The Rise of Nationalism in Central Africa Robert I. Rotberg, 1965 Detailed study of the political evolution of two independent states of tropical Africa tracing their efforts to achieve self government **Revolt of the Ministers** Colin Baker, 2001-03-23 I certainly had very extreme views, very violent views, and I certainly did advocate extreme methods. So a leading Nyasaland nationalist characterised the struggle for independent Malawi, but Dr Hastings Banda, a highly respected medical doctor based for many years in London, was invited back to Nyasaland to lead the movement to independent Malawi and the Malawi National Congress. Here was, or so it seemed, a loyal and progressive Government with pro-Western leadership, a final success in the story of British decolonisation. Yet within three months all but one of the cabinet ministers had resigned or were dismissed; former ministers fled the country, including distinguished members of the independence movement. Even the pro-Congress Europeans feared for their lives. Colin Baker unravels this potentially disastrous episode in Malawi's history and in the story of decolonisation. He illuminates not only the immediate post-independence problems of Malawi, a newly independent African state, but charts the growth of Banda's autocracy. This detailed and revealing study reveals the problems inherent in the whole momentous story of Africa in independence and decolonisation. *International Politics*, 1960 **A History of Malawi, 1859-1966** John McCracken, 2012 This title features a general history of Malawi focusing mainly on the colonial period when it was known as Nyassaland, but placing that period in the context of the pre-colonial past **Handbook for Candidates** Nyasaland. Supervisor of Elections, 1961 *The Lag of 21st Century Democratic Elections: in the African Union Member States* Carl W. Dundas, 2011-11-08 This book explores the reasons for the uneven development of democratic elections in the Member States of the African Union. It notes the slow pace of some Member States of the Union to get on top of delivering credible elections and analyzes the attempts which are being made in the 21st Century to remedy the situation **Unpopular Sovereignty** Luise White, 2015-03-23 A truly satisfactory history of Rhodesia, one that takes into account both the African history and that of the whites, has never been written. That is until now. In this book, Luise White highlights the crucial tension between Rhodesia as it imagined itself and Rhodesia as it was.

imagined outside the country Using official documents novels memoirs and conversations with participants in the events taking place between 1965 when Rhodesia unilaterally declared independence from Britain and 1980 when indigenous African rule was established through the creation of the state of Zimbabwe White reveals that Rhodesians represented their state as a kind of utopian place where white people dared to stand up for themselves and did what needed to be done It was imagined to be a place vastly better than the decolonized dystopias to its north In all these representations race trumped all else including any notion of nation Outside Rhodesia on the other hand it was considered a white supremacist utopia a country that had taken its own independence rather than let white people live under black rule Even as Rhodesia edged toward majority rule to end international sanctions and a protracted guerilla war racialized notions of citizenship persisted One man one vote became the natural logic of decolonization of this illegally independent minority ruled renegade state Voter qualification with its minutia of which income was equivalent to how many years of schooling and how African incomes or years of schooling could be rendered equivalent to whites illustrated the core of ideas about and experiences of racial domination White s account of the politics of decolonization in this unprecedented historical situation reveals much about the general processes occurring elsewhere on the African continent

A History of Zimbabwe, 1890-2000 and Postscript, Zimbabwe, 2001-2008 Chengetai J. M. Zvobgo, 2009-10-02 This study combines in one volume the history of Zimbabwe from the advent of British settlers in 1890 to 2000 including women s rights and human rights in Zimbabwe It is a political social and economic history The Postscript examines the major developments in Zimbabwe from 2001 to 2008 The two previous major studies on the history of Zimbabwe *The Past Is Another Country* by Martin Meredith London Andre Deutsch 1979 and *The Road to Zimbabwe 1890-1980* by Anthony Verrier London Jonathan Cape 1986 are now out of date This volume brings the historical study of Zimbabwe almost up to the present day

[A History of Southern Africa](#) Alois S. Mlambo, Neil Parsons, 2018-09-08 From early human civilisation to today this book illuminates the history of southern Africa Interweaving social cultural and political history archaeology anthropology and environmentalism Neil Parsons and Alois Mlambo provide an engaging account of the region s varied past Placing African voices and agency at centre stage rather than approaching the subject through a colonial lens *A History of Southern Africa* provides an engrossing narrative of the region This textbook is ideal for both undergraduate and postgraduate students of History and African Studies and will provide an essential grounding for those taking courses in the history of southern Africa Its lively and accessible approach will appeal to anyone with an interest in global history

