Not On A White Horse:

Recapitulations Thomas Prufer, 2018-03-02 Provides commentary on prominent philosophers on important philosophical themes These unusual and exquisite essays focus on a problem or a text with extraordinary acuity **Studies in Chinese Philosophy and Philosophical Literature** Angus Charles Graham, 1990-01-01 Graham addresses several fundamental problems in classical Chinese philosophy and in the nature and structure of the classical Chinese language These inquiries and reflections are both broad based and detailed Two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole First Graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition and that have defined its character What is the nature of human nature What can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts What sense can we make of the Kung sun Lung sophistries A second source of coherence is Graham's identification and articulation of those basic and often unconscious presuppositions that ground our own tradition By so doing he enables readers to break free from the limits of their own conceptual universe and to explore in the Chinese experience a profoundly different world view

Archaeology of Logic Andrew Schumann, 2023-04-27 The question arises whether logic was given to us by God or whether it is the result of human evolution I believe that at least the modus ponens rule $A \text{ and if } A \text{ then } B \text{ implies } B$ is inherent in humans but probably many other modern systems e.g. resource logic non monotonic logic etc are the result of humans adapting to the environment It is therefore of interest to study and compare the way logic is used in ancient cultures as well as the way logic is going to be used in our 21st century This welcome book studies and compares the way formation of logic in three cultures Ancient Greek 4th century B.C. Judaic 1st century B.C. 1st century A.D. and Indo Buddhist 2nd century A.D. The book notes that logic became especially popular during the period of late antiquity in countries covered by the international trade of the Silk Road This study makes a valuable contribution to the history of logic and to the very understanding of the origins and nature of logical thinking Prof Dov Gabbay King's College London UK Andrew Schumann in his book demonstrates that logic step by step arose in different places and cultural circles He argues that if we apply a structural genealogical method as well as turn to various sources particularly religious philosophical linguistic etc then we can obtain a more general and more adequate picture of emergence and development of logic This book is a new and very valuable contribution to the history of logic as a manifestation of the human mind Prof Jan Wolenski Jagiellonian University Poland The author of the *Archaeology of Logic* defends the claim calling it logic is after all which sees logical competence as a practical skill that people began to learn in antiquity as soon as they realized that avoiding cognitive biases in their reasoning would make their daily activities more successful The in depth reading of the book with its diving into the comparative quotations in the long dead or hardly known to most of us languages like Sumerian Akkadian Aramaic Hebrew and etc will be rewarded by the response that the logical competence is diverse and it can be trained despite the inevitability

of the reasoning fallacies and that critical discussions and agonal character of the social life are the necessary tools for that

Prof Elena Lisanyuk **Rationality** Tzu-Wei Hung, Timothy Joseph Lane, 2016-09-02 Rationality Contexts and Constraints is an interdisciplinary reappraisal of the nature of rationality In method it is pluralistic drawing upon the analytic approaches of philosophy linguistics neuroscience and more These methods guide exploration of the intersection between traditional scholarship and cutting edge philosophical or scientific research In this way the book contributes to development of a suitably revised comprehensive understanding of rationality one that befits the 21st century one that is adequately informed by recent investigations of science pathology non human thought emotion and even enigmatic Chinese texts that might previously have seemed to be expressions of irrationalism Addresses recent challenges and Identifies a direction for future research on rationality Investigates the relationship between rationality and mental disorders such as delusion and depression Assesses reasoning in artificial intelligence and nonhuman animals Reflects on ancient Chinese Philosophy and possible cultural differences in human psychology Employs philosophical reflection along with linguistic probabilistic and logical techniques Semantic-Truth Approaches in Chinese Philosophy Bo Mou, 2018-11-06 This book explains a distinctive pluralist account of truth jointly rooted perspectivism JRP for short This explanation unifies various representative while philosophically interesting truth concern approaches in early Chinese philosophy on the basis of people's pre-theoretic way things are capturing understanding of truth It explains how JRP provides effective interpretative resources to identify and explain one unifying line that runs through those distinct truth concern approaches and how they can thus talk with and complement each other and contribute to the contemporary study of the issue of truth In so doing the book also engages with some distinct treatments in the modern study of Chinese philosophy Through testing its explanatory power in effectively interpreting those representative truth concern approaches in the Yi Jing philosophy Gongsun Long's philosophy Later Mohist philosophy classical Confucianism and classical Daoism JRP is also further justified and strengthened Mou defends JRP as an original unifying pluralist account in the context of cross tradition philosophical engagement which can also effectively engage with other accounts of truth including other types of pluralist accounts in contemporary philosophy The purpose of this book is dual 1 it is to enhance our understanding and treatment of the truth concern as one strategic foundation of various movements of thought in classical Chinese philosophy that are intended to capture how things are 2 on the other hand it is to explore how the relevant resources in Chinese philosophy can contribute to the contemporary exploration of the philosophical issue of truth in philosophically interesting and engaging way *Sixth Report of the United States Geographic Board* United States Geographic Board, 1933 **Sixth Report of the United States Geographic Board, 1890 to 1932** United States Geographic Board, 1933 *Zhuangzi: The Complete Writings* Zhuangzi, 2020-03-01 Brook Ziporyn's carefully crafted richly annotated translation of the complete writings of Zhuangzi including a lucid Introduction a Glossary of Essential Terms and a Bibliography provides readers with an engaging and provocative deep dive

