Carol Lynn Cox, 2019-01-09 *Physical Assessment for Nurses and Healthcare Professionals* offers a practical and comprehensive guide to best clinical practice when taking patient history and physical examination. This accessible text is structured in accordance with the competencies for advanced practice in assessment, diagnosis and treatment as published by the RCN. Following a systematic systems-based approach to patient assessment, it includes a summary of the key clinical skills needed to develop and improve clinical examination in order to confidently assess, diagnose, plan and provide outstanding care. In this revised edition, colour photographs and case studies have been included to assist health care practitioners in their assessment of the patient. This important guide includes a highly visual colour presentation with photographs and illustrations. Features a wide range of key learning points to help guide practice. Offers illustrative examples, applications to practice and case studies. Written for health care students, newly qualified and advanced nurse practitioners and those in the allied health professions. *Physical Assessment for Nurses and Healthcare Professionals* is the essential guide for developing the skills needed to accurately access patient history and physical examination. *Clinical Guidelines for Advanced Practice Nursing* Karen G. Duderstadt, Rebekah Kaplan, 2016-03-17 *Clinical Guidelines for Advanced Practice Nursing: An Interdisciplinary Approach* Third Edition is an accessible and practical reference designed to help nurses and students with daily clinical decision making. Written in collaboration with certified nurse midwives, clinical nurse specialists, nurse practitioners, nutritionists, pharmacists and physicians, it fosters a team approach to health care. Divided into four areas: Pediatrics, Gynecology, Obstetrics and Adult General Medicine, and following a lifespan approach, it utilizes the S O A P Subjective Objective Assessment Plan format. Additionally, the authors explore complex chronic disease management, health promotion across the lifespan and professional and legal issues such as reimbursement, billing and the legal scope of practice. The Third Edition has a keen focus on gerontology to accommodate the AGNP specialty and to better assist the student or clinician in caring for the aging population. The authors follow the across the life span approach and focus on common, complete disorders. Certain chapters have been revised and new chapters have been added which include Health Maintenance for Older Adults, Frailty, Common Gerontology Syndromes, Cancer Survivorship, Lipid Disorders, Acne, pediatrics section. Please note that the 2016 CDC Guidelines for prescribing opioids for chronic pain in the United States were not yet available at the time the authors were updating the Third Edition. See the Instructor Resources tab to read a note from the authors about their recommendations for resources around these guidelines. **Clinical Guide to Cancer Nursing** Connie Henke Yarbro, Margaret Hansen Frogge, Michelle Goodman, 2002 This clinical manual is a quick yet thorough reference for any nurse caring for patients with cancer. Derived from *Cancer Nursing: Principles and Practice* Fifth Edition, the content has been thoroughly updated to reflect current practice and is presented in an abbreviated outline format for clinical utility. It can be used as an independent handbook or as a clinical companion to the main text. *Primary Care Case Studies for Nurse Practitioners* Lydia Burke, 2008 Practice nurses and nurse practitioners working alongside general practitioners are required
