Not The Whole Truth An Autobiography His Own Compulsive Story:

A Compulsion for Antiquity Richard H. Armstrong, 2018-07-05 If psychoanalysis is the return of repressed antiquity distorted to be sure by modern desire yet still bearing the telltale traces of the ancient archive then would not our growing distance from the archive of antiquity also imply that we are in the process of losing our grip on psychoanalysis itself as Freud conceived it from Chapter 1 As he developed his striking new science of the mind Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it *A Compulsion for Antiquity* fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography archaeology philology and the history of religions Drawing extensively from Freud's private correspondence and other notes and documents Richard H Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex his interest in Moses and the Jewish religion and his travels to Athens and Rome Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic evidence and formulated the universal application of what were initially isolated clinical truths Freud's narrative reconstructions of the past also related to his sense of Jewishness linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture Ranging across the breadth of Freud's work *A Compulsion for Antiquity* offers fresh insights into the roots of psychoanalysis and fin de siècle European culture and makes an important contribution to the burgeoning discipline of mnemohistory

Design and Truth in Autobiography Roy Pascal, 2015-08-20 Originally published in 1960 Is there an art of autobiography What are its origins and how has it come to acquire the form we know today For what does the autobiographer seek and why should it be so popular This study suggests some of the answers to these questions It takes the view that autobiography is one of the dominant and characteristic forms of literary self expression and deserves examination for its own sake This book outlines a definition of the form and traces its historical origins and development analyses its truth and talks about what sort of self knowledge it investigates

Freedom's Moment Paul M. Cohen, 2007-12-01 What kind of freedom and what kind of individual has the French Revolutionary tradition sought to propagate Paul Cohen finds a distinctly French articulation of freedom in the texts and lives of eight renowned cultural critics who lived between the eighteenth century and the present day Arranged not according to the lives and times of its protagonists but to the narrative themes and structures they held in common Cohen's study discerns a single master narrative of liberty in modern

France He captures these radicals whose tradition bids them to resist the authority of power structures and public opinion They denounce bourgeois and utilitarian values the power of Church and State and the corrupting influence of everyday politics and they dream of a revolutionary rupture a fleeting instant of sometimes violent but always meaningful transgression An eloquent and insightful work on French political culture Freedom s Moment also helps explain how France even as it has oscillated between political stagnation and crisis has held onto its faith that liberty equality and fraternity remain within its grasp Examines the ideas of Rousseau Robespierre Stendahl Michelet Bergson Peguy Sartre and Foucault

Jouve,2022-09-12 Originally published in 1991 The style of this startlingly original appraisal of a broad range of women s writing suggests a new direction for feminist criticism combining as it does challenging intellectual debate and fresh textual analysis with fictional example and autobiographical detail to make a wholly new invention in the field In addressing the need for the critic to say I and to own judgments and statements instead of attributing these to an apparently impersonal third person the author here points up some of the shortcomings of much prevailing feminist analysis challenging the very foundations of the Anglo American feminist idea Purposely avoiding the totalising effect of much academic criticism the

writer critic finds a new format and a new methodology for her insights and observations on a range of writers from Doris Lessing to Hilary Cixous Her unique analysis of the links between criticism and autobiography enable her to highlight the absurdity of attempting to write in the light of recent critical and scientific knowledge as if the self were a stable unified construct introducing instead a new creative understanding of the methods and modes of women's writing This sparkling collection presents an exciting and original new voice in literary criticism It tackles issues fundamental to literary theory feminist criticism psychoanalysis and cultural studies offering new critical insights and providing a significant and wholly original feminist contribution to these key fields
