*The Nuremberg Raid* Martin Middlebrook, 2009-06-25 A thorough history of the RAF Bomber Command attack on the German city during World War II by the author of *The First Day on the Somme* This book describes one twenty four hour period in the Allied Strategic Bomber Offensive in the greatest possible detail Author Martin Middlebrook sets the scene by outlining the course of the bombing war from 1939 to the night of the Nuremberg raid the characters and aims of the British bombing leaders and the composition of the opposing Bomber Command and German night fighter forces The aim of the Nuremberg raid was not unlike many hundreds of other Royal Air Force missions but due to the difficulties and dangers of the enemy defenses and weather plus bad luck it went horribly wrong The result was so notorious that it became a turning point in the campaign The target the symbolic Nazi rally city of Nuremberg was only lightly damaged and 96 out of 779 bombers went missing Middlebrook recreates the events of the fateful night in astonishing detail The result is a meticulous dramatic and often controversial account It is also a moving tribute to the bravery of the RAF bomber crews and their adversaries Praise for *The Nuremberg Raid* Employing hundreds of eyewitness accounts he shows the raid from the point of view of the German defenses and the civilians on the ground Factual and analytical this is a portrait of mechanized warfare at the level of personal experience Simon Mawer Wall Street Journal *The Nuremberg Raid* Martin Middlebrook, 1992-06

in everyday life between German civilian society and these coerced groups is explored as is that society's relationship to the Holocaust From early 1943 the war on the home front was increasingly dominated by attack from the air The role of the Party administration police and courts in providing for the vast numbers of those rendered homeless in bolstering civilian morale with miracle revenge weapons propaganda and in maintaining order in a society in disintegration is reviewed in detail For society in uniform the war in the east was one of ideology and annihilation with intensified indoctrination of the troops after Stalingrad The social profile of this army is analysed through study of a typical infantry division The volume concludes with an account of the various forms of resistance to Hitler's regime in society and the military culminating in the failed attempt on his life in July 1944

Bowman, 2006-09-15 The book contains twenty three stirring accounts of what life flying as air crew in World War Two was really like The writers are a mixed bunch of pilots navigators and gunners who flew medium and heavy bombers or Mosquitoes It conveys the terror of being coned by German searchlights over the target attacks by Luftwaffe night fighters catastrophic damage to aircraft and the ensuing struggle to keep the machine airborne on the return trip to base It tells of the comradeship between the crew and often the humor between them which was often bred from fear The gentle and unassuming narratives convey the sense of purpose that these men felt in doing one of the most dangerous jobs in the war It is a fitting tribute to those that survived and the many thousands who died in the struggle against Hitler's dreadful ambitions in Europe

*The Berlin Blitz By Those Who Were There* Martin W. Bowman, 2023-04-30 The Allied bombing of Berlin was the longest and most sustained bombing offensive against one target in the Second World War The Berlin Blitz By Those Who Were There is a compelling gripping and thought provoking story of the Allied bombing forces and the ordinary people on the ground told in their own tongue and with meticulous attention to detail The result is a coherent single story which unfolds in a straightforward and incisive narrative This work draws

attention in some detail to the major raids on the Reich capital by RAF Bomber Command from the late summer of 1940 to September 1943. It begins with the reliable but largely ineffective twin engined Blenheims Hampdens Wellingtons and Whitleys through to the introduction into front line service of the four engined heavies the Stirling Manchester and Halifax which bore the brunt of the bomber offensive until the advent of the incomparable Avro Lancaster in 1942 and the superlative Mosquito. On 30 January 1943 on the tenth anniversary of Hitler's usurpation of power two formations each of three Mosquitoes appeared over Berlin in daylight and interrupted large rallies being addressed by Goering and Goebbels. Sir Arthur Harris, Commander in Chief RAF Bomber Command, hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable. But the Big City as it was known to his faithful old lags was never completely destroyed.
