of victims on the ground through the regional and national conceptualizations of the disaster to considerations of the disaster as history and last to the global concerns common to nuclear incidents worldwide. Throughout, DiNitto shows how fiction writers played an important role in turning the disaster into a narrative of trauma that speaks to a broad readership within and outside Japan. Although the book examines fiction about all three of the disasters—earthquake, tsunami, and nuclear meltdowns—DiNitto contends that Fukushima fiction reaches its critical potential as a literature of nuclear resistance. She articulates the stakes involved, arguing that serious fiction provides the critical voice necessary to combat the government and nuclear industry's attempts to move the disaster off the headlines as the 2020 Olympics approach and Japan restarts its idle nuclear power plants. Rigorous and sophisticated yet highly readable and relevant for a broad audience, *Fukushima Fiction* is a critical intervention of humanities scholarship into the growing field of Fukushima studies. The work pushes readers to understand the disaster as a global crisis and to see the importance of literature as a critical medium in a media-saturated world. By engaging with other disasters from 9/11 to Chernobyl to Hurricane Katrina, DiNitto brings Japan's local and national tragedy to the attention of a global audience, evocatively conveying fiction's power to imagine the unimaginable and the unforeseen. **Imagining**

Ecocatastrophe Scott Slovic, Joyjit Ghosh, Samit Kumar Maiti, 2025-08-01 This volume examines scholarly perspectives on eco-imaginaries, focusing in particular on how eco-catastrophes have been represented in literature and different visual forms, including film, television, and cartoons, among other cultural media. It draws on literary genres such as science fiction, climate fiction, speculative fiction, petrofiction, post-apocalyptic narratives, and nuclear fiction to examine the role that literature plays in the dissemination of information about environmental crisis in the Anthropocene and in preparing mankind for a better and sustainable future. Deeply embedded in theoretical conceptualisations, the essays in this volume address issues of natural disasters, deforestation, nuclear disasters, and pandemics, among others, which constitute the core subjects of environmental humanities. A seminal study on the literary and cultural representations of ecodisaster in the global context and with contributions from across the world, this book, truly interdisciplinary in nature, will be an invaluable read for students, academicians, and researchers in literature, film studies, climate change studies, disaster studies, gender studies, and cultural

Gonnermann, 2021-04-19 *Absent Rebels: Criticism and Network Power in 21st Century Dystopian Fiction* focuses on the relationship between literary dystopia, network power, and neoliberalism, explaining why rebellion against a dystopian system is absent in so many contemporary dystopian novels. Also, this book helps readers understand modern power mechanisms and shows ways how to overcome them in our own daily lives. *Not the End of the World* Geraldine McCaughrean, 2006 Noah's daughter, daughters in law, sons, wife, and the animals describe what it was like to be aboard the ark while they watched everyone around them drown. *Station Eleven: by Emily St. John Mandel | Summary & Analysis* Elite Summaries, A radiant book. Emily St. John Mandel's fourth novel, *Station Eleven*, is a phenomenon: a riveting novel about the survival of human culture after apocalypse hits on civilization and wipes out the majority of the population. Published in 2014, the novel won the Arthur C. Clarke Award, the Toronto Book Award, and literature awards in 2015. The book was nominated for the National Book Award as well as the PEN Faulkner Award. The book's film adaptation is under development. *Station Eleven* beautifully highlights the contrast between current life and life before a fictional deadly flu collapsed the world. p 1 margin 0 0px 0 0px 10 0px 0 0px text-align: justify; font: 11 0px Trebuchet MS, color: 000000; webkit-text-stroke: 000000; span s1; font-kerning: none. If you are Ayn Rand's fan, then it is very likely that upon completion of this book, Emily would also be among your favorite authors. You would love the part of the book where survivors rush out to listen to Beethoven and emotions flood out in the form of tears. This kind of instances stirs strings in you to think what truly makes us alive. Decisions and choices one makes today eventually become one's character and later define civilizations and humanity. Unlike so many survivalist stories, the novel *Station Eleven* is not just about how people manage in the adverse situation; it is beyond just survival. Although it can be classified as sci-fi, the novel has a philosophy, humanitarian touch. Well-written, critically acclaimed, and Mandel's modest yet powerful style of writing makes this book a must-read for everyone. It is feared, desired, and banal. *Apocalypse in Crisis* discusses fictions from the 1940s to the present, examining shifts in the imagination of apocalypse from the postwar British disaster novels through novels of the countercultural sixties, feminist interventions, and recent revisions and critiques. As empire fades, ideas of sexuality shift, and attitudes to nature and to the city change, so apocalyptic fictions change. The individual subject is asserted, immolated, transcended, abandoned; individual deaths are substituted for mass death; death is faked or erased. The subjects and survivors of catastrophe set about re-establishing civilization or they abandon it, finding new ways of being and of dying; they respond to it when it comes from outside as an invasion or they are immersed in it as it shifts from being an event to being a condition. They flee the city for the country or accept that they must draw on the energies of the world-city in order to survive. The book includes detailed discussion of novels by H. G. Wells, George M. Stewart, Nevil Shute, John Wyndham, Arthur C. Clarke, J. G.

Ciuba,2010-09-01 In Walker Percy Books of Revelations Gary M Ciuba examines how Percy s apocalyptic vision inspires the structure themes and strategies of his fiction This book explores the unity of the southern novelist s fiction by focusing on its religious and artistic design one of the first studies to approach Percy s work from this perspective Ciuba considers Percy s six published novels The Moviegoer The Last Gentleman Love in the Ruins Lancelot The Second Coming and The Thanatos Syndrome and also offers the first extended critical analysis of his unpublished work The Gramercy Winner Although the novels are often seen as increasingly satiric jeremiads about the possible doom of America Ciuba argues that Percy s fiction is principally shaped by a demythologized and partially realized form of eschatology This apocalyptic vision has less to do with the end of the external world than with the demise of the protagonists internal worldviews According to Ciuba Percy does more than offer direly comic warnings about the end of the world he shows how the world actually ends and then may begin again in the everyday lives and extraordinary loves of his astonished seers **Plurihistoricity** Zoltán Boldizsár

Simon,2025-07-25 This book situates historical scholarship within a plurihistoricity of contemporary historical culture exploring conflicting conceptions of historical change in technological utopias of human enhancement in prospects of human extinction in societal responses to the Anthropocene and in the imperative of bringing colonial patterns of historical injustice to justice Contemporary societies increasingly reclaim history from the academic pursuit of historiography On the one hand societal engagement in history is growing palpably History is literally everywhere in the fallen statues of past political regimes in trajectories of environmental degradation and in technological prospects of space expansion On the other hand societal demand for history seems to diminish rather than strengthen the authority of professionalized historical studies What do these societal historicities stand for How do they create pasts that matter What futures do they desire or attempt to avoid How do they view the historical transitions into those futures And what is the societal role of historical scholarship and scholarly conceptions of history in the plurihistoricity of contemporary historical culture By addressing these questions Simon s book is essential reading for everyone interested in the present and future of viewing the world historically It's
