poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition s refusal of poststructuralism rather than on providing solutions in the form of teaching templates Upsetting Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing Historical Perspective Michael Harvey, 2022-04-11 Donald Trump in Historical Perspective Dead Precedents is a collection of chapters that utilizes the thinking of historians philosophers and political scientists to explore historical parallels to the presidency of Donald I Trump the 45th President of the United States of America This collection provides an extensive analysis on the ways Trump s impulsiveness breaking of norms and disregard for longstanding democratic pieties caused him to represent a definitive end to the American century an era when American self confidence steadiness and leadership even in the face of titanic challenges were almost universally taken for granted Yet this book also argues how in the longer sweep of history Trump is a familiar figure in the turbulent life of democracies These in depth chapters reveal the ways Trump represents the anti institutionalist the populist demagogue the would be authoritarian who exploits electoral and political vulnerabilities to gain and hold power Through these detailed evaluations these chapters suggest that Trump is not radically unique but that democracies have produced many previous versions of the Trump phenomenon This book is essential reading for scholars and students in political science political theory history and leadership This book is also noteworthy for readers interested in key developments in contemporary American democracy One of its greatest appeals is its extensive look into leadership on an international scale from Donald Trump's global significance to various explorations of non American leaders and the comparisons that can be made **Thinking Critically in College** Louis Newman, 2023-03-07 Finally a college prep book that actually prepares students for college Almost all first year college students discover that college courses are more academically challenging than they expected and certainly harder than classes in high school Professors expect students not just to absorb material but to analyze and synthesize it consider multiple perspectives evaluate conflicting evidence and then apply what they ve learned in new contexts Thinking Critically in College explains how to do all this and more Louis E Newman draws on decades of experience as a professor at Carleton College and Dean of Academic Advising and Associate Vice Provost for Undergraduate Education at Stanford offering the guidance you need to succeed both in college and in life post graduation Unique among college prep books Thinking Critically in College builds on the latest research in learning spells out the key critical thinking skills you need shows you how to tackle actual college assignments and provides exercises throughout to reinforce the lessons Written in a personal engaging style Thinking Critically in College explains how to do the work your professors will require exactly the preparation you need no matter what your academic background Practical accessible comprehensive and interactive Thinking Critically in College is the definitive guide not only for those in college or headed there but for everyone who needs a refresher on thinking clearly The SAGE Handbook of Early Childhood

**Literacy** Joanne Larson, Jackie Marsh, 2012-11-09 This new edition of the much loved Handbook of Early Childhood Literacy has been revised and updated to retain its cutting edge focus on emergent and important areas of research This comprehensive work guides the reader through current social cultural and historical analysis on a global scale The new edition contains a greater range of methodologies and chapters on space and literacy disabilities and early childhood literacy digital literacies indigenous literacy play and literacy policy In the Handbook readers will find coverage of all the key topics in early childhood literacy. The exceptional list of contributors offers in depth expertise in their respective areas of knowledge The Handbook is essential for Undergraduate students Masters students PhD students CPD students researchers and literacy centre personel The second edition of this internationally respected and widely used text encompases a myriad of new issues and insights both through new contributions and thoughtfully revised chapters which raise fresh guestions and challenges for research and practice In pushing the boundaries still further the handbook retains its rightful place at the forefront of research into early childhood literacy practice in the 21st century Professor Teresa Cremin Open University UK This handbook provides in depth knowledge of insights and theories about the dynamic process of how children come to know literacy as thinking humans in social and cultural spaces There is a rich array of research perspectives of children's meaning making through family and digital liteacies play and literacy and in school and out of school literacy experiences Yetta Goodman Regents Professor University of Arizona **Insights into Ethical Theory and Practice** Francis Fallon, 2022-02-06 Ethical issues hold great importance for all of us but expert accounts of them are difficult to access for those outside academics This volume bridges that gap by framing a variety of essays within the field in a way that renders them accessible to experts and non experts alike Many collections on ethics re-publish classic essays and offer contextualization and analysis while other volumes of emerging innovative work presuppose a background in the field This book uniquely borrows from both approaches offering emerging innovative work carefully curating its order for sense and presenting the work so that non experts may understand it The field of ethics is an eclectic one Where other collections on ethics may intimidate the reader by representing the field as an organized monolith or as impenetrable to outsiders this volume is designed to give readers confidence and enthusiasm in approaching a diverse and lively subject Guide to College Writing Assessment Peggy O'Neill, Cindy Moore, Brian Huot, 2009-04-15 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don't have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O

Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices The Cumulative Book Index ,1994 A world list of books in the English language Resources in Education ,2001 Generation 1.5 in College Composition Mark Roberge, Joel Spring, 2008 Literacy in Grades 4-8 Nancy L.
