Costa Rica is a country known internationally for its eco credentials dazzling coastlines and reputation as one of the happiest and most peaceful nations on earth Beneath this facade however lies an exclusionary rhetoric of nationalism bound up in the concept of the tico as many Costa Ricans refer to themselves Beginning by considering the very idea of national identity and what this constitutes this book explores the nature of the idealised tico identity demonstrating the ways in which it has assumed a white supremacist Central Valley centric patriarchal heteronormative stance based on colonial ideals Chapters two and three then go on to consider the literature and films produced that stand in opposition to this normative image of who or what is tico and their creation as vehicles of soft power which aim to question social norms This book explores protest literature from the 1970s by Quince Duncan Carmen Naranjo and Alfonso Chase who narrate their experiences from the margins of society by virtue of their

identity as Afro Costa Rican feminist and homosexual authors Cinema from the twenty first century is then analysed to demonstrate the nuanced position chosen by national directors Esteban Ram rez Paz F brega Jurgen Ure a and Patricia Vel squez to challenge the dominant nation image as they reinscribe youth culture a female consciousness trans identity and Afro Costa Rica onto the fabric of the nation

Resistance and Survival Ann González,2022-08-23 In her analysis of some of the most interesting and

important children's literature from Central America and the Caribbean Ann González uses postcolonial narrative theory to expose and decode what marginalized peoples say when they tell stories to their children and how the interpretations children give these stories today differ from the ways they have read them in the past González reads against the grain deconstructing and critiquing dominant discourses to reveal consistent narrative patterns throughout the region that have helped children maneuver in a world dominated by powerful figures from parents to agents of social control political repression and global takeover Many of these stories are in some way lessons in resistance and survival in a world where the toughest kid on the block often an outsider demands that a group of children play or pay on his terms González demonstrates that where traditional strategies have proposed the model of the trickster or the paradoxically astute fool to mock the pretensions of the would be oppressor new trends indicate that the region's children and those who write for them show increasing interest in playing the game on their own terms getting to know the Other embracing difference and redefining their identity and role within the new global culture Resistance and Survival emphasizes the hope underlying this contemporary children's literature for a world in which all voices can be heard and valued the hope of an authentic happy ending
