Nuremberg War Crimes Trial 1945-1946 + America Views the Holocaust 1933-1945 Michael Robert Marrus, Robert H. Abzug, 2006-02 The Nuremberg War Crimes Trial, 1945-46 ,1997 Commemorating the fiftieth anniversary of the most important judicial proceeding of the twentieth century this is the first book to examine historically the indictment of 22 Nazi leaders at the end of World War II Skillfully weaving text and documents the author presents the complex trial in its dramatic setting in its historical context and in legal perspective The wide array of 73 primary documents including journalistic accounts private reflections and tribunal transcripts lets students evaluate first hand the words of both prosecutors and defendants Also provided are photographs of the trial a chronology brief biographies of the defendants a selected bibliography and an index **The Nuremberg War Crimes Trial, 1945-46** ,2018 Between November 1945 and October 1946 22 high ranking Nazi officials defended themselves before the International Military Tribunal in Nuremberg This book reproduces sections of the Nuremberg trial record with an introduction that outlines the background to the proceedings traces the preparations made by the principle actors in the courtroom and considers how the prosecution defense and the tribunal dealt with the counts against the accused Documents include material on the preparation of the case against the German leaders perceptions of the trial by a member of the American prosecution team and a memorandum by Telford Taylor on the possibility of a future trial focusing on the murder of European Jews **International Law** Sanford Silverburg, 2018-04-19 This book offers diverse multinational perspectives on traditional and emergent issues in the practice and study of international law It deals with the evolving foundations of international law and covers a wide range of issues that link international politics to international law **The Ambivalence of Good** Jan Eckel, 2019-04-11 The Ambivalence of Good examines the genesis and evolution of international human rights politics since the 1940s Focusing on key developments such as the shaping of the UN human rights system decolonization the rise of Amnesty International the campaigns against the Pinochet dictatorship the moral politics of Western governments or dissidence in Eastern Europe the book traces how human rights profoundly if subtly transformed global affairs Moving beyond monocausal explanations and narratives prioritizing one particular decade such as the 1940s or the 1970s The Ambivalence of Good argues that we need a complex and nuanced interpretation if we want to understand the truly global reach of human rights and account for the hopes conflicts and interventions to which this idea gave rise Thus it portrays the story of human rights as polycentric demonstrating how actors in various locales imbued them with widely different meanings arguing that the political field

evolved in a fitful and discontinuous process This process was shaped by consequential shifts that emerged from the search for a new world order during the Second World War decolonization the desire to introduce a new political morality into world affairs during the 1970s and the visions of a peaceful international order after the end of the Cold War Finally the book stresses that the projects pursued in the name of human rights nonetheless proved highly ambivalent Self interest was as strong a driving force as was the desire to help people in need and while international campaigns often improved the fate of the persecuted they were equally likely to have counterproductive effects The Ambivalence of Good provides the first research based synopsis of the topic and one of the first synthetic studies of a transnational political field such as population health or the environment during the twentieth century Based on archival research in six countries it breaks new empirical ground concerning the history of human rights in the United Nations of human rights NGOs of far flung mobilizations and of the uses of human rights in state foreign policy

International Criminal Tribunals Y. Beigbeder, 2011-04-28 The book summarizes the work of international criminal courts focusing on the political challenges faced by them It is a practical comprehensive manual on the origin and development of international criminal justice and includes the criminal tribunals of Nuremberg Tokyo Yugoslavia Rwanda East Timor Sierra Leone Cambodia Lebanon Iraq The Memory of Judgment Lawrence Douglas, 2001-01-01 This is an examination of the law s response to the crimes of the Holocaust It studies exemplary proceedings including the Nuremberg trial of the major Nazi war criminals and the Israeli trials of Adolf Eichmann and John Demjanjuk

