information Information alone is not knowledge direct experience must be added before information becomes knowledge Numerology is simple to learn and very engaging like the creative arts It teaches one sympathy toward others For a numerologist the planets become embodied in a human form and he or she can closely observe them as a part of the cosmic play Those people who do not allow themselves the freedom of seeing the influence of the celestial and astral bodies cannot observe this play Planets for them are objects in outer space that have no influence on their physical and mental make up To them all predictive sciences are useless People who have time faith and enough patience however can watch this play and learn from it the lessons that will guide the consciousness of coming generations Numerology is not a complete science It is just one branch of the predictive sciences To be a good numerologist one must become a good observer and a patient listener Study of physiognomy and astrology is very necessary Numerology is much simpler than astrology and does not require complicated mathematical calculations There are just three things a numerologist needs to know the day of the month a person was born the numerological value of his or her popular name and the person's total birth information date month and year From astrology the numerologist needs to know about all the zodiac signs and a person's day of birth sun sign and moon sign In India the season during which a person was born also has to be known since that has an effect on one's temperament Certain information from physiognomy needs to be learned as well such as how the shape and form of the various body parts correlate with an individual's thinking process It is known for example that the perceptual world of tall people is different from that of short people The purpose of working with numbers is to save energy People who act without a proper understanding of the right moment to start a job waste a lot of energy by making the wrong moves Numerology provides the knowledge for such things as how to select the right moment the right relationship the right dwelling place thereby saving energy *Nature's Symphony, Lessons in Number Vibration* Mrs Dow L Balliett, 2023-08 In this Small Gem Mrs L Dow Balliett a master of vibrations and numerology teaches us about the Name or Level of Consciousness the Mission of the Birth Force and Comic Adjustment through Food Choice and even the practice of Harmony through Dress A very interesting and special feature in this book is her lecture on The Music of the Spheres The author takes deliberate care in teaching how the frequency of different vibrations affect almost everything around us and how we can either blindly submit to these vibrations or actually tune in to them and hence calibrate our own vibrational attunement to a higher and more spiritual level
