Australia,1903 *Winding up the British Empire in the Pacific Islands* W. David McIntyre,2016-11-24 Little has been written about when how and why the British Government changed its mind about giving independance to the Pacific Islands Using recently opened archives Winding Up the British Empire in the Pacific Islands gives the first detailed account of this event As Britain began to dissolve the Empire in Asia in the aftermath of the Second World War it announced that there were some countries that were so small remote and lacking in resources that they could never become independent states However between 1970 and 1980 there was a rapid about turn Accelerated decolonization suddenly became the order of the day Here was the death warrant of the Empire and hastily arranged independence ceremonies were performed for six new states Tonga Fiji Solomon Islands Tuvalu Kiribati and Vanuatu The rise of anti imperialist pressures in the United Nations had a major role in this change in policy as did the pioneering examples marked by the release of Western Samoa by New Zealand in 1962 and Nauru by Australia in 1968 The tenacity of Pacific Islanders in

maintaining their cultures was in contrast to more strident Afro Asia nationalisms The closing of the Colonial Office by merger with the Commonwealth Relations Office in 1966 followed by the joining of the Commonwealth and Foreign Offices in 1968 became a major turning point in Britain's relations with the Islands In place of long nurtured traditions of trusteeship for indigenous populations that had evolved in the Colonial Office the new Foreign Commonwealth Office concentrated on fostering British interests which came to mean reducing distant commitments and focussing on the Atlantic world and Europe

Prehistory in the Pacific Islands John Terrell,1986 How asks John Terrell in this richly illustrated and original book can we best account for the remarkable diversity of the Pacific Islanders in biology language and custom Traditionally scholars have recognized a simple racial division between Polynesians Micronesians Melanesians Australians and South east Asians peoples allegedly differing in physical appearance temperament achievements and perhaps even intelligence Terrell shows that such simple divisions do not fit the known facts and provide little more than a crude static picture of human diversity The Japanese Language in the Pacific Region Daniel Long,Keisuke Imamura,2024-08-16 Long and Imamura examine language contact phenomena in the Asia Pacific region in the context of early 20th century colonial history focusing on the effects the Japanese language continues to have over island societies in the Pacific Beginning in the early 20th century

when these islands were taken over by the Japanese Empire and continuing into the 21st century the book examines 5 150 Japanese origin loanwords used in 14 different languages It delves into semantic phonological and grammatical changes in these loanwords that form a fundamental part of the lexicons of the Pacific Island languages even now in the 21st century The authors examine the usage of Japanese kana for writing some of the local languages and the pidginoid phenomena of Angaur Island Readers will gain a unique understanding of the Japanese language s usage in the region from colonial times through the post war period and well into the current century Researchers students and practitioners in the fields of sociolinguistics language policy and Japanese studies will find this book particularly useful for the empirical evidence it provides regarding language contact situations and the various Japanese language influences in the Asia Pacific region The authors also offer accompanying e resources that help to further illustrate the examples found in the book

Security Cooperation in the Pacific Islands Joanne Wallis, Henrietta McNeill, James Batley, Anna Powles, 2025-03-20 Wallis McNeill Batley Powles and the contributors examine the dynamics of Pacific Islands security cooperation analysing how it helps address regional security challenges amid the broader strategic competition between China and the United States that is increasingly playing out in the region Pacific Island countries do not want to become pawns in this competition but its impacts are inescapable and are creating additional security challenges Compounding these effects are climate change and COVID 19 both of which have intersected with existing traditional and non traditional security challenges facing the region In response Pacific Island leaders have vowed to pursue greater security cooperation amongst themselves and with partner states This book addresses partner states interests in the region how these interests and Pacific priorities align and if not what the possible consequences may be It also analyses successful areas of security cooperation and tackles how challenges may be improved Incorporating a range of perspectives from key leaders practitioners and scholars this is an empirically grounded analysis of security cooperation within the Pacific Islands region and by the region s major partners A vital resource for researchers and practitioners seeking to better understand Pacific Islands security collaboration and the inherent challenges it faces The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