into this magical work Not Your Grandmother's Book of Revelation Charyl Craddock,2020-10-21 Unlike most other commentaries on the Book of Revelation Not Your Grandmother's Book of Revelation presents Scripture to dispel the many misinterpretations that have been perpetuated for the last one hundred years Many of those misinterpretations have a foundation from the book Dispensational Truths by Baptist Pastor and Biblical scholar Charles Larkin which was published in 1918 In addition to the influence of Mr Larkin's book many misinterpretations result from the false belief that the Book of Revelation is written in chronological order and that all of the events shown to John will occur during the final seven years Daniel's seventieth week In this book Scripture is presented that positively establishes that the Revelation of Christ as recorded by John is written in the order that the events were shown to John not chronologically that the events of the vision the events that shall be hereafter Revelation 1:19 began occurring during the second and third century after the death and resurrection of Jesus Christ that the first three and a half years after the signing of the peace agreement between Israel and many will be a peaceful time during which Israel will build the third Temple the final three and a half years the Great Tribulation is the pouring out of the wrath of Satan not the wrath of God and that Jesus told the apostles that the First Resurrection the Rapture does not occur until immediately after the tribulation Matthew 24:29 It will be shown that America is in the Book of Revelation A detailed description of the Antichrist False Prophet one world government Beast and mark of the Beast are presented as is a synopsis of all chapters and the prophecies of Daniel Finally a timeline of the events of the vision is presented Dictionary of Asian Philosophies St. Elmo Nauman Jr,2002-09-10 Spanning three thousand years and five major cultures the traditions of Eastern philosophy play a major role in any study of human thought today to ignore the East is to miss the valuable insights of philosophers from the Persian Indian Chinese Tibetan and Japanese traditions In this book every major stream of Eastern thought whether idealistic or materialistic is presented The author reveals here the wisdom of the East from Avicenna to Zoroaster from Buddha to Gandhi Entries cover not only the philosophers themselves but also the philosophical terms and concepts the historical background the doctrines teachings and writings of the East Whether we wish to consult the I Ching to understand Zen koan or to read from the Upanishads this volume will be a valuable tool in our quest **A Concise History of Chinese Philosophy** Qi Feng, Weiping Chen,2023-07-03 This book is an abridged version of Feng Qi's two major works on the history of philosophy The Logical Development of Ancient Chinese Philosophy and The Revolutionary Course of Modern Chinese Philosophy It is a comprehensive history of Chinese philosophy taking the reader from ancient times to the year 1949 It illuminates the characteristics of traditional Chinese philosophy from the broader vantage point of epistemology The book revolves around important debates including those on Heaven and humankind tian ren names and actualities mingshi principle and vital force liqi the Way and visible things daoqi mind and matter things xinwu and knowledge and action zhixing Through discussion of these debates the course of Chinese philosophy unfolds Modern Chinese philosophy has made landmark achievements in the development of historical and epistemological

theory namely the dynamic and revolutionary theory of reflection However modern Chinese philosophy is yet to construct a systematic overview of logic and methodology as well as questions of human freedom and ideals Amid this discussion the question of how contemporary China is to take the baton from the thinkers of the modern philosophical revolution is addressed