Negotiating the End of the British Empire in Africa, 1959-1964 Peter Docking, 2021-12-02 This book examines conferences and commissions held for British colonial territories in East and Central Africa in the early 1960s Until 1960 the British and colonial governments regularly employed hard methods of colonial management in East and Central Africa such as instituting states of emergency and imprisoning political leaders A series of events at the end of the 1950s made hard measures no longer feasible including criticism from the United Nations As a result

softer measures became more prevalent and the use of constitutional conferences and commissions became an increasingly important tool for the British government in seeking to manage colonial affairs During the period 1960-64 a staggering sixteen conferences and ten constitutional commissions were held for British colonies in East and Central Africa This book is the first of its kind to provide a detailed overview of how the British sought to make use of these events to control and manage the pace of change The author also demonstrates how commissions and conferences helped shape politics and African popular opinion in the early 1960s Whilst giving the British government temporary respite conferences and commissions ultimately accelerated the decolonisation process by transferring more power to African political parties and engendering softer perceptions on both sides Presenting both British and African perspectives this book offers an innovative exploration into the way that these episodes played an important part in the decolonisation of Africa It shows that far from being dry and technical events conferences and commissions were occasions of drama that tell us much about how the British government and those in Africa engaged with the last days of empire Pan-Africanism Versus Partnership Brooks Marmon, 2023-04-29 This book takes the transnational history of southern Africa's liberation struggles in an innovative direction It provides one of the first targeted studies of the manner in which the wider process of African decolonisation shaped the political struggle for control of Southern Rhodesia colonial Zimbabwe It offers an in depth survey of the repercussions of pan African developments on national level political thought amidst one of the most seminal moments of the continent's history The book draws on over a year of fieldwork in southern Africa as well as archival collections in the USA and UK to explore the seismic re-alignments that occurred in the white settler dominated territory in southern Africa as self-determination became a widely accepted international principle virtually overnight In particular it focuses on the impact of decolonisation struggles and/or independence in Ghana Nigeria the Democratic Republic of the Congo and Malawi on Zimbabwe's liberation struggle In so doing it also offers new context on the roots of contemporary repression in Zimbabwe

British Documents on the End of Empire: Central Africa, Part I, 2005 **Historical Dictionary of Malawi** Owen J. M. Kalinga, 2011-12-09 Malawi established as the British protectorate of Nyasaland in 1891 gained its independence in 1964 and moved immediately into three decades of one party rule Since the mid 1990s however the country has held multi party elections as directed by its constitution and President Bingu wa Mutharika is currently serving his second term The fourth edition of the Historical Dictionary of Malawi now newly expanded and updated covers a wide range of areas in Malawi history including the rise and fall of state systems religious and socio political movements the economy environment transportation war disease and natural sciences Author Owen J M Kalinga charts developments from pre history to the post Banda Malawi from Tom Bokwito to James Sangala and from the UMCA mission at Magomero to the second term of Bingu wa Mutharika's presidency paying particular attention to the individuals groups communities and forces that have molded this South African country The dictionary itself contains over 1 000 cross referenced entries on crucial aspects of Malawi history

and it is the most extensive single volume reference work on Malawi available In addition to the dictionary entries Kalinga provides a chronology containing important dates and events and an informative bibliographical section organized by subject The final part of the bibliography gives the reader a list of current and obsolete newspapers and periodicals related to Malawi an ideal resource for further research This newly updated edition is an excellent access point for students researchers and anyone wanting to know more about Malawi *Garfield Todd: The End of the Liberal Dream in Rhodesia* Susan Woodhouse, 2018-04-17 Against the backdrop of a politically approved view that Europeans did little to further the Zimbabwean nationalist freedom movements before Independence in 1980 this book will help to nail that misconception against a wall The story of Garfield Todd and his various roles as Christian missionary liberal prime minister of southern Rhodesia high profile opponent of UDI and its architect Ian Smith from 1965 to 1980 will surely be an eye opener for many young people in central and southern Africa who may never have heard of this great man who spent his life in education and public service The role of Garfield Todd and some of the people who worked with him has been effectively airbrushed from the pages of the official Zimbabwean story Why is the question Susan Woodhouse gives us the answer by telling the story of a small but influential group of men and women who dared swim against the racial current in Africa after the Second World War Its a story told with warmth personal insight and often great humour This Edinburgh based author who Sir Garfield said knew the Todds better than anyone else has introduced a small but dedicated group of long forgotten activists to a new generation of readers Malawi British Information Services, 1964 **News Letter** Institute of Race Relations, London, 1962 **African Activists in a Decolonising World** Ismay Milford, 2023-03-09 As wars of liberation in Africa and Asia shook the post war world a cohort of activists from East and Central Africa specifically the region encompassing present day Malawi Zambia Uganda and mainland Tanzania asked what role they could play in the global anticolonial landscape Through the perspective of these activists Ismay Milford presents a social and intellectual history of decolonisation and anticolonialism in the 1950s and 1960s Drawing on multi archival research she brings together their trajectories for the first time reconstructing the anticolonial culture that underpinned their journeys to Delhi Cairo London Accra and beyond Forming committees and publishing pamphlets these activists worked with pan African and Afro Asian solidarity projects Cold War student internationals spiritual internationalists and diverse pressure groups Milford argues that a focus on their everyday labour and knowledge production highlights certain limits of transnational and international activism opening up a critical albeit less heroic perspective on the global history of anticolonial work and thought **News Letter** Institute of Race Relations, 1962
