Not A Normal Country Geoff Andrews, 2005-07-20 Not a Normal Country explores Italian politics and culture in the era of Silvio Berlusconi Italy's richest man and one of its longest serving prime ministers Geoff Andrews argues that the Berlusconi phenomenon was a populist response to widespread cynicism towards politics Berlusconi posed as an anti politician and based his appeal on his virtues as a salesman rather than a statesman The second part of the book discusses the varied opposition to Berlusconi This ranges from the anti global demonstrations in Genoa in 2001 to unconventional protests such as the Girotondo movement led by the film director Nanni Moretti According to Andrews this new associationism has helped rebuild Italian politics Finally Andrews looks to the future and through the examples of anti mafia protests in Sicily as well as opposition to the Americanisation of Italian culture considers the prospects for the new post Berlusconi Italy **Not a**

Populist parties in Europe attract many more votes than they did just a few decades ago and are now much more likely to govern They have also become key players in the international sphere At the same time the relationship between democracy and populism is subject to substantial scholarly and public debate This raises questions about opposition to this controversial set of political actors do opponents favour the use of rights restricting and exclusionary repertoires typical of militant democracy responses to anti democratic or extremist parties Or do opponents favour the ordinary persuasive and sometimes inclusive strategies more typical of the daily conduct of liberal democratic politics To what extent is opposition conceived of as democratic defence How do strategies vary among countries and in relation to different types of populist parties How do international and transnational actors respond Addressing these questions the book presents new research mapping opposition to the Hungarian Civic Alliance Fidesz Law and Justice in Poland Alternative for Germany League and Five Star Movement in Italy Podemos and Vox in Spain the Sweden Democrats and the Danish People s Party It argues that opposition to populist parties in contemporary Europe is in most cases best conceived of as democratic defence as normal politics That is while there is no direct link between populism and a decline in democratic quality critical claims justifying acts of opposition often problematise populist parties as threats to liberal democratic principles and values At the same time opponents are more likely to respond to populist parties using the repertoires of normal politics or strategies

typically employed against less controversial groupings than the exceptional rights restricting instruments typically used against extremists The case of Alternative for Germany in which exceptional politics continues to guide much opposition remains a case apart

Matrix Activism Michela Ardizzoni, 2016-11-03 The intersection of virtual and physical spaces at the heart of contemporary political protests is a pivotal element in new practices of activism In this new and global ecology of dissent and activism different forces stakeholders and spaces once defiantly discordant come together to define the increasingly malleable nature and terms of participatory politics and the performance of democracy This book explores the emerging sites aesthetics and politics of contemporary dissent as a critical attempt to foreground their mediation and negotiation in an era of neoliberal globalization Contemporary forms of media activism occupy deeply ambivalent spaces which Ardizzoni analyzes using the lens of what she calls matrix activism Rather than confining the analysis to a single platform a single technology or a single social actor matrix activism allows us to explain the hybrid nature of new forms of dissent and resistance as they are located at the intersection of alternative and mainstream non profit and corporate individual and social production and consumption online and offline