The Treatment of Iraqi Turks Since the Aftermath of Wwi Yawooz Ezzat, 2012-07-17 The legacy of colonial power in many undeveloped countries in the aftermath of the First World War is closely linked with the many problems that those countries are now experiencing These problems are used as a smokescreen whenever the dominant countries of the world wish to further their interests these poorer nations can be manipulated through religion or nationalism or any other factor of expediency What has happened throughout history i e before during and after WW1 was not through happenstance But rather logic dictates that a sophisticated political plan has been in place and the long lasting cold war between the Eastern and Western Blocks driven by their contradicting beliefs over a universal political system has had the sole aim of gaining control over the vast oil and gas reserves of the region Such machinations were evident in Central Namibia where genocidal crimes were committed against the Herero population by the German dictator his solders and other ethnic groups were manipulated for the above purpose This also happened in Algeria where the colonial power was France the French supported a military junta who committed genocidal crimes over decades in the name of maintaining stability and control over Mediterranean Sea The Turkic descendents in Iraq have been subjected to similar methods i e ethnic cleansing since the aftermath of the WWI and for the same purpose The main objective of this research therefore has been to develop an in depth analysis of the treatment of Iraqi Turks following WWI arguing that the above systematic ethnic cleansing in Iraq has links with the colonial era If Iraqis continue to ignore this fact and continue to blame each other ethnic

cleansing will continue and it may affect other groups as well Yet the new world order and financial system is designed in such a way as to serve those aims and international law is too feeble to counter those plans The ethnic cleansing in Iraq will remain unchanged as long as the political elite in Iraq continue to serve the aims of the great powers **The Concise**

Encyclopedia of World War II Cathal J. Nolan, 2010-04-22 A comprehensive and integrated military political and strategic history of World War II ranging from the daily life of conscripts and civilians to operational and strategic decision making at the highest levels Filled with up to date scholarship yet supremely manageable and accessible The Concise Encyclopedia of World War II offers the opportunity to explore a conflict that remains a source of fascination for scholars students and general readers alike From the battlefields to the corridors of power from the barracks to the home front The Concise Encyclopedia of World War II provides a complete portrait of the war Entries not only address major battles and campaigns but political economic and cultural issues as well plus brief portraits of the conflict's commanding personalities Its global perspective notably corrects the usual Western focus of World War II studies incorporating a wealth of information on often underreported topics such as the Eastern Front and the Sino Japanese War **International Criminal Procedure**

Christoph Safferling, 2012-03-15 This title sets out and analyses the procedural law applied by the International Criminal Court systematically analysing the Court's organisational structure overall procedural setting and the individual procedural regulations in comparison to that of other international tribunals The Third Reich Michael Burleigh, 2001-11 Michael Burleigh's The Third Reich presents a major study of one of the twentieth century's darkest periods Until now there has been no up to date one volume international history of Nazi Germany despite its being among the most studied phenomena of our time The Third Reich restores a broad perspective and intellectual unity to issues that have become academic subspecialties and offers a brilliant new interpretation of Hitler's evil rule Filled with human and moral considerations that are missing from theoretical accounts Michael Burleigh's book gives full weight to the experience of ordinary people who were swept up in or repelled by Hitler's movement and emphasizes how international themes for Nazi Germany appealed to many European nations It also focuses on the Nazi's wartime conduct to dominate the Continental economy and involve gigantic population transfers and exterminations recruitment of foreign labor and multinational armies *Memory and History* Joan

Tumblety, 2013-07-15 How does the historian approach memory and how do historians use different sources to analyze how history and memory interact and impact on each other Memory and History explores the different aspects of the study of this field Taking examples from Europe Australia the USA and Japan and treating periods beyond living memory as well as the recent past the volume highlights the contours of the current vogue for memory among historians while demonstrating the diversity and imagination of the field Each chapter looks at a set of key historical and historiographical questions through research based case studies How does engaging with memory as either source or subject help to illuminate the past What are the theoretical ethical and or methodological challenges that are encountered by historians engaging with memory in this

way and how might they be managed How can the reading of a particular set of sources illuminate both of these questions The chapters cover a diverse range of approaches and subjects including oral history memorialization and commemoration visual cultures and photography autobiographical fiction material culture ethnic relations the individual and collective memories of war veterans The chapters collectively address a wide range of primary source material beyond oral testimony photography monuments memoir and autobiographical writing fiction art and woodcuttings everyday and exotic cultural artefacts journalism political polemic the law and witness testimony This book will be essential reading for students of history and memory providing an accessible guide to the historical study of memory through a focus on varied source materials

The Cambridge Companion to Human Rights Law Conor Gearty, Costas Douzinas, 2012-11-22 Captures the essence of the multi layered subject of human rights law in a way that is authoritative critical and scholarly Ruin and Renewal Paul Betts, 2020-11-17 Winner of the American Philosophical Society s 2021 Jacques Barzun Prize in Cultural History From an award winning historian a panoramic account of Europe after the depravity of World War II In 1945 Europe lay in ruins Some fifty million people were dead and millions more languished in physical and moral disarray The devastation of World War II was unprecedented in character as well as in scale Unlike the First World War the second blurred the line between soldier and civilian inflicting untold horrors on people from all walks of life A continent that had previously considered itself the very measure of civilization for the world had turned into its barbaric opposite Reconstruction then was a matter of turning Europe s civilizing mission inward In this magisterial work Oxford historian Paul Betts describes how this effort found

expression in humanitarian relief work the prosecution of war crimes against humanity a resurgent Catholic Church peace campaigns expanded welfare policies renewed global engagement and numerous efforts to salvage damaged cultural traditions Authoritative and sweeping *Ruin and Renewal* is essential reading for anyone hoping to understand how Europe was transformed after the destruction of World War II *Allen Dulles, the OSS, and Nazi War Criminals* Kerstin von Lingen, 2013-09-30 Kerstin von Lingen shows how Nazi SS General Karl Wolff avoided war crimes prosecution because of his role in Operation Sunrise negotiations conducted by high ranking American Swiss and British officials in violation of the Casablanca agreements with the Soviet Union for the surrender of German forces in Italy Von Lingen suggests that the Cold War started already with Operation Sunrise and helps us understand rollback operations thereafter one was the failure of justice and selective prosecution for high ranking Nazi criminals The Western Allies not only failed to ensure cooperation between their respective national war crimes prosecution organizations but in certain cases even obstructed justice by withholding evidence from the prosecution **The Frankfurt Auschwitz Trial, 1963-1965** Devin O. Pendas, 2006 Drawing on a wide range of archival sources this book provides a comprehensive history of the Frankfurt Auschwitz trial **The Justice Laboratory** Kerstin Bree Carlson, 2023-03-14 Examining how international criminal law has and hasn't brought justice following war crimes in Africa Ever since World War II the United Nations and other international actors have created laws treaties and institutions to punish perpetrators of genocide war crimes and crimes against humanity These efforts have established universally recognized norms and have resulted in several high profile convictions in egregious cases But international criminal justice now seems to be a declining force its energy sapped by long delays in prosecutions lagging public attention and a globally rising authoritarianism that disregards legal niceties This book reviews five examples of international criminal justice as they have been applied across Africa where brutal civil conflicts in recent decades resulted in varying degrees of global attention and action The first three chapters examine key international mechanisms the International Criminal Court the International Criminal Tribunal for Rwanda and the hybrid tribunal established in Senegal to try state crimes committed in Chad These chapters illustrate how the design and practice of the institutions led to similarly unexpected and unsatisfying outcomes The final two chapters examine emerging and proposed international criminal justice mechanisms One is a tribunal intended to facilitate peace in the new but war torn country of South Sudan not yet operational and unlikely to perform better than its predecessors Finally the book considers the developing human rights practice of the little studied East African Court a regional commercial court in Arusha Tanzania to show how local judicial creativity can win a role for courts in facilitating good governance Written in an accessible style this book explores the connections between politics and the doctrine of international criminal law Highlighting little known institutional examples and under discussed political situations the book contributes to a broader international understanding of African politics and international criminal justice as well as the lessons the African experiences offer for other regions **The Trial on Trial: Volume 2** R A

Duff, Lindsay Farmer, Sandra Marshall, Victor Tadros, 2006-04-05 What are the aims of a criminal trial What social functions should it perform And how is the trial as a political institution linked to other institutions in a democratic polity What follows if we understand a criminal trial as calling a defendant to answer to a charge of criminal wrongdoing and if he is judged to be responsible for such wrongdoing to account for his conduct A normative theory of the trial an account of what trials ought to be and of what ends they should serve must take these central aspects of the trial seriously but they raise a number of difficult questions They suggest that the trial should be seen as a communicative process but what kinds of communication should it involve What kind of political theory does a communicative conception of the trial require Can trials ever actually amount to more than the imposition of state power on the defendant What political role might trials play in conflicts that must deal not simply with issues of individual responsibility but with broader collective wrongs including wrongs perpetrated by or in the name of the state These are the issues addressed by the essays in this volume The third volume in this series in which the four editors of this volume develop their own normative account will be published in 2007
